INTERURBAN LINE IS TRADE BOOSTER

Indiana and Ohio Cities Have Outstripped Rivals Because of Network of Trolley Roads.

LIGHT PLANTS AID PROFIT

Steam Railways Expected to Control Own Electric Systems Where Conditions Demand It.

BY RAYMOND.

Cleveland, O., Sept. 11.—[Special.]—At the conclusion of a long study of the interurban trolley roads of the middle west, one is forced to wonder again why it is that progressive cities like Chicago, Milwaukee, and St. Louis have allowed themselves to be distanced in the race for trade by Cleveland, Cincinnati, Indianapolis, Columbus, Toledo, and Detroit.

As a means of neighborhood communication, as a trade getter, the interurban trolley is far ahead of the steam railroad. It induces people to come into the central city who would never move away from home if they had to depend on a railroad running on regular time tables. On the contrary, the interurban lines running into the principal cities of Indiana and Ohio are crowded to their capacity almost all the time.

Interurban lines which started out on a two hour schedule have soon been compelled to double the number of their trains. Moreover, the country population has taken readily to faster service and more luxurious cars, and has shown a readiness to pay for special accommodations which is not in accord with the popular estimate of the bucolic character.

Steam Roads Lose Short Haul.

The experience of most of the interurban railroads is that while the long distance traffic is not generally profitable, there is a great amount of journeying from town to town, and it is this class of travel which the steam railroads never have been able to cultivate with success. Suburban travel by steam roads always has been profitable because it is made up by people who do business in a city but prefer to live in the country. The smaller cities, however, have always been more or less isolated and remained so until the advent of the interurban electric road.

Ohio is peculiar among the western states because of its large number of small cities. It has, therefore, become the natural home of the interurban system, even to a greater extent than Indiana. The Ohio neighborhoods are all prosperous. The operating expenses seem to be small as compared with the gross receipts, and, while the steam railroads are frequently managed by receivers, the trolley lines exhibit a remarkable history of financial success.

Lighting Plants Side Issue.

In most cases interurban lines organized as individual enterprises have been able to buy up street car and electric light plants in practically all the towns along the line, and in many instances the purchases have been made out of current receipts. In fact, an interurban line to be financially successful necessarily must control the local plants, because the big powerhouses now in use can be profitably managed only on a wholesale basis.

The interurban line which manufactures its electric power on a large scale soon finds itself in a position where it can defy all competition and can supply light and local power merely as a surplus. The limit of distribution of electric light and power has not yet been reached, and the interurban lines for a radius of a hundred miles, with the local car lines and electric lights in the whole territory, can easily be supplied from a central point at a price which simply defies small local competition.

In the early days of the interurban system, which is not ten years ago, it was supposed to be necessary to have powerhouses at frequent intervals, and a good deal of money was wasted in that way. Then the electrical engineers found they could handle their currents at long distances. The result was an inevitable combination of interests, so that now in Illinois, Indiana, and Ohio three syndicates of capital practically control the systems in the three states so far as their strictly interurban business is concerned.

Burden Lifted from Steam Roads.

Travel by trolley came just in time to relieve the steam railroads of their increasing congestion. The roads practically took possession of the local business at a time when the steam roads were being taxed to their utmost capacity to look after the through traffic.

Most of the through cars now carry baggage as a regular part of their business, the steam railroad rule of 150 pounds for each passenger being generally observed.

The time is not far distant, it is said, when nearly all the steam railroads will seek to control their own trolley system. The first move in this direction was made wisely by the New York, New Haven and Hartford railroad, under the direction of President Mellen, and that line now runs both steam and electric lines side by side, and with equal profit. Those who have had practical experience with the management of electric lines insist that the steam roads will be forced, in the next five years, to adopt electricity as the motive power for all local lines, and possibly on the through routes.

Electric Locomotive to Be Developed.

The real electric locomotive is still to be developed, according to the opinion of the best interurban managers. For passengers the individual car with its own motive power has many advantages. It permits a frequent schedule, which seems to be in the minds of the people the controlling argument for the adoption of the electric system. As the freight and express business grows on the electric lines, however, trains of cars separate from the passenger coaches will come into use more and more. Then the electric locomotive, pulling many cars, will come more and more into use for all freight purposes. In fact, on a number of lines it has almost been found necessary to run trains and the electrical engineers have provided a system by which cars are harnessed together and the power applied equally by a single motorman.

With traction depots in many of the large cities and with long lines under a single system, the interurban line has grown to be something entirely distinct from the local street car roads, of which it was once merely an extension. The electric trolley as a means of transportation between cities is as much of a fixed fact now as it is on the streets of the average city, and the chances are that we have seen only the beginning of this means of local travel.

DEPOSE HARAHAN, IS FISH DEMAND

Bitterness of the War Between Former President of Illinois Central and E. H. Harriman Revealed.

GRAVE CHARGES MADE.

Present Head of Railroad Is Accused of Juggling Books and Trying to Mislead the Directors.

New York, Sept. 11.—[Special.]—The bitterness of the personal war between Stuyvesant Fish and E. H. Harriman was revealed today. Mr. Fish seeks nothing less than the expulsion of J. T. Harahan from the presidency of the Illinois Central.

The famous resolutions which were read at the directors' meeting on Aug. 28, which resulted in Mr. Fish knocking Mr. Harahan down, were made public today.

In the resolutions Mr. Fish practically accuses President Harahan of juggling the books of the Illinois Central in order to show an increase of business that did not actually exist.

Mr. Fish further accused Mr. Harahan of using the private wire of the Union Pacific to carry on a telegraphic correspondence with E. H. Harriman concerning Illinois Central affairs.

He further accuses Harahan of falsifying the records and misleading the directors of the Illinois Central in regard to the business of the company.

Harahan Still on Top.

So far in the struggle Mr. Harahan, supported by E. H. Harriman, has been able to sit tight and defy Mr. Fish's efforts to oust him.

President Harahan replied to the charges at today's meeting of the directors, but his reply is withheld from the public.

But the charges made by Mr. Fish are so serious that even the friends of Harahan have been compelled to take official notice of them. They are under investigation of a committee of the directors, appointed on July 24. That committee, composed of Directors Cornelius Vanderbilt, J. W. Auchincloss, and Walter Luttgen—all Harriman supporters—has not yet reported.

Although the quarrel between Messrs. Fish and Harriman dates back to a year ago, when Harriman deposed Fish from the presidency of the Illinois Central and placed J. T. Harahan at the head of the company, the present struggle on the part of Fish to have Harahan dismissed under charges dates back only to July 24 last.

Fish Accuses Harahan.

On that day Mr. Fish introduced a lengthy preamble and resolution, making his preliminary charges against President Harahan.

The preamble recited that for months J. T. Harahan, as president, and A. G. Hackstaff, as vice president and secretary, had been carrying on their telegraphic correspondence through the office and over the private wire of the Union Pacific railroad company, Mr. Harahan sending his dispatches over that wire relating to the intimate affairs of the Illinois Central, addressed, among others, to E. H. Harriman, the president of the Union Pacific.

It was further asserted in the resolution of July 24 that Secretary Hackstaff had been in the habit of sending out reports to the directors of the Illinois Central, inserting in them names of division superintendents and other officers, which are not in the telegrams as sent by Harahan, through E. H. Harriman to Mr. Hackstaff, thereby falsifying the record and misleading or endeavoring to mislead the directors as to the business of the company.

Wants Harahan Expelled.

The resolutions then continued:

"Resolved, That those members of this board who will certify on honor that they are not and have not been at any time within twelve months interested in the Union Pacific railroad company as stockholders or otherwise be appointed a committee to inquire into these matters and report whether or not Mr. J. T. Harahan should be dismissed from his office as president, and whether or not Mr. A. G. Hackstaff should be dismissed from his office as vice president and as secretary."

Naturally the resolutions of July 24 created a sensation, and the Harriman directors met it promptly. Charles A. Peabody moved that the resolutions be referred to a committee appointed by President Harahan. This was not quite the way Mr. Harriman wanted it, and he jumped up and appointed the committee himself. They were Cornelius Vanderbilt, J. W. Auchincloss, and Walter Luttgen. He offered the appointments as an amendment to the motion offered by Mr. Peabody, who promptly accepted it. Mr. Peabody is one of Mr. Harriman's most loyal supporters.

Fish Renews the Attack.

Nothing further developed after that until the famous meeting of Aug. 28, at which the fight occurred. On that date Mr. Fish renewed his attack on Harahan in the following resolutions:

"Whereas, During the first four months of the fiscal year ended June 30, 1907—to wit: July, August, September, and October, 1906—the net receipts of the Illinois Central railroad company increased by $865,070, and

"Whereas, In the next four months—viz.: November and December, 1906, and January and February, 1907—the net receipts decreased $572,786; and

"Whereas, In or about February, 1907, a policy of retrenchment in operating expenses, especially in response to maintenance of way and structures, was adopted by the board of directors on the recommendation of Mr. J. T. Harahan; and,

"Whereas, In the last four months of said fiscal year—to wit: March, April, May, and June, 1907, the net receipts increased $1,253,880; and,

"Whereas, For the month of June, 1907, the net receipts were reported as showing an increase of $604,751 over the net receipts for the month of June, 1906.

"Whereas, (here was printed in a Chicago paper of Aug. 19, 1907, the following article:

While there has not been a single important change in the staff of the officers since Mr. Harahan took charge in October, vigorous work and the formation of new traffic alliances have resulted in one of the most remarkable increases in earnings ever shown by a railroad.

CHASE STAGE DOOR 'JOHNNIES'

Pulchritudinous Chorus Girls Shepherded by the Police.

GOOD-BY TO ALLEY "DATES."

Vealy Youths and Tough Old Bald Heads Told to "Move On."

The police crusade against the "Johnnies" who annoy chorus girls about the stage doors of downtown theaters began last night.

Policeman John Ennis, who patrols in the Michigan avenue district, reported the first actual firing upon the "enemy." He said he saw four young men attempting to meet young actresses, and he started after them. In order to frighten them he fired three shots. All of the villains ran, but a south park policeman stopped one of them outside of the Auditorium hotel entrance. The "Johnny" appeared to be of voting age and was dressed in evening attire and wore an opera hat.

When Ennis reached him he begged to be released, and was let go with a warning to keep away from stage doors in the future. He got into a cab, without giving his name, and was driven south in Michigan avenue.

At the stage entrance of the Illinois theater, where "The Little Cherub" is playing, a small group of "Johnnies" appeared just before the show ended. The sudden appearance of a policeman, however, frightened them away. All the girls left the stage entrance without being "annoyed" by invitations to supper. They got them later at drug stores.

Bluecoat "Shooes" Johnnies.

"It's Johnny Jump-up for you," said the patrolmen who stations himself at the entrance to the Schiller building, through which the girls in Louis Mann's "White Hen" company start on their homeward way. The group of loiterers in the hall, which increased in "volume" as the first skirt was visible passing the elevators, laughed and moved to one side.

"No, it's the goods this time," continued the blue coat, gently, "shooing" them out. "The chief says you people block up the sidewalks and speak to girls you don't know and you're no better than State street mashers. Order 23 says it's 'Skidoo!' so go and sit on the girl's boarding house steps till she goes home."

He accompanied his words by actions that scattered the loafers to adjacent corners or to the opposite side of Randolph street, where they could watch for a glimpse of their momentary flames.

"Kid Burns" Squelches Loafers.

Victor Moore, alias "Kid Burns," finished with "The Talk of New York" in time to join in a one sided conversation directed by the doorkeeper of the Colonial to a prize collection of well dressed youths, one of whom was holding open the door of a seagoing hack.

"That's right, Joe," assented "the Kid," "just tell them what you think of them, and then they'll have some idea of what the girls say about them when they go home. Remember, boys, we have some women here with as fine breeding as your mother had."

A trio of girls heard his closing words, and passed the tip to the rest who were following, and laughter greeted the "boys" as they passed out. No arrests. Also no suppers.

Autos Packed with 'Johnnies' Watched

In the alley opposite the new courthouse on Clark street two automobiles with headlights blaring and "Johnnies" flaring stood waiting for the "Red Mill" coryphees at 11:25. A stout policeman toddled down the alley and halted near the stage door—which meant near the autos. In the shadows more than forty "Johnnies" were lurking and they wondered what the presence of the "cop" could mean.

"Are you here to sweep the 'Johnnies' from the stage door?" a reporter asked the policeman.

The policeman's fingers fiddled nervously on the handle of his half concealed club.

"Why don't you tackle them right now?"

"'Cause they said to go aisy tonight—to keep me eye peeled—to give the poodles a warning—and then wait till next night for de hickory whacks and de bootings."

"Have you warned them?"

"Have I? I know most of dem and it's the scare they had from me that keeps the real mob waiting across the street, not here."

The chorus girls emerged from the stage door and were not molested. Their evening repasts were more frugal than usual.

At the La Salle stage entrance, which is Calhoun place, on the west side of Clark street, twelve to fifteen youths and one lone baldheaded man stood under the porch and waited for the girls, but when the latter came forth and heard the tale of the new order they giggled and were not annoyed.

Complaints Cause New Order.

The new order was issued during the day by Chief Shippy in response to complaints from Randolph street playhouses.

"I think the Chicago 'chappie' is worse than the boy who haunts the stage door in New York," said J. M. Govette, property man at the Garrick. "We always expect men to hang around the stage door, but the 'Johnnies' here were so numerous that the girls complained and I had to call the police."

"Protection will be given chorus girls against persons who make any attempt to mislead them," said Lieut. Collins of the Central detail. "Citizens will also be protected against the chorus girls," continued the policeman. "We have had many complaints against chorus girls and their actions after performances. At the Schiller building, tenants have complained that the actions of some of the chorus girls are as bad as those of the men who meet them."

ROBBED IN TELEGRAPH OFFICE.

Mrs. Viva Kemker of Los Angeles Reports Pocket Being Picked of a $400 Watch.

Detectives are searching for a well dressed thief who robbed Mrs. Viva Kemker of Los Angeles, Cal., of a diamond studded watch worth $400 while she was in the office of the Postal Telegraph company yesterday.

Mrs. Kemker came to Chicago to settle up an estate and has been a guest at the home of Dr. O. Budde, 324 Thirty-first street. She asked a man on an Indiana avenue car how to reach the telegraph office. He showed her the way, and after he left her she noticed the loss of her watch.

A burglar who entered the home of Ald. Frank L. Race, 5719 Ontario street, Austin, in the absence of members of the family, escaped with $8.40 taken from a savings bank owned by Hazel Race, 11 years old, daughter of the alderman. All the rooms in the house were ransacked.

BREAKS INTO HIS OWN OFFICE.

Adams Express Agent in Hyde Park Forgets Keys and Is Arrested as Burglar.

A patrol wagon filled with policemen was hurried from the Hyde Park station to the branch office of the Adams Express company at 4243 Cottage Grove avenue shortly before midnight when the police received telephone messages that burglars were forcing an entrance. When the police arrived they found the glass in the front door broken. Three policemen entered, and found Edward Fitzgerald, the agent, in bed in the rear. Fitzgerald explained that he was not a burglar, that he went downtown and left his keys inside the door, so he broke in.

Best previous record from Queenstown to Sandy Hook (Lucania)—5 days 7 hours and 23 minutes.
Best record from Southampton to New York (Kaiser Wilhelm der Grosse)—5 days 20 hours.
Best day's previous run by any boat—601 knots in 24 hours and 53 minutes by the Deutschland.

New York, Sept. 11.—[Special.]—The marvelous speed of the new ocean greyhound, Lusitania, in crossing the Atlantic means that all previous records will be smashed.

An official press report from the wireless telegraph station at Sable Island received at midnight stated the Lusitania was 150 miles east of that point at 11:20 o'clock. Apparently the speed of the ship has been materially lessened and it was then running only a fraction over twenty knots an hour. This being the case, it would require thirty-one and a half hours for the ship to reach Sandy Hook bar, bringing it there at a few minutes before 7 o'clock Friday morning.

In order to beat the Deutschland's record the Lusitania must reach the bar before 8 o'clock Friday morning.

Plan Big Run Today.

A wireless dispatch from Capt. Watt of the Lusitania, sent at 5 o'clock to the wireless station at Cape Race, said that the ship was at that time 1,189 nautical miles east of the Sandy Hook lightship. Later dispatches flashed to this port and to London via Cape Race said that since Tuesday noon to noon today the run of the giant liner had been 570 miles. The dispatch added:

"We have now sunshine and a smooth sea. Passengers are eager that the Lusitania may beat the record of the Deutschland in a single day's run to the westward, which is 601 nautical miles in twenty-four hours and fifty-three minutes. There is a prospect of doing this tomorrow.

"The engines are working perfectly, but the staff is not yet quite a part of the machine. So marvelous is the smoothness of the sailing that the passengers might play billiards in some compartments practically as if the great ship were a large hotel on solid land. The ship's surgeon says he never has seen so few cases of seasickness. Only the most squeamish have succumbed. There have not been more than twenty cases of indisposition, and these have been of a mild type.

Rival for Lusitania.

[BY CABLE TO THE CHICAGO TRIBUNE.]

BELFAST, Sept. 11.—Harland & Wulff, the shipbuilders, admit officially that they are working on plans for a new White Star liner which will be larger than the Lusitania. The keel will be laid in a few months. The new boat will be fitted with reciprocating engines and turbines.

PHONE FRANCHISE TODAY OR NEVER IN THE COUNCIL.

Company Must Get Its Pending Grant This Meeting or Measure Will Not Be Seen Again.

EVEN CHANCE FOR CITY.

Half of the Aldermen Opposed to Passing Such an Ordinance at the Present Time.

The Chicago Telephone company, to get its twenty year renewal franchise on the terms it has proposed, must get it from the city council this afternoon. Its ordinance must beat the charter to a vote, and the only way in which that can be done, leaving out the faint possibility of still another council meeting before next Tuesday, Sept. 17, is by getting a majority of the aldermen today.

That leaves Mayor Busse's possible action out of the reckoning. A veto by the mayor would put an effectual snuffer on this ordinance, and if the charter be adopted the present measure never will be revived. The mayor has not indicated what he will do. Aldermen have called on him to sound him, but all he has said is that his turn at the measure comes when they have finished with it.

Even Division in Council.

As nearly as the lineup on the ordinance can be determined it is about an even chance between the opponents and advocates of the measure. Thus Chicago stands half a chance of getting a square deal from the council. There is better than half a chance that some of the important modifications which have been proposed will be made in the ordinance before it can be rushed through ahead of the charter election.

It is not within the power of the amendments which have been proposed, or which may be proposed today, to convert the ordinance into such a measure as could have been expected from the city council. Entire revision would be required for that purpose, and one council session does not give time for such work.

If the ordinance is to be passed by the council today the best that can be secured for the city will be the adoption of some of the amendments intended to give still lower rates on certain classes of telephones, to make an interchangeable service possible with independent companies when the independents will agree to it, and to give the city a more equitable bargain in the matter of compensation.

Strength of the Opposition.

Twenty-five aldermen have put themselves on record as opposed either to the ordinance in its present shape or to its passage at the present time. Ald. Lippe, Hey, Beilfuss, Connery, Cullerton, and O'Connell said yesterday that they were not in favor of rushing the measure through, although some of them said they were in favor of its terms.

The opposition to the measure has two sources of strength. There are aldermen who would be willing to vote for it if it were not for the fact that the charter election is only five days away, and they do not like to be put in the attitude of passing an ordinance in a hurry to avoid a referendum.

There are other aldermen who do not believe that such an ordinance as a telephone franchise should be submitted to popular vote, but they are opposed to the present measure because of its terms.

With these two elements of strength the opponents of the ordinance may be able to beat it, and they are certain to amend it in some particulars.

Fight on City's Compensation.

It is expected that one of the big fights will come over the question of increasing the city's compensation or reducing the limitation of the company's dividends. One of the Snow-Foell amendments would reduce the possible earnings from 10 to 8 per cent on the average investment. One by Ald. Fulton would increase the city's compensation from 3 per cent to 5 per cent.

Lawyers say that if the city wants to get anything more out of the ordinance than is provided now the way to get it is to increase the compensation on the gross receipts. The dividend record of the Chicago Telephone company would indicate that the city with perfect fairness can demand a better bargain.

The ordinance which it seeks to supplant by the pending measure and which would expire in two years has been a "good thing" for the company. Since 1892 the stock holders have put $11,000,000 of new cash into the business, and have taken out $12,260,000 in dividends. They have a plant and other assets which are valued at $19,000,000.

Yet this company which has had so much dividend fodder in the past has a perfectly good appetite for more, and the city council is asked to feed it.

The city, never having tasted many profits from the telephone business, is supposed not to have a keenly developed appetite, and therefore will not object to getting along with the same amount of food which it has had in the past.

The company alleges that because of reductions in rates which are provided in the proposed ordinance it cannot continue to pay the dividends which it has in the past.

Record of Dividends.

Here is the record of the company's dividends as compared with the average telephone rate in the last ten years:

Year.	Dividends, per cent.	Average rate.
1897	12	$123.53
1898	12	120.47
1899	12	113.80
1900	12	100.81
1901	12	87.22
1902	10	70.33
1903	10	63.99
1904	10	61.14
1905	10	57.79
1906	10	53.39

There does not seem to be any reason for the company to fear that it will not be able to maintain this dividend rate, even if rates be reduced by the pending ordinance. The reduction in the average rate in the ten years for which figures are given may be attributed in large part to the extension of the cheaper forms of telephone service.

Rates Under New Ordinance.

This reduced the average rate, but it increased the business, and the dividends remained practically the same. Under the proposed ordinance the company offers other forms of reduced service. It maintains the heavier rates at their present scale and

offers reductions only in charges for equipment. It reduces residence rates and the guarantees on prepayment telephones. It gives more equipment for less money, but its big rates it maintains at their present schedule.

The man who is paying $385 a year for a commutation trunk line will continue to pay it, but he will get a reduction in the price of the equipment for which he pays extra. The man who is paying $125 for a flat rate business telephone will continue to pay $125—if he wants unlimited service—but he will not have to pay mileage charges.

The guarantees on the prepayment service are reduced, but the company in one year collected $450,953 in excess of its guarantees on this service, the conclusion being that the average subscriber pays more than he contracts to pay and that the telephone collector finds more money in the box than is needed to square the guarantee.

This excess has been swelled by the fact that where a deficit was found the subscriber made it up and where the amount was in excess the company kept it. This has been corrected to the extent that a deficiency of one month may be made up by the excess amounts of the next two. The subscriber is given three months in which to make a general average of three months' guarantees, and the result undoubtedly will be to cut into the excess which the company has collected on prepayment telephones.

Lower Rates Increase Business.

But the company, in asserting that it cannot make even 6 per cent earnings on its average investment, entirely ignores the fact that more liberal treatment and better rates will increase its business, or, as far as it does recognize the fact, endeavors to set up the argument that increasing business does not produce increasing profits at the same ratio.

As a matter of fact the company first proposed the 10 per cent limitation not because it did not expect to reach it, but as a "reform" proposition which might be considered as an automatic rate reducer. It had come to the conclusion that 10 per cent dividends or 10 per cent earnings on its average investment—they may be accepted as the same thing in the case of the telephone company—would represent the limit which the city possibly would grant to a monopoly, and its idea was that this limitation would act as an automatic reducer of rates.

Rather than hand net earnings over to the city, it being provided that all in excess of 10 per cent on the average investment goes to the city, the company would reduce rates, thus increasing the attractions of the telephone service.

If the limitation can be reduced to 8 per cent and made a sound legal proposition, and if the company's first theory of its automatic operation were carried out in fact, the subscribers might come to benefit from the amendment which is proposed for this reduction.

Ten Per Cent Earnings Unique.

On the subject of the 10 per cent earnings the National Court Reporter, in an article to be published this morning, will say:

"There is a slight reduction in rates and a promise of improvements, but there is no reason to believe that the difference will sensibly affect the income of the company, and 10 per cent dividends are likely to be earned during the next twenty years if this ordinance passes.

"This is the only telephone franchise—or, for that matter, the only franchise of any kind—of which we have knowledge which has recognized 10 per cent a year as a fair and reasonable return on a business without any risks whatever—whose returns are as certain as the payment of interest on the public debt. Unlimited capital can be secured for public corporations such as railway companies, which are subject to much keen competition, in spite of mergers and 'gentlemen's agreements,' at 6, 5, and even 4 per cent. Why should the people of Chicago pay twice as much, and probably more than twice as much, on the capital invested in the telephone plant?

"But why should the city fight with the telephone company for the petty concessions which it has made from its previous charges or for the retention of the maximum charge of $125 for unlimited service, under which it has grown enormously rich?

"Why should it deal with that company at all, except as an humble applicant for the privilege of operating a telephone system upon as favorable terms as any other applicant?"

Council Leaders Confident.

Ald. Linn H. Young, who as chairman of the gas, oil, and electric light committee will head the attempt to pass the ordinance, said during the day that he was confident of a majority in favor of it.

"Some of the amendments which have been proposed are reasonable," he said, "and will be adopted. Others are unreasonable and should be defeated. The measure is an excellent one for the telephone subscribers and should be passed."

Ald. Snow, who is expected to lead the fighting against the ordinance, said that he had not attempted to make any sort of a canvass, but from statements which had been made to him by other aldermen he thought the opposition had at least an even break.

"We have as good chances as the other side has," he said.

Manufacturers to Take Hand.

The Manufacturers' Telephone company, whose proposition never got beyond committee stages, will put up as much of a fight as is possible in a council meeting to have the entire matter referred to the committee or to have the committee report out the Manufacturers' ordinance for a fair trial with the Chicago Telephone ordinance on the floor of the council.

Levy Mayer, who represents the new company as attorney, came back from Europe during the day and said he did not believe that the aldermen could overlook "the glaring injustice of passing an ordinance which offers much lower compensation to the city and much higher rates to the subscribers than those offered in the ordinance proposed by the Manufacturers."

He also pointed to the fact that the Chicago Telephone ordinance, as it stands, is not the ordinance which the majority of the gas, oil, and electric light committee would have recommended if Mayor Busse had not stepped into the discussion long enough to force a retention of the $125 flat rate.

"Members of the committee who argued so long and seriously that the measured service was the only service," he said, "immediately saw the error of their judgment when Mayor Busse stepped in and demanded unmeasured service. This is a sample of the manner in which the Chicago Telephone company's measure has been handled, advocated, and supported by a majority of the committee members."

What Bell Company Did in Joplin.

A statement of facts regarding the operations of the Bell Telephone company in a Missouri town is furnished by a former resident of that town, now a subscriber of the Chicago Telephone company, as illuminative in the present local situation.

The Bell concern there formerly charged $72 a year for a business phone. Then an independent company came in, furnished phones at $18, and free connection with neighboring cities. The Bell company was forced to meet the rate. Later, the Bell company joined the independents in an agreement to restore toll charges for connections with neighboring towns.

ASKS A RECEIVER FOR ROAD.

Mrs. Mary Barteau Charges Conspiracy to Take Over Assets of Traction Company.

Mrs. Mary Barteau yesterday applied to the Circuit court to have a receiver appointed to take charge of the affairs of the Chicago and Southwestern Traction company.

She charges that a conspiracy exists between Michael B. Gearon, G. A. Little, J. Meredith, and S. W. Jacobs to take over the property, franchises, and other assets of the traction company without compensation for the benefit of the Illinois and Fox River Central railroad company, which, she says, was organized by them in April.

Mrs. Barteau sets forth that Gearon, who was her counsel, violated confidences she reposed in him and became possessed of valuable information which is now using for his own benefit.

She asks that the defendants be enjoined from constructing any more tracks along the right of way of the company or moving any of the improvements already made.

TRACTION REBELS SUING FOR SUCCOR

Bondholders Who Caused Chaos at Last Try to Repair Their "Victory."

ASK CITY FOR MORE TIME.

Expectation Now That Council Will Grant Extension at Meeting Today.

The city council must decide this afternoon whether the Union Traction system shall pass out of existence Saturday or have a sixty or ninety day breathing spell.

An application will be made at the meeting today for an extension of the time in which the Chicago Railways company can accept its ordinance, and the idea around the city hall yesterday was it would probably be granted. If it is not, that ends all discussion.

The request for time is made by the representatives of the bondholders, not by the officials of the Union Traction company. These same trustees for bondholders were the persons who precipitated the present crisis by appealing from Judge Grosscup's order allowing the Chicago Railways company to operate and confirming his plan of reorganization.

After they had won their "victory" in the United States Court of Appeals they woke up from what Walter L. Fisher had characterized as a state of "chronic somnambulism," and, realizing that the bondholders would be as heavy sufferers from the "victory" as anybody else, are now asking time in which to agree to the reorganization plan they formerly objected to.

Speak for Yerkes Holders.

Notice that the application would be made was given the city at a meeting held yesterday. At it were present:

Mayor Fred A. Busse, Walter L. Fisher, special traction counsel; Chairman Milton J. Foreman of the council committee on local transportation, Chairman Frank I. Bennett of the finance committee, and Corporation Counsel Brundage, representing the city; and President Orson Smith of the Merchants' Loan and Trust company, President John J. Mitchell of the Illinois Trust and Savings bank, and President Byron L. Smith of the Northern Trust company, representing practically all of the bonds of the Union Traction properties held in Chicago. They had with them assurances from Philadelphia that the interests there which control practically all of the bonds of the "Yerkes companies" were with them in their appeal.

The proposition made was that the council grant an extension of ninety days to the Chicago Railways company so as to give the bondholders time in which to get together and follow the advice of Justice Brewer by accepting the Grosscup plan of reorganization by private agreements made out of court.

Two Promises by Company.

In consideration of this extension of time it was agreed that the Union Traction company should obligate itself:

To keep up its work of improving its service regardless of the truce granted it.

To accept this extension if granted as the end of the whole matter and not ask for another if nothing was accomplished when this one had expired.

It was agreed that the bankers have drawn an ordinance setting out these terms, and that it be submitted to the city officials early his morning. Then, if approved, it will be sent to the council in the afternoon.

Says City Would Lose Nothing.

While the representatives of the city did not commit themselves directly one way or another the sentiment was in favor of giving the traction people another chance. Mayor Busse remarked afterwards:

"It is of course a matter for the council to decide. It does not come within my line of duties just now. I will, however, look over the plan the applicants will make in writing in the morning and then probably make some sort of recommendation to the council.

"It has been represented to us that the city would lose nothing by granting the extension; that more rehabilitation work can be done by the Union Traction company between now and Jan. 1 than if the application was denied."

Sentiment Is for Extension.

Corporation Counsel Brundage made a similar statement, adding that, while no promises were extended to the bankers who called on the mayor, the sentiment of the city officials present seemed to be that it would be wise to grant the request if it could be done without delaying the improvement of the service on the north and west sides.

Special Counsel Fisher said if the ordinance should provide that improvement work go on during the truce, and it be thoroughly understood that this is to be the last extension, so that if it fails of results the Chicago City company can be called on promptly to carry out its contract, and move over to the north and west sides, he saw no special objection to granting the extension asked for.

Some Opposition Is Certain.

How the council will look at it is a question. There is sure to be opposition from some of the west side aldermen, and probably some from the north side. They are anxious to have their street car service improved, and are suspicious of all delays. The south siders naturally are not much interested. Their territory is not affected.

Under the rules of the council if there is any opposition at all it will take a two-thirds vote to put the extension ordinance through. It is new matter, which must be passed this afternoon if at all, so the rules will have to be suspended to allow it to be considered without going to committee. Sending it to committee would be the end of it, as it could not then be passed on before Saturday, when the time in which the Chicago Railways company can now accept its ordinance will expire.

The bankers who called on the mayor represented to him that they had been forced to appeal from Judge Grosscup's decision because, as trustees for bondholders, they had no right to waive any of these holders' rights. They all believed, however, it would be for the best interest of all bondholders to accept the Grosscup plan of reorganization, and they were convinced that, if time was given them, they could secure the consent of practically all bondholders to the plan.

At the same time came from Philadelphia a statement from C. S. W. Packard, chairman of the protective committee which has been formed there to look after the interest of the first mortgage bonds of the North Chicago Street railway company, which are largely held in that city. It expressed a hope for a time extension, saying the time had been too short to untangle the complicated situation.

Brewer Resumes His Vacation.

Justice Brewer of the United States Supreme court left Chicago yesterday for Burlington, Vt., to finish his vacation, which was interrupted by his being called to Chicago to listen to the traction appeal.

CHARGED WITH SELLING OLEO.

William Broadwell's Meat Market Is Raided by Deputies and Proprietor Taken Before Commissioner.

Following a raid on his wholesale and retail meat market at 196 Madison street yesterday morning, William Broadwell was arrested by Deputy United States Marshal Northrop on complaint of Revenue Agent J. W. McGinnis. Broadwell is charged with manufacturing and selling oleomargarine without having a government license.

Commissioner Mark A. Foote set the hearing for Sept. 20. The meat dealer was released on a $5,000 bond.

Broadwell "held the fort" for two hours before admitting the deputies.

GROOM 38 AND BRIDE IS 76.

Dr. A. Lehman and Mrs. Elizabeth Baker Secretly Wed.

UNION FOLLOWS ROMANCE.

Husband's First Case Was in Attendance Upon Wife's Family.

The old adage of the mating of December and May suffered a reversal of form yesterday. The case in point concerned two former Austin people, Dr. Anthony Lehman, 38 years old, and Mrs. Elizabeth Baker, 76 years old, who were married on Aug. 25 in Minneapolis, and whose marriage was kept secret until yesterday, when it became known through Mrs. S. L. Mitchell, 5719 Midway Park, Austin, cousin of the bridegroom.

Besides the interest which attaches to the marriage because of the discrepancy in the ages of the couple, there is another bit of romance in the way they became acquainted. The members of the Mitchell family, the doctor's relatives, moved to Austin from Canada about eight years ago and became the neighbors of the Baker family, who then resided at 5721 Midway Park.

Young Doctor's First Case.

Soon after their coming they were joined by their relative, Dr. Lehman, then a young physician just fresh from a medical college. The two families became well acquainted and the young physician attended Baker during his last illness and helped to settle up the business affairs of the widow after his death.

This is said by acquaintances to be about the first case the young physician had received and he probably felt an unusual interest in the members of the invalid's family from the fact that it was practically the beginning of his career. Anyway, the acquaintance between the doctor and the widow progressed during the seven years since Baker's death in spite of the fact that Mrs. Baker left Austin about three years ago.

Secret Marriage as Climax.

The culmination of the romance came with a trip to Minneapolis and a secret marriage ceremony, possibly to avoid "talk" on the part of Austin people who knew both the bride and groom and the difference in their ages. Mrs. Baker was reputed to have been left a considerable fortune at the death of her first husband, and this fact also might have caused disagreeable comment.

After the marriage Dr. and Mrs. Lehman returned quietly to Chicago and took up their residence at 461 Douglas boulevard, far from Austin and whatever the gossips might have to say when they should learn of the marriage.

THEATRICAL TRUST CERTAIN; WORLD CONTROL IS SOUGHT.

Consolidation of 500 European Houses with Half Thousand American Places Assured by Mayer's Trip Abroad.

Launching of the international theatrical trust is said to be assured. Legal difficulties which it was thought might prevent the consolidation were disposed of during the European trip of Levy Mayer, general counsel for the Klaw & Erlanger combination, and the steps necessary to acquire control of two or three theaters in all the principal cities of Europe will be taken at once. The combine expects to complete this work by the first of the year.

This announcement, made in New York yesterday, was shown to Mr. Mayer, who had just returned. Mr. Mayer said:

"I have made to Messrs. Klaw & Erlanger a legal report of all the steps that have been taken and it is for them to make public to what extent their project has been accomplished. The legal questions involved have been disposed of."

The purpose of the international theatrical trust is not to control vaudeville houses, as has been stated, but is aimed at the higher attractions and may include even grand opera. The company is said to be prepared to expend anywhere from $100,000,000 to $300,000,000, providing complete control can be secured.

The combine now controls nearly 500 theaters in America and with a like number in Europe will be absolute dictator of things theatrical throughout the civilized world.

SIX CHILDREN IN VILE CELLAR.

Father Said to Have Deserted Family and Spent Wages for Drink—Judge Makes Him Divide.

Six children, the youngest 2 years old, who until a few days ago lived in a dark and dirty basement at 1216 Seeley avenue, were in the Juvenile court yesterday afternoon. They lost their mother through death seven months ago, and soon after, it is charged, their father, Albert Panek, and a stepbrother deserted them. The father was in court, and witnesses said of him that he devoted the greater part of his earnings, $9.75 a week, to supplying himself with liquor.

The children are: Joseph, 14 years old; Rosie, 12 years old; Stanley, 10 years old; Victoria, 7 years old; Frank, 4 years old, and Lucy, 2 years old.

"I will send Rosie and Victoria to the Chicago Industrial school," Judge Mack said, "Joseph and Stanley to Feehansville, and Frank and Lucy to St. Vincent's Orphan asylum. Panek must pay 75 cents a week for each child. That will cost him $4.50 a week."

CRUSADE IN NINE LANGUAGES.

Sweatshop Campaign Starting with Inspectors Able to Speak Nearly All Tongues Used in Chicago.

A "sweatshop" campaign in nine languages will be started shortly by Chief Factory Inspector Edgar T. Davies, who announced yesterday that he has a corps of deputies speaking most of the tongues spoken in Chicago. Mr. Davies believes that with this polyglot accomplishment his men will be able to reach a number of the "home" garment factories which previously have escaped notice. Under the new law, clothing manufacturers are expected to furnish much "sweatshop" information to the inspectors. The manufacturers are required to furnish a list of persons to whom they give "finishing" work. Mr. Davies has sent 5,300 letters to tailoring firms, asking their coöperation.

STREETER REASSERTS SWAY.

Former Hero of Lake Front Battles Notifies Park Board to Stop Building in His Domain.

The "district of Lake Michigan," the territory east of Lincoln Park boulevard ruled over by the squatter king, "Capt." G. Wellington Streeter, until the police drove him out some years ago, is still claimed by him as his property. Notice of this was served on the Lincoln park board yesterday. "Capt." Streeter appeared before the commissioners in person and presented a written notice for them to stop work on a building that is being erected at the foot of Chicago avenue for use by the small park commission. He said they had no right to build there, as it is a part of his domain. The board referred the matter to the board's attorney.

LOAVES FILL HOTEL PARLORS.

National Convention of Bakers Makes Palmer House Look Like Huge Bread Establishment.

Bread everywhere, in corridors, rooms, and even suspended from the walls, the parlors of the Palmer house have had the appearance of a bakery since yesterday. Hundreds of loaves have been placed on exhibition, the occasion being the tenth annual convention of the National Association of Bakers. Most of the delegates visited the different Chicago bakeries. The evening was spent at an amusement park.

WORK NOW BEGINS ON SUBURB CANAL

Drainage Board Orders Immediate Excavation of Evanston Auxiliary Channel.

PRESIDENT STRIKES BACK

Sharp Reply by Chief McCormick to Joliet Attack in Letter to Legislators.

By a unanimous vote, the drainage board, at its meeting yesterday afternoon, directed the engineering department to begin active work excavating the Evanston auxiliary channel, which is designed to drain the north shore suburbs.

The right of way for the channel between the lake and the Chicago and Northwestern railway tracks already has been acquired, and the board will take possession of it at once. The first work to be done is the removal of the black soil from the surface of the right of way. This work will be finished within a few months. Later contracts will be let for the excavation of the entire channel.

The board set an example for other municipalities when it decided to operate the pumping station for the Evanston channel by electricity instead of steam, thereby striking a blow at the smoke nuisance in the northern suburb.

Electrical Engineer Ellicott reported the board would save $55,573 by installing an electrical plant instead of steam, and that a substantial sum would be saved annually.

Sharp Reply to Joliet Attack.

President Robert R. McCormick sent a circular letter yesterday to the members of the legislature disputing certain statements sent out on Aug. 24 by John H. Garnsey, a member of the waterways committee of the Commercial club of Joliet. Mr. Garnsey at that time attacked the officials of the sanitary district and decried the proposed legislation at Springfield asked for by the drainage board.

Mr. Garnsey's opposition, Mr. McCormick charges, is prompted by private motives, as he is attorney for the Illinois Steel company in the suit of the sanitary district to condemn the Economy Light and Power company's property at Joliet for the benefit of the public. This company now furnishes Joliet with electricity for lighting at what Mr. McCormick considers exorbitant terms.

Text of the McCormick Letter.

President McCormick's letter in part is as follows:

"To members of the legislature:

"Mr. John H. Garnsey's latest letter on pending legislation at Springfield is not intended to furnish information to members of the legislature. It is demagogic and is an appeal to prejudice, intended by publication to influence the voters of Joliet.

"His letter conveys the general impression that the sanitary district aims to go into the water power business and incidentally to construct a channel through Joliet that will be a menace and will not be a free waterway or a benefit to the public at large. He repeatedly refers to the sanitary district as a private corporation and as a proposed monopoly.

"The situation is exactly opposite in every respect. The sanitary district must complete its channel through Joliet to care for the flow of the canal through Joliet, to protect the city's sewer from back water, and at the same time to maintain the level of the Illinois and Michigan canal.

Law Contemplated a Ship Canal.

"While the primary purpose of the sanitary canal was sanitation, the original law created for the district contemplated a ship canal. It also contemplated that through development of the property a revenue might be recovered to the people who constructed the waterway.

"Mr. Garnsey quotes the law as requiring the district to send down a certain amount of water. This may be the view taken by the champions of the Economy company who utilize the flow. The law required a certain flow for sanitary purposes, not to supply power to the Economy company."

First Step in Fight.

The first step looking to the filing of a friendly test suit in the United States courts to determine whether the drainage board may build the Calumet auxiliary channel and reverse the flow of the Calumet river from the lake into the sanitary district channel, despite the refusal of the secretary of war to grant a permit for the improvement, was taken when the trustees passed a formal order directing the acquirement of the right of way for the new channel and the preparation of plans for the construction of the waterway. It is expected that the federal authorities will immediately apply to the United States courts for an injunction. This will give the drainage board an opportunity of presenting its case to the courts and getting a ruling on the question.

This will be one of the most important legal battles ever undertaken by the drainage board, and the case will undoubtedly be taken to the United States Supreme court for final adjudication. If the drainage board loses this suit the construction of the Calumet channel will necessarily have to be abandoned and a new method of disposing of the sewage of this territory adopted.

Grant Money to Widow.

The board voted to give the widow of A. J. Peterkin, a former material inspector for the district, $500 because he lost his life in defending the interests of the board. Peterkin was employed on the water power development at Lockport and died as a result of an assault made upon him by William O'Neill, foreman for Hayes Brothers, contractors for a section of the work. The men quarreled over the quality of material used in the work.

AMENDS LAW ON COAL WEIGHT.

Change Drafted to Make Prosecution for Shortage Easier Will Be Introduced Today.

Complaint by City Sealer Kjellander that the present short weight ordinance is not broad enough to give control over the coal dealers caused an amendment to the ordinance to be drafted by Assistant Corporation Counsel Wetten yesterday. The amendment provides that every seller of coal shall give the driver of the wagon a certificate showing the weight of the fuel and the weight of the wagon. It imposes a fine of from $20 to $50 for failure to have the weight certificate and $25 to $200 for shortage in the weight of the fuel. The amendment will be introduced in the council this afternoon.

FAT FOLKS FAVOR

Home Mixture That Takes Off the Fat Rapidly—Causes No Wrinkles—No Stomach Ills—and Requires Neither Dieting Nor Exercise.

Too much fat is both uncomfortable and dangerous, but usually fleshy people prefer to put up with its inconvenience rather than punish themselves with the tiresome exercising usually prescribed, or endanger their health by taking the so-called "cures" and patent fat "reducers."

This self-sacrifice of comfort and health to overabundant fat is entirely unnecessary, however, as Mrs. Luella Bigger tells us there is a home receipt that is far superior in every way to anything money will buy for reducing superfluous flesh. It is said this simple mixture will take the fat off of man or woman at the rate of at least a couple of pounds a week without even causing wrinkles. Moreover, it does not disturb the stomach, but is a good thing for the system, clearing away pimples, and, best of all, it does not interfere with the diet. You can use it and at the same time eat whatever you like. This receipt is as follows: ½ ounce Marmola; ½ ounce Fluid Extract Cascara Aromatic, and 3¼ ounces of Syrup Simplex. Get these ingredients at any drug store, mix them together at home and take one teaspoonful after each meal and at bedtime.

Mrs. Bigger, as is well known, is a famous beauty expert and whatever she recommends is sure to be found eminently satisfactory.—Adv.

MUST HIDE BAD POSTCARDS.

Dealers Ordered by the Police to Take Them from Windows.

POSTOFFICE STOPS MANY.

Shops in Vicinity of Schools to Be First Target of Crusade.

The police department yesterday took a hand in the fight against objectionable postcards. Headed by Lieut. Alexander McDonald of the theater and dance hall squad, a score of detectives began a tour of destruction. Every store in Chicago where souvenir cards are sold will be visited and all objectionable cards will be ordered removed from store windows.

By a peculiar coincidence the foreign mails carried hundreds of souvenir cards from Germany and France to be dumped into the Chicago postoffice. More than half of the cards received were confiscated and headed for the dead letter office at Washington because of the objectionable matter either pictured or printed upon them.

In this connection a comparison of American and European cards was made by the local postoffice officials, much to the discredit of the Europeans.

Stores Near Schools First.

Lieut. McDonald and his men first will visit the little stores in the vicinity of the public schools, where the cards are believed to be doing the greatest amount of damage. A letter received by the police department from a woman who simply signed herself "A Mother" declared that more injury was being done the pupils of the public schools in Hyde Park by the little shops which sell these cards than any of the other evils known to the police.

"These suggestive cards injure those whose family teachings would not permit them to enter saloons or other places of the sort," wrotte the woman. "They are looked upon as humorous and smart, but are the limit of vulgarity."

There are one or two such little shops, the police discovered, in the vicinity of nearly every school in the city. The shop windows are filled, in most instances, with cards which never would pass the scrutiny of the officials of the local postoffice. They are sold to school boys and girls and are taken to and from school and passed about among the children.

West Side Fertile Field.

Halsted street and Milwaukee avenue have furnished locations for hundreds of these stores. Here the foreign cards that have caused so much trouble for the postoffice are, or have been, sold in great numbers.

W. K. Gerty, a dealer in Halsted street, near Grand avenue, was selling a package of pictures of women in various poses to a youth when a detective chanced to step in. Seeing the character of the sale the detective forced the man to take back the cards.

Warrant Out for Photographer.

A warrant has been issued for the arrest of Orzil Messick, a photographer with a studio at 4300 Ellis avenue. It is charged that Messick offered to sell six immodest photographs to Arthur Gunnes, an elevator boy.

SALESWOMAN AT MANDELS' ACCUSED OF BIG THEFTS.

Mrs. Eva Hogan, Employed for Years in Silverware Department, Confesses —Says Other Clerks Are Involved.

Mrs. Eva Hogan, 48 years old, a saleswoman in Mandel Bros.' store, was arrested yesterday on a charge of larceny by detectives of the Central detail station. O. E. von Benkendorff, assistant superintendent of the store, went to Judge Newcomer's court and took out a warrant after Mrs. Hogan had confessed taking silverware, crockery, linen, jewelry, and other merchandise from the store where she has been employed five years.

After her confession the detectives went to her home, 53 Twenty-second street, and recovered more than $200 worth of goods.

Mrs. Hogan, who is the wife of a switchman employed by the Illinois Central railroad, implicates several other women clerks.

"They stole the articles and gave them to me," she said. "I am not alone to blame."

She was employed in the silverware department in the basement of the store. She quit work at 5 o'clock each day, and as she had been employed at the store five years she was trusted by the department heads. She told the manager of the store other clerks knew this, and that they handed her articles to take home for them.

REPORT ON DIVORCE AN ERROR.

Mrs. W. S. Hunter Jr. Does Not Accuse Husband of Spending Money on Other Women.

When the divorce case brought by Mrs. Bessie M. Hunter against her husband, W. S. Hunter Jr., is reopened on Oct. 4 there will be no charges that "other women" caused the expenditure of $5,000 of the young man's money.

A statement that Mrs. Hunter had made this charge while on the witness stand in Judge Newcomer's court proved to be untrue and no such charges will be made by the plaintiff during the trial.

The evidence introduced, which was the foundation for this statement, was that Mr. Hunter had $5,000 when he was married in 1904, but that almost all of this had been used for household expenses.

Beauty Contest to Be Decided Before Evening if Judges Can Finish Task.

Everything is ready. The fat oxen and the prize winning pigs have been safely ensconced in the big pavilion, after demolishing three tents in the process; the "forced" squashes and that famous crasy quilt that won the blue ribbon three times at Libertyville have been draped majestically side by side in the Du Page county exhibit; and the barkers are at your service.

All of which is touching upon the Wheaton country fair, which opens at 10 o'clock this morning on the grounds of the Gentlemen's Driving club, for the benefit of the Chicago Lying-in hospital and under the auspices of pretty nearly every one who ever, in the course of human events, stopped off at Wheaton.

Preparations have been made for a big time. The grounds of the driving club, which have been transformed for the time being into a wonderful musical comedy village, with tents, pavilions, and a midway at one end, are prepared to accommodate a population of at least 10,000 souls—of course, at so much per. Jarvis Hunt, who got up the show mostly, says they are all coming, and that they will find awaiting them the largest money's worth they ever encountered.

Grounds in Form of a Cross.

The fair grounds have been laid out in the form of a gigantic cross, its upper ends connected by a curved promenade. The main entrance, where the visitor will be relieved of the first installment of his gate money, opens into the fine arts and domestic science pavilion, which forms one end of the transverse arm of the cross. Here real doughnuts and pumpkin pies will jostle scientific "foodstuffs" and the products of fireless cookery in a sort of silent battle for supremacy.

Inside, in the center of the grounds, is the big pavilion for the fancy live stock exhibition. At the farther end of the transverse promenade is the airship tent, and along the curved walk at the upper end of the grounds are the various exhibition booths. Down at the lower end of the grounds is the midway, which, it is said, will be replete with the educational, mystifying, and marvelous divertisements of the age—which, to an uninitiated outsider, would appear to be going some.

And then, of course, there is to be a horse show under the direction of Mrs. Jarvis Hunt, a series of automobile races under the sanction of the American Automobile association, athletic games under the auspices of the American Amateur Athletic union, and a greased pig contest.

Opening Day the Big Day.

Contrary to the usual custom, the opening day has been made the big day of the show. In the first place, it is "old settlers' day," arrangements having been made for a big reunion of the oldest inhabitants of Du Page county. A special tent will be set aside for this purpose. Then, it is children's day. The Du Page county schools are planning to "let out" for the afternoon and send their entire equipment of children and teachers to the fair.

Thirdly, it is the day of the big parade, which will form in the village at 1:30, march to the fair grounds, and parade once around the track. Farm wagons, driving teams, merchants' floats, and automobiles will make up the parade, with the school children inside as the pièce de résistance.

And finally, the beauty contest will be decided in the afternoon—unless something happens. Photographs of the beauties, in most cases accompanied by the beauties themselves, have been pouring in from the farthest confines of Du Page county and there is some apprehension that the judges may not be able to pass on all the entries on schedule time.

Each evening during the three days of the fair there will be a vaudeville performance, a balloon ascension, fireworks, a wild animal show, and a "grand band concert."

House Parties and Entertainments.

The Wheaton homes of Chicago people are filled with guests who will attend the fair. All kinds of entertainments have been planned for the visitors.

Mr. and Mrs. E. N. Hurley will take parties to the fair every day. This afternoon their guests will be Dr. and Mrs. John B. Murphy and tomorrow they will have Mrs. Hurley's mother and sisters, Mrs. John H. Amberg, the Misses Amberg, and Miss Marah McCarthy. On Saturday they will entertain Mr. and Mrs. J. B. Hurley, Mr. and Mrs. M. C. Hurley, and Mr. and Mrs. Roger C. Sullivan.

Mr. and Mrs. Frederick R. Babcock and Mr. and Mrs. W. B. Cowan, who have been spending the summer at the Chicago Golf club, are also to entertain during the fair.

Lay Plans for Hebrew Charity Ball.

The directors of the Orthodox Jewish Home for the Aged met last night at the Sherman house and laid plans for their charity ball at the Coliseum on Dec. 29. B. Baumgarden was made chairman, and B. J. Schiff vice chairman of the ball committee, and it is hoped to realize $10,000 from the event. With the proceeds there will be erected an extra ward for hospital purposes.

Emulation is the tribute paid to the superior.

MANY young fellows, getting ready to go back to college, have found our big stock of browns an attraction; we're going to be well represented in the leading colleges and universities of the country; as well as in the best business and social circles of Chicago and vicinity.

WE'RE glad to be represented by such clothes; they're a credit to us and to the wearers; fine goods, in the best and most fashionable models and perfectly tailored. We never let a "misfit" leave our store if we know it.

Browns have "the call" just now; and they deserve the prominence we give them; all-wool fabrics of the most attractive patterns, in worsteds and cheviots; rich silky effects in stripes and plaids.

At $20 to $50.

HATS and shirts are very important items also in a man's make-up. When you are looking at clothes is a good time to look at these goods, too. The new browns and tans in hats at $3 seem to be made to go with these clothes. We have a big line of them; nothing in town like it. We are headquarters here for the John B. Stetson hats, $3.50; and exclusive sellers in Chicago of the famous Stetson "Special" at $5.

Our Manhattan shirts are the best shirts made. We're showing a great variety in new and handsome patterns, $1.50 to $3.50.

RATHER A HINDOO THAN A CRŒSUS.

"I Prefer Starvation to American Millions and Worship of Gold": Annie Besant.

THEOSOPHY THE CURE ALL

Leader of Cult Arrives and Says the Psychic Spirit Ebbs Low in Chicago.

Mrs. Annie Besant, successor to Helena Petrovna Blavatsky as high priestess of the theosophists of the world, arrived in Chicago at 10 o'clock last night from New York. Today she will take the lead in the twenty-first annual convention of the American chapter of the Theosophist society, which opens at Orchestra hall.

Mrs. Besant went immediately to the residence of Dr. Weller Van Hook at 5229 Madison avenue. She was accompanied by Marie Barnard Russak, one of her pupils. There was nothing spectacular or weird about the arrival or about the woman.

When she stepped out of the cab in front of the doctor's flat it was seen that she was just a stout, gray haired old woman, dressed in a dark traveling coat and carrying a number of parcels and wraps such as any woman would burden herself with. When she was approached by the reporters she smiled cheerfully and said in a quiet, silvery voice:

"Come upstairs. If you will pardon the travel stains I will talk to you."

No Ordinary Old Woman.

Up under the lamplight, it was far from an ordinary old woman that sat down in a big easy chair and folded her hands in a resigned fashion, prepared to talk. Her outer coat thrown off revealed a plain dress of natural pongee silk, touched with lace at the sleeves and at the neck.

It was cut in a curious fashion, reminding one of a robe such as the Hindoo priests wear. Around her neck she wore several chains of beads, and a medal fell across her breast. On her finger she wore a huge cameo ring strangely scrolled.

"Chicago?" she said, smilingly. "You want to know what I think of your city. I have only seen it flashing by in the dark—a series of straggling lights, tall, dark buildings. There are strange smells here. I should say that it was a city with poor atmosphere for the development of the psychic power. It is a city to develop strongly the nervous forces and make one extremely sensitive. I find that in all your western world. In St. Louis I had a queer experience. In feeling for the key to the bath tub I experienced a sharp electric shock and saw a flash. It was the high electrical tension of the atmosphere. Now the California air is much better suited to the development of the psychic.

"Reincarnation? Ah, I Know."

"Reincarnation, ah, that is what seems to interest all the reporters. Do I believe? I know."

There was a flash in her eyes and a ring to her voice that told that here was a vital point of the woman's life. She leaned forward to explain her belief. Her short, gray-white hair fell round her forehead.

"From more ways than I can tell you, I know that you and I have lived in other bodies and in other plans of the universe," she said earnestly. "We cannot remember who we were, perhaps. Some do. I know of a child that spoke out the truth when it saw a statue.

"'I used to do that,' said the child.

"Its mother could not understand the child until she came to my lectures.

Denies She Is Blavatsky.

"Do you remember who you were in your previous lives?"

"I only know that I was an educated mind and sometimes flashes of the truth come to me. At certain moments of life I know that I have stood and thought the same thing somewhere else. But I want it understood that I am not the reincarnation of Mme. Blavatsky. I have been in communication with her and she has helped me in my work, but I have a right to my own personality.

"Sinners are the children of the race—the morally diseased," she continued. "It is the thought that must be corrected. I would say to a poor man who could not rise above his own passions or vices:

"'Poor fellow! You are only a child. I was one day what you are now.'

"That is universal brotherhood. That gives a man back his self-respect. It is wonderfully inspiring. Reincarnation is taken for granted in India and in the eastern countries. They understand spiritual things better in those lands, where the worship of the material is not all. I would rather be a naked, starving peasant of India than some of your American millionaires, with their distorted notions of right and wrong and their brazen calves that they kneel to."

Thinks Mrs. Eddy Correct.

"How do your theories of the power of thought differ from those of Mrs. Eddy?"

"I do not know that we differ much. I think she is correct in her ideas. Thought is the greatest power in the universe. It can do anything. As for teaching it to heal the diseased human body, that is a dangerous experiment with an untrained mind."

"It is reported, Mrs. Besant, that one of the things that will be done during the convention is to expel certain members of the society who have expressed beliefs at variance with your teachings."

"That is untrue," she said. "I wish to correct that. There is nothing to expel any one for. We do not dictate what our members shall think or say. I intend to take that subject up in one of my lectures. In fact, I sent the manuscripts over ahead of me. We cannot afford to be narrow and petty. We are setting a high ideal, and we must keep it ourselves."

Mrs. Besant will deliver four lectures in Chicago. She will go east early next week, and sails for Europe Oct. 1. She will attend the international convention of the society in India at Christmas time.

Delegates Invade City.

Delegates to the convention flocked into Chicago yesterday. Some of the prominent ones are as follows:

Elliott Holbrook, chairman of the Kansas City, Mo., delegation, railroad man.

Edwin B. Catlin, newspaper man, Anaconda, Mont.

Bruce Gordon Kingsley, Los Angeles, Cal., a leader of the Pacific coast.

Harry H. Fuller, St. Paul.

James J. Manning, Kansas City, electric railroad promoter.

Francis E. Martin, El Paso, Tex., mining man.

A. P. Warrington, Norfolk, Va., authority on Esperanto.

Mrs. Addie Tuttle, Anaconda, Mont.

Mrs. M. C. Holdbrook, Newton Highlands, Mass.

William E. Barnhardt, president Kansas City branch.

Miss Alma Kunz, Freeport, Ill.

Dr. Van Hook, who is entertaining Mrs. Besant, is a candidate for the office of general secretary. If he is elected the general offices of the society will be removed to Chicago.

Charge Made by Former Secretary.

Charged with the embezzlement of $8,000 by his former private secretary, Ida C. Palmer, Benson Bidwell, president of the Bidwell Electric company, 133 Clinton street, will be served with a warrant from Municipal Judge Beitler. Miss Palmer was recently held to the grand jury on the same charge.

MRS. ANNIE BESANT

SEEK EX-WIFE OF SLAIN MAN.

Did Mrs. Harris' Letters Lead to Shooting by Campbell?

WRITTEN IN HUSBAND'S NAME

State Unable to Find Woman Witness for "Unwritten Law" Trial.

Letters demanding money, written by a wife in the name of her husband, are said to have been contributory causes to the killing of Dr. Benjamin F. Harris in the Stock Exchange building last December, for which Amasa C. Campbell, a wealthy lumberman of Antigo, Wis., now is on trial in Judge Windes' court.

But, in order to establish proof of the letters, the state desires the testimony of Mrs. Harris, divorced wife of the physician and alleged writer of the letters. And where is Mrs. Harris? Detectives are looking for her, but no trace has been found of her since she attended the inquest on her former husband last December.

Assistant State's Attorney Northup yesterday afternoon admitted he knew nothing of the whereabouts of Mrs. Harris.

"We have hunted for her, but have been unable to find her," he said. "We would like much to know about those letters said to have been written by her, as we believe they were the original cause of this murder.

"The letters were written by Mrs. Harris to Mrs. Campbell. There was a feud between the two women, and I should say the letters savored strongly of blackmail. Mrs. Harris concealed her identity by signing her husband's name. She charged Mr. Campbell with having alienated Mrs. Harris' affections, and demanded money of Mrs. Campbell. I am informed that Mrs. Campbell, to hush up a possible scandal, paid the money demanded."

Defense Relies on "Unwritten Law."

The defense will be based on these words of Campbell uttered immediately after the shooting, according to the testimony of several witnesses:

"This man ruined my wife."

According to the now familiar "unwritten law," the lawyers of the defense will attempt to prove that Campbell was temporarily insane because of the dishonor he believed Harris had put upon him.

That the unwritten law is something to be reckoned with this far north of the Mason and Dixon's line was conceded openly by the lawyers of the state in the selection of a jury.

"Do you believe in the 'unwritten law' and its individual enforcement?" was a question asked repeatedly by Assistant State's Attorney Northup.

Many of those questioned replied that they believed a husband had the right to shoot down a man who had wrecked his home. Probably twenty men were excused because they held this opinion.

A jury was finally secured and the taking of testimony begun.

Killed Man at Prayer; Acquitted.

John Bonzait, watchman at the Church of the Providence of God, who shot Anton Czech on the steps of the church in June, 1906, was found not guilty of murder by a jury in Judge Chetlain's court in the afternoon. His defense was that Czech grappled with him and that he believed he was being attacked because of the factional differences in the church.

CHAUFFEUR TAKES WILD RIDE.

Employe of Dr. A. H. Hoy of Evanston Wrecks Car During Tour Through Levee.

Lawrence Beck, 19 years old, a chauffeur employed by Dr. A. H. Hoy, 1241 Hinman avenue, Evanston, confessed last night that he with two friends had taken the physician's machine from a shed at 1234 Chicago avenue Tuesday night and during a wild ride with two women through the red light district of Chicago broke the tonneau and one of the front wheels.

The car was left at a repair shop by Beck, who then returned to Evanston and pulled off the lock on the shed to make it appear that the automobile had been stolen. Beck and William Burgess of Evanston were arrested.

Miss Myrtle Coker, 18 years old, 6009 Prairie avenue, suffered slight injuries when she was knocked down at State and Madison streets by an automobile owned and operated by Ira M. Cobe, Kenwood hotel.

JOB FOR EX-SMOKE INSPECTOR.

John C. Schubert Appointed Chief Clerk of Water Bureau, Succeeding Frank Dvorak, Suspended.

John C. Schubert, whose term of office as chief smoke inspector ended Monday, when the new smoke department was created, yesterday was appointed chief clerk in the water bureau, succeeding Frank J. Dvorak. The latter was suspended a week ago, pending the investigation of charges of neglect of duty and political activity. While the appointment of Schubert is but temporary, it will be made permanent should the charges against Dvorak be sustained.

FOR FOURTH TIME A 'SUICIDE'

Mark Howard Ogilvie Leaves Letters and Clothes on Beach.

HOAX TO EVANSTON POLICE.

They Point to Young Man's Three Previous Alleged Attempts.

For the fourth or fifth consecutive time in the same number of weeks Mark Howard Ogilvie, 23 years old, the son of Robert B. Ogilvie, a live stock agent, "committed suicide" in Evanston yesterday. The suburban police were convinced that the "posthumous" contributions to literature which he left on the lake shore with articles of his clothing constituted a hoax.

The peculiar actions of the young man during the last month have led his relatives and friends to a similar conclusion, the several motives ascribed being that he wished to play upon the sympathies of a girl wife who left him early in August, a few days after their elopement, that he was attempting to force his relatives to come to his financial relief, and endeavoring to throw the Evanston police off his track.

Ogilvie's Parents Divorced.

Ogilvie was at one time a student of Wisconsin university, but during the last two years has been employed by tailoring firms in Chicago. His parents were divorced some years ago and each of them remarried, the mother now being the wife of Newton R. Bates, a board of trade operator living in Evanston.

July 27 Miss Jane Weir Roland, 19 years old, the daughter of L. B. Roland, 926 Forest avenue, Evanston, eloped with him to Canada, where they remained ten days. Upon returning to Chicago they stopped at a downtown hotel. Warrants were taken out for Ogilvie Aug. 12, and his wife, hearing of the fact, returned to her parents.

Messages Tell of Suicide.

During the next two weeks his relatives and his wife's family received three separate messages by telephone that he had thrown himself in front of a train, had been run over by a street car, and was lying in a hospital at the point of death.

Yesterday's effort was more finished. A teamster found on the beach a hat and a coat containing two letters, an empty pocketbook, and a copy of the New Testament. The first of the letters, evidently intended for his wife, was a schoolboyish effort at sentiment, and the second, addressed to an apparently fictitious "Bud," a supposed chum, is a confused jumble.

BOY BUNKOIST "CLEANS UP" $25

Police Looking for Lad with "Frank Manner and Honest Face," Who "Worked" Rector Building.

A youthful bunko steerer yesterday "cleaned up" $25 in small amounts at the Rector building, and now the police are looking for him.

That the boy is no novice is evidenced by the clever manner in which he relates a tale of woe. He dresses like a newsboy and represents himself as one, is of dark complexion, and his victims say he has a "frank manner" and "honest face."

He tells of "father being dead, mother washing to support seven children younger than himself, and of how the landlord was going to eject them until he came to the rescue with $7.50, balance due on the rent, which deprived him of the money he had laid away to get his papers and magazines."

The girl stenographers appear to have been the particular prey of the boy, though he didn't overlook any of the clerks present.

MASONS ELECT CHICAGO MEN.

Grand Council Names Officers at Alton, Ill.—Jewel Is Presented Master.

Alton, Ill., Sept. 11.—[Special.]—The Illinois grand council, Royal and Select Masters, Masonic, adjourned at Alton today, to meet at Canton next year.

The retiring grand master, Albert T. Hay, of Springfield, received a gold jewel in behalf of the grand council.

The following officers were elected: Will C. Rood of Chicago, grand master; Chester D. Clarkson of Peoria, deputy grand master; Henry T. Hubbard of Urbana, principal conductor of work; J. C. Smith of Chicago, treasurer; Gil W. Barnard of Chicago, recorder; Henry R. Hopkins of Chicago, chaplain; M. M. Lord of Chicago, lecturer; Edwin A. Vaughan of Princeton, captain of the guard; A. A. Rice of Chicago, grand conductor; G. H. Vaupell of Chicago, grand marshall; C. S. Gurney of Chicago, steward; W. J. Delaney of Centralia, sentinel.

Spurned, Kills Wife; Ends Life.

Sioux City, Ia., Sept. 11.—Because his wife refused to remain with him any longer W. F. Lawrence, a liveryman of Kadoka, S. D., this morning shot and killed her as she was about to board a train. After sending two bullets crashing through her head he turned the weapon upon himself, dying instantly.

BECOMES SHERIFF; BUYS A "GROCERY"

New Revelation When Strassheim Admits Entering Trade After Election.

SAYS HE SUPPLIES JAIL.

Seeks Indorsement of His Ethics from William Busse, but Is Turned Down.

Sheriff Strassheim's début in the wholesale grocery business at 153 West Randolph street just one month after his election to the shrievalty is looked upon, in the light of recent developments, as a peculiar "coincidence."

Was it due to the lively expectation of the grocery orders that Mr. Strassheim, as the almoner at the Cook county jail, could give to the firm in which he might chance to be financially interested?

These are matters which are regarded as likely to attract the attention of the judges of the Criminal court when they hold the jail investigation provided for in the Illinois statutes.

The discovery that the sheriff acquired an interest in the grocery firm after he had been elected, not before, is one of the new revelations in the series of jail scandals. It was made by Sheriff Strassheim himself. He defended the move as "good business," and insisted that it is perfectly "proper" for him to buy the jail supplies from the concern in which he has invested money since his accession to the office of sheriff of Cook county.

Busse Withholds Indorsement.

When Mr. Strassheim disclosed the facts as to the time when he first became associated with the West Randolph street grocery President William Busse of the county board was present. He formally invited Mr. Busse to indorse the proposition that "there is nothing wrong in a sheriff sending orders for jail supplies to his own firm, if the purchases could be made as cheap as elsewhere." The indorsement was not given, however, and the sheriff was temporarily disconsolate.

"Was the Sheppard-Strassheim company organized for the special purpose of handling the grocery jail orders to advantage?" the sheriff was asked.

'No, not exactly that," he said. "You see, we simply bought out another firm."

"What time did you do the buying out—before or after your election as sheriff."

'It was one month after my election."

"When you went into that business did you intend to give large jail orders to the firm?"

"Too Inquisitive," Says Sheriff.

The sheriff answered:

"Now, you are getting a little too inquisitive. Practically every politician holding a salaried office is a business man on a large or small scale. His business is the main thing; office holding is a side issue.

"Here's the case of President Busse. He's in the grocery business. Should he be expected to sell out that business just because he chances to hold the office of county board president?"

"Does Mr. Busse, so far as you know, use his political influence to get business orders for his store from political institutions?"

"I don't know as to that; let him speak for himself," was the reply.

'Guess not," said Busse.

Mr. Strassheim said that he had recently discharged three guards in the jail for "general inefficiency and neglect of duty." Their discharge, he said, had nothing to do with the charges that have been made recently concerning mismanagement in the jail, nor vice versa. "They were merely unsatisfactory, and I let them go," said the sheriff.

Denies Nurse Poses as Doctor.

A report that one of the men nurses in the hospital of the county jail was being investigated by the state board of health with a view to a prosecution for violation of the medical code was denied by Jail Physician Francis W. McNamara.

"When the complaining physicians started an inquiry as to the standing of this nurse, Emil Brochin, they misspelled his name in their communication to the officials of the state board at Springfield," said Dr. McNamara. "The name they gave was Broechen. They claimed there is some great mystery in connection with the man and his position, as they were unable to find his name in the city directory.

"If they had looked for the name Emil Brochin they would have found it. The man is not a practicing physician and never represented himself as such. Though he is called 'Doc' by most people over at the jail, the title is simply one of courtesy.

"I am the jail physician and there is no other. This man works under me. He gives medicine on my order. He never prescribes for anybody. In the old country he was a pharmacist, I believe. At any rate, he is a most competent man and a good citizen, supporting a wife and seven children. His salary is only $50 a month.

In the city directory the name Emil Brochin is given as that of a physician residing at 2741 Princeton avenue. But it is said that the occupation "physician" was given to the directory's canvassers in Brochin's absence and without his knowledge.

An investigator, however, said that he had asked more than once at the jail for the jail physician and had been told it was Dr. Brochin.

Investigating Restaurant.

Chief Sanitary Inspector Ball started an inquiry yesterday into the condition of the restaurant at the jail, with a view to determining whether, under the law, the payment of a license fee of $15 should be enforced. Inspection of the restaurant and store in the jail will be made this week, it was said at the city hall.

Whether a prosecution, with a view to the collection of fines, is to be started against Storekeeper Frank Jacoba, husband of Strassheim's niece, will depend on recommendations made in Inspector Ball's report.

PAYS $100 FOR BEATING HORSE

William Dodett Admits He Used Pitchfork Handle to Subdue Balky Animal.

William Dodett, 27 years old, president of the O. K. Delivery company, 1834 West Fifty-first street, was fined $100 and costs by Municipal Judge Going yesterday on a charge of cruelty to animals. Mrs. John Dehn, 5013 Paulina street, testified she saw Dodett strike one of his horses on the head with the hickory handle of a pitchfork and knock the animal down. Other women gave similar testimony.

Dodett testified that the horse became balky, and he was forced to beat it to control it.

"I would fine you $200 if the police had booked you under the state law instead of the city ordinance," said Judge Going.

Dodett was unable to pay the fine and was ordered to the house of correction. In the afternoon, however, his wife appeared at the station and paid the fine.

WILL WED BROTHER'S EX-WIFE.

Otto W. Lehmann to Take Former Spouse of Ernest—He Since Divorce Has Married Mrs. Greiner.

The approaching marriage was announced yesterday of Mrs. L. E. Lehmann, née Afgeld, former wife of Ernest E. Lehmann, to Otto W. Lehmann, 251 Lake View avenue. Otto Lehmann is the brother of E. E. Lehmann, from whom Mrs. Lehmann obtained a divorce last January.

Ernest Lehmann has married again since the divorce, his bride having been Miss Margaret Boyer, daughter of Richard L. Boyer, 1180 Sheridan road, and the former wife of Arthur W. Greiner.

Friends of Mrs. Ella Rasmussen Tuttle, who admits her intention to obtain a divorce, says she expects to marry Mr. Greiner. Mrs. Tuttle herself does not admit this.

HURFORD UPHELD AT CHURCH

Father of Girl Denies Aged Inventor Insulted Her.

SESSION TAKES NO ACTION.

Character Witness Admits the Old Man Is "Silly When Drunk."

Oliver P. Hurford, the aged inventor who was fined $200 on Tuesday for annoying Edith Wilson, 11 years old, and Rose Geanty, 10 years old, in Union park, was defended in a statement made last evening by the father of one of the girls at a meeting of the session of the Third Presbyterian church. J. M. Wilson, 1136 West Lake street, appeared at the meeting and announced to the elders of the church, of which Mr. Hurford is a member, that he was convinced Hurford meant no harm when he stopped his daughter and offered her money.

It was intended by Hurford that Wilson should make a statement to the congregation assembled at the regular weekly prayer meeting. The elders, however, fearing a sensation, would not permit this and called a special meeting of the session at the close of the prayer meeting. This was a great disappointment to many of the church members, who had hoped to hear the case discussed.

"I have questioned my little girl closely, and from what she says I am convinced that Mr. Hurford meant no harm," said Wilson. "I believe he has suffered a great injustice. It is true he spoke to Edith, but it was in the kindliest manner and in no improper way. I came here to make this statement without solicitation from Mr. Hurford."

Money Offered for Music Lessons.

"Did your little girl tell you that Hurford offered her money?" Mr. Wilson was asked.

"Yes, she did. She said he asked her if he could help pay for her violin lessons. That is all there is to that."

In answer to a second question, Wilson said a proper defense was not offered at the trial of Hurford because he did not know when the trial was to be held.

I. R. Krum, one of the elders, then spoke up. Mr. Krum appeared at the trial as Hurford's character witness, and, according to Judge Himes, it was largely on Krum's testimony that Hurford was convicted.

"I can explain why this was not brought out at the trial," said he. "Believing the parents of the girl would be hostile to Hurford, I did not notify them of the time of the trial."

"Didn't you testify that Hurford is intoxicated occasionally, and that when he is so he is silly?" Mr. Krum was asked by a reporter.

"Yes, I did," answered he. "I did that in the belief that the excuse of drunkenness would get Hurford off quicker than on any other excuse."

Before closing the meeting all the elders announced that "our confidence in Mr. Hurford has not been shaken." Then they declared that the church would take no official action exonerating the inventor.

Will Spend $10,000 for Vindication.

When the meeting broke up Hurford, who had been a silent listener, stepped forward and said:

"I am going to spend $10,000 to clear myself of this charge. The fine of $200 was paid under protest, and as this was done, my lawyer tells me, I can appeal the case. I will not let the matter rest like this."

Earlier in the day Hurford admitted that he indulges "in a glass or two of California brandy." He denied being drunk at the time he spoke to the little girls in the park, but said: "I might have had a glass or two."

An attempt was made during the day by friends of Hurford to get Judge Himes to remit the fine. Judge Himes refused. He said there was absolutely no doubt in his mind of Hurford's guilt.

"The fine will not be remitted," said Judge Himes. "From the evidence Hurford clearly was shown to be guilty. His own character witness testified that he gets drunk and when in that state becomes silly. It was shown also that he pressed the child to him and offered her money. I could do nothing but fine him."

WOMAN FIRES TWO SHOTS: SAYS SHE WAS ATTACKED.

Miss Nellie Miller and Frederick Lanewell Are Arrested at 346 Chicago Avenue and Locked Up.

"I fired two shots into the ceiling and did not aim at his body at all. I shot because he had knocked me down and threatened to kill me."

This was the explanation given last night by Miss Nellie Miller, 30 years old, 346 Chicago avenue, corner of Cass street, when she was questioned about two revolver shots which had been heard by her neighbors. She was taken to the Chicago avenue station with Frederick Lanewell, 29 years old, a jewelry salesman, whom she accused of attacking her.

The two were locked up, the woman charged with disorderly conduct and her companion with assault and battery. They were later released on bonds.

According to the woman she was unpacking her trunk when Lanewell, who lives in the same house, appeared. Miss Miller says he began to upbraid her and when she ordered him from the room he attacked her.

Lanewell refused to make any statement.

ALLEGED ROBBER DEAD IN CELL

Robert McKnight, Arrested Tuesday Night, Suddenly Expires the Next Morning.

Robert McKnight, 20 years old, who was arrested Tuesday night on a charge of robbery, dropped dead in his cell at the Desplaines street station yesterday of what is thought to have been heart disease. He was arrested at Green and West Adams streets, with a companion, James Looney, 19 years old. They were charged with robbing John Mendyh, 369 Hermitage avenue.

CHICAGO CLEARED OF "POLICY ARMY"

Decisive Blow Struck by Hand of the Law in Recent 'Raid' Campaign Is Claim.

SYNDICATE'S POWER EBBS

Penitentiary Sentences Will Be Asked in the Cases Which Are Now Pending.

Policy, the "dream book" game, is in a bad way in Chicago. Across the field of prancing horses, cows, half moons, rabbits, numbers, and other luck signs that flit through the dim night visions of the devotees of the wheel has come the black hand of the law, the bridewell, and the heavy fine. The spiders are spinning webs over the doorways of the hundred shops of the old Interstate and the Indiana and Wisconsin books.

This quietus upon the game has been decisive since Aug. 1, and has been brought about through the combined efforts of Chief of Police Shippy, the Citizens' association, and the judges of the Municipal court. The day of the "protected" syndicate is gone.

Wage War Through Summer.

During the summer the police department and the detectives of the Citizens' association have waged a continuous war against the game. Chief Shippy assigned two colored detectives—Hardy and Hall—to the task, and they did their work well. It was discovered that the Indiana and Wisconsin book, operated by Joseph Dorgan and John McDermott, had more than a hundred shops scattered throughout the west side. "Tim" King was a hard will-o'-the-wisp to follow, but the police succeeded in rounding up his books. "Billy" Skidmore had reached into the south side negro district and had a number of profitable books.

During the last week in July the raids were made that convinced the policy players that the police were in earnest. Unless it be for a small isolated shop, the game is now dead.

After the arrests the work of stamping out the evil for good was put up to the courts.

Wants Prison Sentences.

Several cases of the policy men are pending at the Harrison street court. Assistant State's Attorney Roe will ask penitentiary sentences for two men next week. It is their second conviction. Appeals were taken yesterday in the cases of James Payne, arrested for conducting a policy shop at 3080 State street July 19, who was fined $600 and costs by Judge Wells, and three inmates of the place who were fined an aggregate of $000 more.

Attorney Edward Morris, representing the gamblers, furnished a "stay bond," signed by Skidmore, for the appeal. It is expected that the fine will be paid. The Skidmore crowd will furnish the money.

Handbook Makers Arrested.

Three alleged handbook makers were arrested last night by detectives of Chief Shippy's office. Those arrested are:

Thomas Jones, arrested in Grogan's saloon, 381 West Van Buren street.

Martin Michaels, arrested in rear of McNulty's saloon, West Taylor street and Ogden avenue.

Michael Rold, 6 Clark street, arrested in a cigar store.

None of the patrons of the three places was arrested because of the disposition shown by judges to release all such persons.

Refuses to Drop Bomb Cases.

Following the statement of Police Captain O'Brien on Tuesday that there would be no more "dynamiting" of gamblers' homes in Chicago, friends of Elihu Rosecrans and Edward Kelly under arrest on suspicion of being connected with the bomb explosions, intimated yesterday that the case was a "bargain," that they had asked the police to drop prosecution in return for promises that no more bomb throwing will take place.

Capt. O'Brien laughed at the thought of dropping the case.

"We have got evidence against the men which I think will be sufficient to secure a conviction," he said. "Attempt on the part of friends of the prisoners to 'square' the charges against them will be in vain, as I shall prosecute them.

"Several gamblers and politicians have come to me and asked me to let up on the men, but I will not."

FATHER "DRINKS UP SAVINGS"; FAMILY ASKS $40,000 DAMAGES

Seven Saloonkeepers and Four Property Owners Made Defendants in Action Begun by League.

Two additional suits against saloon keepers were begun yesterday in the Superior court under the dram shop act, whereby families of habitual drinkers are deprived of support through the sale of liquors by the saloonkeepers.

The actions were begun by the Citizens' league of Chicago on behalf of Mrs. Jennie De Haven, 11 Willis court, and her seven children.

Mrs. De Haven demands $15,000 damages, while $25,000 damages are sought for her children.

The saloonkeepers who are made defendants to both suits are:

William Tobin, David McHale, James Walsh, Michael and Bernard McGarry, William Reidy, and one "Ehrman."

The following are made co-defendants for having an interest in the places or the property where the saloons are situated:

United States Brewing company, Alfonse L. Creedon, Charlotte W. Pitkin, and Adaline Wathier.

Henry L. De Haven is alleged to have squandered his savings in the saloons. Within the last month ten similar suits have been filed against saloonkeepers and brewers.

ADVERTISE IN THE TRIBUNE

MISS GASTON IN GOTHAM CRUSADE

Chicago Woman Invades Swell Feminine Club to War on Cigarets.

BIG BOND BID BARRED.

"Postage Stamp" White's Offer to Take Gold Securities Is Rejected.

NEW YORK BUREAU CHICAGO TRIBUNE, New York, Sept. 11.

Miss Lucy Page Gaston of Chicago, the enemy of the cigaret, has moved on New York City.

Cigaret Imp Gets Jolt from Miss Gaston.

Miss Gaston, who has been fighting the demon cigaret and demon rum for many years, sent an earnest appeal tonight to the membership of the year old Colony club, Madison avenue and Thirtieth street, to sign pledges that they will, "with the help of God," abstain "from all intoxicating liquors as a beverage and from the use of tobacco in any form."

The Colony club is the exclusive fashionable women's club whose manners and customs resemble the manners and customs found in the Fifth avenue men's clubs. The Vanderbilts, Goulds, Gerrys, and most of the rest belong to it.

"I shall call upon Gen. Bingham," she said today, "in the effort to have him instruct all policemen to look into the cases of boys whom they see smoking. Magistrate Crane, who has long been on our side, will no doubt use his influence with the other magistrates to enforce the law."

The wedding of Miss Amy Angell Collier of New York to Gilbert Holland Montague will take place on Oct. 3 in the Church of the Epiphany. Miss Collier is a niece of James B. Angell, president of the University of Michigan. Mr. Montague is a graduate of Harvard college and of Harvard law school.

Abraham White, "the original postage stamp bidder," failed to get any of the New York city bonds sold yesterday, although he bid for the entire $40,000,000 offered for sale and put up an accepted draft for the $800,000 required by law to accompany the bid.

Financier White Loses Out on City Bond Bid.

Between $15,000,000 and $18,000,000 in the bonds were at first awarded to the Abraham White Bond company, but when Controller Metz presented the draft for payment this afternoon the money was not forthcoming and the bid was thrown out.

White first sprang into prominence when he was awarded United States bonds valued at $1,500,000 during the time John G. Carlisle was secretary of the treasury. The law did not require a deposit with the bids and when the bonds were awarded him White interested Russell Sage in the deal and from him secured the money to make the required payment. His only outlay was 47 cents in postage stamps in sending his bid to the treasury department, and he is said to have made $100,000 on the transaction.

"Sam" Byerly, the express clerk who was awarded $5,800,000 in Panama canal bonds on an investment of 44 cents in postage stamps, became, it is said, vice president of the Abraham White Bond company.

The International Mercantile Marine company announced today a reduction in minimum eastbound cabin rates of $22.50 on the steamships Adriatic, Baltic, Cedric, Arabic, Celtic, Minnehaha, Minnetonka, and Minneapolis to correspond with the reduction made by the company recently on the Oceanic, Majestic, and Teutonic. The new rate on the Adriatic will be $77.50 and on the Arabic, Baltic, Cedric, and Celtic $72.50. The Minneha's rate is cut from $70 to $50.

Heavy Cut in Steamship Rate Battle.

The International Mercantile Marine company announced it was not the plan of this company to assume the aggressive in the rate cutting war, but simply to meet competition.

The eastbound first cabin rate on the Campania and Lucania, which had been $100, was cut to $72.50. The rate on the Caronia and Carmania, recently reduced from $95 to $75.50, was further cut to $72.50. The rates on the Umbria and Etruria, recently cut from $82.50 to $60, were further cut to $57.50. Whether or not the rate on the new turbin steamer Lusitania will be cut the agents were unable to tell until after the arrival of the ship in New York.

The grave of a short life love which bloomed, flourished, and wilted in seven months was marked yesterday by the decree of divorce granted Mrs. Lee De Forest, wife of Dr. Lee De Forest, the wireless telegraphy wizard.

De Forest Romance of Seven Months Crushed.

Jealousy was the executioner of this affection which was born among the metal instruments and strange flashes of the wireless machine. And a New York millionaire, Dewitt C. Flanagan, is the man blamed by the husband.

Such an ending of this romance is a shock to New York society. The girl met her future husband while she was watching the workings of the wireless telegraph instruments.

It is probably that Dr. De Forest will sue Flanagan for alleged alienation of his wife's affection.

Chester B. Runyan, who stole $96,000 from the Windsor Trust company, was sentenced today by Judge Whitman of General Sessions to seven years in Sing Sing. Runyan pleaded guilty to two indictments for grand larceny in the second degree and could have been sentenced to ten years. He got three years off for saving the county the expenses of a trial and for testifying against Laura M. Carter, who was acquitted of taking $5,000 of the money Runyan stole. About $54,000 was found on Runyan when Mrs. Carter turned him over to the police.

Seven Year Sentence for Cashier Runyan.

The epidemic of infantile paralysis in this city is assuming alarming proportions, according to the reports of hospital physicians who have the disease under observation in the hope of discovering the germ. There are now under treatment in various hospitals between 300 and 400 children who have the disease well developed, and most of whom will be hopeless cripples for the rest of their lives.

Infantile Paralysis Epidemic Grows.

COAL FAMINE IS PREDICTED.

Operators in Pennsylvania Say That Labor and Water Are Already Serious Problems.

Philadelphia, Pa., Sept. 11.—Anthracite and bituminous operators say that the coal situation is growing serious throughout the state, and it is freely predicted that before midwinter there will be a famine.

The supply of water already has become a serious problem in the anthracite region. The Reading company is compelled to send between thirty-five and forty tank cars of water to its collieries daily to keep them in operation. The labor supply has been below normal for several weeks. Unless there is considerable rain it may be necessary to suspend operations at some collieries, it is declared.

The labor problem is serious in the bituminous fields of the state. Central Pennsylvania operators are advertising for miners, and agents are scouring the country for miners for the Pittsburg district. Both anthracite and bituminous operators are selling coal from stored stocks to supply the demand.

Girl Led to Altar After Long Siege.

Mrs. James O'Donnell

WON BY CHICAGO LOCHINVAR

Mayme Curtin at Last Surrenders to James O'Donnell.

PROPOSAL AFTER PROPOSAL.

Big Man Courts Sweetheart for Four Years, Then Is Victor.

If James O'Donnell doesn't believe in the adage "Faint heart ne'er won fair lady," it isn't his wife's fault. Mrs. O'Donnell, who until last Tuesday was Miss Mayme Curtin, a leader in the church sodality of St. Pius' Catholic church, has given in and allowed herself to be carried off to Wisconsin on a wedding tour by her big husband, but it took four years and nobody knows how many proposals. Everybody lost count three years ago.

Among O'Donnell's friends on the west side "Jim" O'Donnell's suit has been the object of mingled admiration and astonishment. The big man and the little girl—Jim is six feet tall—met in 1903, according to the most authentic historians. Some say it was earlier, but that is as it may be.

Anyway, in 1903 Jim's devotion to Miss Curtin became evident, and then the proposals began. Jim was turned down.

"I am going to devote myself to a religious life," Miss Curtin told him, "and earthly marriages haven't any place in that. And, anyway—"

But the "anyway" didn't trouble Jim. After a respectable interval he proposed again, with the same result. Then it became a regular thing. The monotony of it did not seem to trouble the big man, and he always came up smiling.

Leaves Seminary After Month.

After one of the usual rebuffs young O'Donnell left Chicago and started a course leading to the priesthood in a Catholic theological institution. After a month of it he found that he spent too much time thinking about Miss Curtin; so he gave it up, came back to his parents' home in Chicago and proposed again. Miss Curtin smiled and said "no."

Then the two families began to get interested. O'Donnell senior offered a standing reward of $3,000 to be given to his son whenever he should "win out." Miss Curtin's mother and brothers favored Jim's suit openly.

But Maypie was obdurate until last June, when her chum, Miss Frances Anderson, was married to F. J. Heidler, president of the Fink-Heidler company, and moved out to a pretty home in Oak Park. Jim saw that the young woman was wavering, seized his opportunity, and proposed again. This time he was accepted.

Parents Away; "Jim" Didn't Wait.

O'Donnell père and Mrs. O'Donnell are in Europe, but Jim didn't dare wait for their return. So the wedding was performed on Tuesday at St. Pius' church and the bride and groom are now spending their honeymoon at The Dells, Wisconsin.

Mrs. O'Donnell is a daughter of Mrs. Patrick Curtin, 659 West Twentieth street. After a time the couple will dispose of the Curtin home and will live in Oak Park, near Mr. and Mrs. Heidler. O'Donnell, after he returned from the theological school, was employed as a bookkeeper for a time by Sears, Roebuck & Co.

TAX CLERK MISSING; SHORT.

Police at New Orleans Place Defalcation at Between $105,000 and $200,000—Chief Will Make Good.

New Orleans, La., Sept. 11.—[Special.]—A shortage in state tax collections, which the police placed at between $105,000 and $200,000, was discovered today on the books of Charles E. Letten, chief clerk to John Fitzpatrick, collector for the New Orleans district. Letten has disappeared. Fitzpatrick will make good the shortage.

OBITUARY.

LOUIS A. HEBEL, 229 Chestnut street, formerly a leader among German-Americans, died yesterday at the Passavant hospital after a month's illness. Mr. Hebel came to Chicago thirty-three years ago from Cincinnati. During the civil war he was a captain in the One Hundred and Eighth Ohio volunteers. He is survived by a widow and three children, Oscar and William Hebel, and Mrs. E. H. Taylor. The funeral will take place tomorrow afternoon at 2 o'clock, with services at the residence. The burial will be in Graceland. The G. A. R. will have charge of the services.

COL. ROBERT I. FLEMING, one of Washington's widely known citizens, died at his suburban home, "Oak View," Cleveland park, Washington, D. C. He was 65 years old, a native of Virginia, and served during the civil war as a member of the Richmond Fayette artillery. Soon after the war he came to Washington and had since been prominently identified with every movement to promote the growth, prosperity, and beauty of the national capital.

DEPOSE HARAHAN, IS FISH DEMAND

Bitter War Between Ex-President of Illinois Central and Harriman Revealed.

GRAVE CHARGES MADE.

Present Head of Railroad Is Accused of Juggling the Company's Books.

(Continued from first page.)

Central for the fiscal year ended June 30 show an increase of $4,974,228. The operating expenses and taxes increased $3,628,055. This makes the net earnings an increase of $1,346,173. Not in the history of the Illinois Central railroad has any showing approached this. That the big increase in net earnings of the Illinois Central is due almost entirely to Mr. Harahan's management is evident from the fact that other big southern roads for the same period show heavy decreases in earnings.

Demands an Inquiry.

"Therefore, Resolved, That Mr. J. G. Rawn, the vice president; Mr. T. J. Hudson, the general traffic manager; Mr. J. F. Titus, the assistant to the president; and also the following officers, the controller, the auditor of passenger receipts, and the auditor of disbursements, be and are hereby each severally directed to report in writing to an adjourned meeting of this board to be held one week from this date—viz: on Wednesday, Sept. 4, 1907—as follows:

"First—Whether any changes—and, if so, what changes—have been made in the methods of accounting pursued during the fiscal year ended June 30, 1907, from the methods in use prior thereto; when such changes were made, and by whose direction.

"Second—Whether any items—and, if so, what items—were taken into receipts by bookkeeping entries, either from previously existing expense accounts or otherwise; when and by whose directions this was done, if done at all.

"Third—What is the reason for the increase in the force employed in the accounting department in June, 1907, when 517 persons were employed and the compensation of $31,640.18 paid them, as against 432 persons employed in June, 1906, at a compensation of $25,866.43? When and by whose direction this additional force was employed and for what purpose this was done.

"Fourth—Whether any reports, telegrams, or other information as to the receipts or any part of the other business have been sent from Chicago to any address in New York or Chicago other than directly to officers, as distinguished from directors of the company. If so, what reports, telegrams, or other information have been sent, to whom sent, and by whose directions.

Changes in Management.

"Fifth—Whether any changes, and if so what changes, have been made in the routing of passengers or freight as between the Illinois Central railroad and the Yazoo and Mississippi Valley railroad, whether the effect has been to increase the receipts of the former or of the latter, respectively; when and by whose direction such charges were made.

"Sixth—Whether any changes, and if so what changes, have been made in the routing of freight as between the Illinois Central and the Yazoo and Mississippi Valley railroads on the one hand and other roads; when and by whose direction such changes were made.

"Seventh—Whether any changes, and if so what changes, have been made in the division of through rates as between the Illinois Central and the Yazoo and Mississippi Valley railroads on the one hand and other roads; when and by whose direction such changes were made."

While Mr. Fish was reading the preamble and resolutions Mr. Peabody moved to adjourn until Sept. 11, and Mr. Harahan put the motion, with the disastrous result to himself already reported.

Shorn of Their Sting.

The forces today lined up again as at the meeting of Sept. 4.

The preamble and resolutions having been read, Mr. Fish moved their adoption. Mr. Peabody moved to amend the first resolution calling on I. G. Rawn and the other officers therein named for reports so that it should read:

"Therefore, resolved, That the president, Mr. Harahan, be requested to report in writing to an adjourned meeting of this board to be held on Wednesday, Sept. 11, 1907, as follows," etc.

Mr. Fish didn't like Mr. Peabody's amendment a bit. It emasculated his resolution, he said, and prevented all real inquiry. Mr. Peabody interposed that Mr. Fish's resolution as offered was discourteous to Mr. Harahan.

The preamble and resolutions offered by Mr. Fish, as amended by Mr. Peabody, were adopted. Messrs. Harahan, Hackstaff, Vanderbilt, Auchincloss, Goelet, and Peabody voting aye; Messrs. Beach, Fish, and Cutting voting no.

Mr. Fish will probably take the opportunity offered by the stockholders' meeting Oct. 16 to press his action further.

Those present at today's meeting besides President Harahan were: Directors Vanderbilt, Peabody, Cutting, Beach, Luttger, Auchincloss, Fish, Goelet, and Hackstaff.

Sees Bride Drown in Storm.

Philadelphia, Sept. 11.—Mrs. Marguerite Croft, bride of a few weeks and wife of John Croft of 124 Casino street, New York, was swept overboard from a yacht in the Delaware river here today and drowned. Mr. Croft plunged into the stream, but the efforts to save the young bride were futile.

FIND $726,000 MORE TO TAX.

Reviewers Discover Railway Equipment Co.'s Wealth.

TOLD IN A SECRET LETTER.

Board to Meet with Realty Experts on Monday and Tuesday.

The tax assessment against the Chicago Railway Equipment company was increased yesterday from $75,000 to $800,000.

This is the greatest increase made during the present session of the board of review and will do much toward balancing the increases with the cuts. In view of the big discrepancies so far discovered the board has arranged a session with real estate experts for next Monday night and all day Tuesday.

Last year the Chicago Equipment company, whose place of business is at Fortieth street and Princeton avenue, was assessed on $75,000, which figures the board considered entirely too low. Not much information was gleaned the other day when the company was "reviewed." The board decided that an assessment of $125,000 would be right, but before the figures could be recorded President Roy O. West received a secret communication, since said to have been verified, which justified the big increase.

All personal property cases were disposed of during the day in addition to realty cases of the north town. Today, Friday, and Monday will be devoted to realty from the south town. There will be no public hearings on election day.

E. F. Dunne Gets Some Reductions.

Edward F. Dunne asked the board for a reduction on assessments made against the estates of Richard Prendergast and Gen. F. H. Winston. As a result of his arguments the assessment on the Prendergast building, at Lincoln Park boulevard and Erie street, was cut from $58,000 to $55,000, the land assessment of $40,000 remaining unchanged. The improvement valuation of the estate's holdings at 196 and 198 Cass street was cut from $19,000 to $17,000. The building values of the Winston estate on Superior street and Lincoln Park boulevard were cut somewhat.

J. W. Loeb Obtains an Increase.

Attorney Jacob W. Loeb got himself assessed from nothing to $1,000, and he said this was mainly on "prospects."

SKYSCRAPERS OF FILMY STUFF

Towering Structures on Foundations of Crinoline Will Be Reared for Feminine Adornment This Fall.

Within the ensuing three weeks, and in readiness for occupancy by the time the frost is on the pumpkin, thousands of skyscrapers, fearfully and wonderfully made, will be constructed in Chicago. They will not be of steel and stone, but of the flimsiest lace, the lightest plumage, and the most brilliant hued flowers, and builded to overtowering proportions on an unstable foundation of wires, crinoline, and the more humble haircloth. This is the dictum of the architects of fashionable feminine headgear, as expressed and illustrated at the tenth semi-annual convention of the National Milliners' association in a three days' session in the Masonic temple drill hall.

The convention opened yesterday with hundreds of hats on exhibition. Visitors were permitted to try on as many hats as they pleased.

ZION CITY PLANS RACE TRACK.

Citizens Decide the Treasury Must Be Filled, but Voliva Will Fight to Bitter End.

In an effort to replete the exhausted treasury as well as to give an outlet to the sporting proclivities of some of its residents Zion City is to have a racetrack. The city established by John Alexander Dowie as a bit of heaven on earth will have a mile course, and it is expected that it will replenish the town treasury.

The plans for the project were made public yesterday and ground for the track will be broken within a few days. The project is being backed by J. W. Stewart and has the sanction of Receiver John C. Hately, Acting Mayor Beebe, director of the Zion general stores, and the Rev. Percy Clibborn, an elder of the Zion church.

Friends and supporters of Voliva declare that he will fight the proposition to the end upon his return, which is looked for today.

PEACHES WITHIN REACH OF ALL

Run of Fruit from Michigan Begins Next Week, to Delight of Housewives.

Peach meringue, peach butter, and peach preserves will not be among the forbidden luxuries this winter, despite all previous indications to the contrary.

Within the next week, according to commission merchants in South Water street, a big run of the velvety fruit from Michigan will begin. One produce firm alone has bought 10,000 bushels for early delivery.

Thus far prices have been high. The cold weather was expected to curtail the Michigan production greatly.

The offerings from across the lake will not equal the enormous output of last year, but men who are in a position to know say that the quotations will not be high enough to frighten away the possessor of an ordinary purse. The cool weather will keep the fruit sound.

MAYORS IN FAVOR OF TRACTION BODY

Illinois Officials Want a State Commission of Three Members.

FOR DEEP WATERWAY.

Association Will Meet in La Salle Next Year; Silas Cook Chosen President.

Bloomington, Ill., Sept. 11.—[Special.]—The Illinois Mayors' association today adopted resolutions favoring the election of railroad and warehouse commissioners by the people and the creation by the legislature of a commission of three members to supervise the electric traction lines of the state. The proposed deep waterway to the gulf was favored.

Mayor McDonald of Decatur moved the adoption of Mr. McCaskrin's recommendation that the convict labor system of the state be changed so that felons and criminals shall be compelled to work the roads instead of competing with free labor in manufacturing lines. This was heartily indorsed.

Act on Franchise Issue.

The clause of the president's address that all corporations seeking franchises for public utilities shall pay for the same, and that all cities of 1,000 and upward in population shall have the referendum vote to pass on franchise grants was adopted. City Attorney Fitzhenry of Bloomington asked that the statement in the address in regard to perpetual franchises be changed to "so-called or claimed perpetual franchises." Mr. McCaskrin agreed to this. Mr. Fitzhenry stated that in his opinion there was no such a thing as a perpetual franchise.

The recommendation for a law whereby all towns and cities may levy a tax for park purposes, no matter what their size, was indorsed.

Deep Waterway Approved.

On the motion of Mayor Puterbaugh the clause approving the deep waterway from Chicago to the gulf was heartily indorsed.

La Salle will entertain the association next year. After electing Mayor Silas Cook of East St. Louis president and choosing other officers the second annual convention adjourned. The other officers chosen are:

Vice president—F. W. Marsttller, Geneva.
Secretary—George W. McCaskrin, Rock Island.
Treasurer—C. E. Beaver, Mount Carroll.

OFFICES COLD; ONE EXCEPTION.

New County Building Chilly Except in the Marriage License Department.

Complaints of dampness and cold were numerous among officials and employés in the new county building yesterday. At 1 o'clock in the afternoon Augustus F. Nightingale, superintendent of county schools, closed his office and left a placard on his door, reading thus:

"Closed for the day, 1 o'clock. Lack of heat."

Morris Salmonson, marriage license clerk, said that he had heard no complaints because of the cold.

"The marriage licenses keep this place warm," he said.

FORESTERS MEET AT BANQUET.

Chief Rangers of Subordinate Courts Guests of Honor at the Grand Pacific Hotel.

The chief rangers of the subordinate courts of the Catholic Order of Foresters were guests of honor last night at a banquet at the Grand Pacific hotel, at which the state court of Illinois was host. Three hundred and fifty sat down to the table, and the speakers were Bishop Muldoon, William F. Ryan, state chief ranger, and Thomas H. Cannon, high chief ranger. Thomas McEnerny, past state chief ranger, presided as toastmaster. Plans for the extension of the order throughout the city and state were discussed.

AGENTS HONOR BRIDE AT DINNER

Labor Leader Madden Acts as Host of Building Tradesmen in Function for Sister.

Business agents from nearly every branch of the building trades council were among those present at a wedding dinner given by Mr. Martin B. ("Skinny") Madden in honor of the wedding of his sister, Miss Julia C. Madden, to Kenneth M. Rathbun at a downtown restaurant last evening. The bride is the daughter of Mr. Daniel Madden, at present assisting in the construction of the Panama canal. The ceremony was performed by the Rev. Father O'Donohue at St. Patrick's church at 5 p. m.

NEW HEADS FOR ALLIS-CHALMERS.

Reported E. H. Gary and W. V. Kelley Will Be Chief Committee Chairmen.

FOUNDER'S SON TO QUIT.

This Is Report in Milwaukee, but Officers of Company Do Not Confirm.

The United States Steel corporation is to become a more important factor in the organization of the Allis-Chalmers company, according to reports from Milwaukee.

The story circulated there is that Charles Allis, son of the founder of the Allis works, is about to retire as chairman of the executive committee of the Allis-Chalmers company, and that Elbert H. Gary, chairman of the steel trust, is to succeed him. It is also stated that Edward D. Adams of New York, chairman of the finance committee of the Allis-Chalmers company, is to be succeeded by W. V. Kelley of Chicago, president of the American Steel Foundries company. It is believed that the change will be made this morning at the directors' meeting in New York.

Officials of the company in Milwaukee decline to discuss the matter. Charles Allis refuses to confirm the report that he will retire and other officials of the company are equally reticent. Some time ago when the stock flurry hit the company it was given out by Mr. Allis that the company was in need of working capital. The proposed changes are expected to overcome this difficulty of lack of funds. The company now has over $15,000,000 of orders on its books and it is stated that an enormous sum of money is required to carry on this work until contracts can be fulfilled.

Not Denied at Kelley's Office.

It was not denied in the afternoon at William V. Kelley's office in the suite occupied by the Steel Foundries company, in the Commercial National bank building, that his selection for an important position in the Allis-Chalmers company is likely to be made today. Mr. Kelley is already a director of the Allis-Chalmers company.

In the absence of Mr. Kelley, who had just left for New York to attend the directors' meeting of the American Steel Foundries company, Charles A. Hughes, his private secretary, said:

"Only Mr. Kelley himself, or some of the men associated with him in the Allis-Chalmers company, could give any clew as to the reasons for this report. No information that I feel at liberty to disclose is at present in my possession."

Mr. Kelley jumped into fame recently by his feat in earning a bonus of $320,000 offered by the Steel Foundries company to "the man who would succeed in putting the concern on a paying basis." That he might have a free hand for this task he was placed in the president's chair of the corporation two years ago. Before the end of the first year he had cleared off a deficit of $750,000 in addition to a net earning of $2,500,000.

Mr. Kelley's Business Career.

He was born at Greenville, O., forty-four years ago, and while attending the district school was an assistant in the hardware store of his father. Even in his school days he determined to enter the railway supply business. He came to Chicago nearly twenty years ago and entered the employment of the Charles Scott Spring company. It was not long before his salary was $5,000 a year.

He built a plant at Hammond, Ind. He sold this to the American Steel Foundries company and became an official of that concern. Since then his rise has been rapid. He is president of a steel car company in Canada which has a plant covering forty acres.

Mr. Kelley is an enthusiastic motorist and golfer. He is a member of the Chicago, Union League, Kenwood, South Shore, Kenwood Country, Glen View, Exmoor, and Midlothian clubs. His home is at 4849 Ellis avenue.

At the local office of the Allis-Chalmers company officials said they had not been apprised of any changes in the control of the corporation. C. M. Howe, general sales manager, said that the annual meeting will be held in Jersey City Sept. 24. He said he had not heard and did not believe that Charles Allis and E. B. Adams would retire.

WIRE COMPANY TO FIGHT; OMIT EARNINGS STATEMENT.

Both Sides in Strike Decide on Bitter Contest—War May Last Until December.

New York, Sept. 11.—[Special.]—The resolution of the executive committee of the Western Union Telegraph company indorsing the policy of the officials of the company in fighting the strike of the telegraphers to a finish, which was passed on Tuesday, was adopted at the quarterly meeting of the board of directors today. Secretary A. R. Brewer said the usual quarterly dividend of 1¼ per cent had been declared, and that the resolution commending President Clowry and the other officials for their management of the "late strike" had been adopted. The customary statement of the earnings was not made.

A meeting of the strikers was held this evening in executive session, after which it was announced that a recommendation by the executive committee of the union made at a previous meeting by which the members in the brokers' offices and the newspapers be assessed $5 a week each to support the strike was adopted. National President Small, in a speech, said that the strike would be kept up until December, so that congress, when it meets, could be appealed to investigate the matter.

Reward of merit cards are to be given to all telegraphers who go through the strike against the telegraph companies with "untarnished" records. The executive board of the union yesterday adopted this plan as an inducement to prevent desertions in the ranks. A stampede to return to work was expected by the union officials following the cutting off of strike "pay," but it was said the men in Chicago were standing firmly. Announcement was made that more money will be distributed today. The American Federation of Labor has issued an appeal to all the unions in the country in behalf of the strikers.

Active interest is being shown in the benefit for the striking telegraphers to be held at the Garrick theater Friday afternoon. Many stage stars have volunteered their services.

FIRE SWEEPS SOUTH HAVEN; AVERY BEACH HOTEL IS GONE.

Big Summer Resort on East Shore Destroyed—Eight Summer Cottages in Ashes.

South Haven, Mich., Sept. 11.—[Special.]—Fire early this morning destroyed the Avery Beach hotel and eight summer homes in the vicinity. The total loss will be fully $125,000.

The origin of the fire is a mystery. It was discovered in "The Breakers," the home of Dr. and Mrs. R. McKinney. The family knew nothing of the fire until the roof fell in. Their escape from death was almost miraculous.

The flames quickly spread. The Delmar cottage, "The Shanty," the home of F. P. Kaiser of St. Louis; the "Colonial," the "Walton," the "Grey Bird," and "Melrose Terrace" and two smaller places were soon in ruins.

The Hotel Avery was in the pathway of the flames and burned quickly. It was a wooden structure. It was closed for the season a week ago. It was owned by George B. Kelly of this city, George Miller of Detroit, and L. S. Parker of Jefferson City, Mo., and cost $90,000. It will be rebuilt.

SEND TEAMSTERS TO COLLEGE

Chicago Drivers Must Be Experts, Says T. J. Cavanagh.

MAKE THEM WIN 'DEGREES.'

Team Owners' Secretary Would Give Men Diplomas After "Course."

A grimy faced coal wagon driver with a diploma in his pocket may not be an unusual combination in Chicago when Mr. T. J. Cavanagh's "college for teamsters" gets into operation. First steps were taken yesterday to launch such a school with the idea of developing teamsters along scientific lines.

Mr. Cavanagh, who is secretary of the Chicago Team Owners' association, has been making some statistical investigations among the 7,000 drivers under his jurisdiction and he believes that at least 20 per cent of them are deficient in rein handling. He proposes to "educate" these men by a three months' course of "classroom" work, supplemented with lectures. At the conclusion of the term, if the driver passes a successful examination, he will be "graduated" with the degree of "expert teamster."

Try Experiment Next Week.

The experiment may be tried in one of the big teaming stables of the city next week. At present Mr. Cavanagh is seeking the cooperation of the truck drivers' union. He said that the scheme has been reported to the union by President Jerry McCarthy and that the idea has been received favorably by many of the members.

"My plan is to put the drivers through a course of practical lessons in teaming," said Mr. Cavanagh. "Many of our men are so green that they cannot harness a horse. There is no way of determining their inexperience, however, until they have commited some damage, but by establishing my proposed school tests this could be avoided."

Feat Requires Skill.

Driving a team through Chicago streets, according to Mr. Cavanagh, has come to be a feat requiring the highest degree of skill. Some of the men seen every day on the big six horse truck wagons, he declared, are among the most expert drivers in the country. Many other teamsters, however, should not be allowed on the streets, Mr. Cavanagh said. He charged the inefficient drivers with being largely responsible for street blockades and delays.

Girl Runs Away to See Chicago.

Twelve year old Carrie Hess of Fort Wayne, Ind., wanted to see Chicago, and failing to get the consent of her parents she decided she would run away. She was scared "at the big city," however, and yesterday the police returned the girl to her parents.

NEVER SAW CRAPS: FREEMAN

Writer's Husband Blames Politics for Charge Against Him.

NOMINATED BY HIS ENEMY.

In Morning He Is Republican Candidate, in Evening Democratic.

New Brunswick, N. J., Sept. 11.—[Special.]—Dr. Charles M. Freeman of Metuchen, whom Borough Marshal Enos Fouratt arrested yesterday for participating in a crap game, was much disturbed today over the matter, and hurried to New Brunswick to call upon Prosecutor George Berdine.

The husband of Mary E. Wilkins Freeman, the novelist, told Mr. Berdine that he had been the victim of an outrage. He said he was not a gambler, that he had not "shot craps," that he didn't know what the game was. He asked the prosecutor to call him before the grand jury at once, so that he could clear himself of the charges. But the grand jury was busy and the prosecutor put Dr. Freeman off until next week.

Dr. Freeman declared this morning that the charges against him were the work of political enemies who were fighting his nomination for mayor. He was a candidate for mayor on the republican ticket in Metuchen yesterday, yet at the close of the polls had been nominated on the democratic ticket.

Republican; Named by Democrats.

Up to last night the contest was between Dr. Freeman and Jesse T. Jackson, that alleged crap game playing an important part. Toward evening, when Dr. Freeman's friends found that Jackson was rolling up a big vote and that there was no chance of overcoming it, they went out after democratic voters.

Thorfin Tait was the democratic candidate and he thought that he had plain sailing until between 8 and 9 o'clock, when a lot of democratic votes with Tait's name scratched and Freeman's written in were offered. Tait's friends tried to get out others to counteract this, but the supporters of the only democratic candidate had thought that there was no contest and were not around. The result was that Dr. Freeman got sixty-four votes for the democratic nomination against Tait's forty-one.

Will Run Despite Everything.

The election officers rejected the Freeman votes cast in the democratic box on the ground that as he was the republican candidate he had no right to be nominated by democratic votes. Freeman's friends say that he is going to be the democratic candidate in spite of the election officers and the crap scandal.

YACHT OF CZAR FAST ON ROCKS.

Imperial Family Remains on Board Standart Off Coast of Finland.

ROYALTY NOT IN PERIL.

Vessels Ready to Lend Assistance if Any Is Needed; Escort of Warships.

HANGO, Finland, Sept. 11.—The Russian imperial yacht Standart, with Emperor Nicholas and Empress Alexandra and other members of the imperial family on board, is fast on the rocks off Horseva point, on the coast west of this place. The yacht apparently is in no danger, and the royal family remains on board. A number of vessels have left for the scene to render assistance if it is needed. The Standart grounded at 4:30 p. m.

Yacht Escorted by Warships.

A dispatch from Helsingfors which was sent before the grounding of the royal yacht says the Standart, escorted by warships, sailed yesterday afternoon from Makalaks and passed Hango this morning. It then entered the western fjord at Hango.

Offers of private assistance from Hango and Reval have been declined. Nobody is allowed to approach within half a mile of the yacht. The weather is fine.

Twin Screw Vessel.

The imperial yacht Standart is a twin screw three masted schooner, 423 feet long over all. Its keel was laid down in 1893 and it was launched in Copenhagen two years later. The Standart has a displacement of 5,557 tons and its beam spreads over 52 feet. The mean draft is 20 feet. It has a coaling capacity of 900 tons. The armament consists of eight three pounder quick firing guns and it has a crew of 370 men.

Hango is situated on a spit of sandy land which juts out into the sea at the southern extremity of the Finnish mainland. A village and bathing resort are located there. A lighthouse marks the spot.

CROWN PRINCE ESCAPES DEATH

Christian of Denmark in Peril at Railroad Crossing When He Is Hemmed In by Automatic Gate.

[BY CABLE TO THE CHICAGO TRIBUNE.]

COPENHAGEN, Sept. 11.—The Crown Prince Christian of Denmark has just had a narrow escape from death at the military maneuvers. Being mounted and accompanied by an adjutant, he had occasion to cross the railway line at a grade crossing which is controlled by a high gate worked automatically. The gate was lowered just as the prince and his equerry were crossing. An express train dashed through, frightening the horses, which became almost unmanageable. Two subalterns then raised the gate, releasing the terrified animals.

Announcement

The opening of our workrooms—*in our own building*—a special feature

This is an innovation for Chicago.

There are but six retail clothing firms in the United States that fashion, make and sell their own products under one roof—three in New York, one in Boston, one in Philadelphia, and now MOSSLER in Chicago.

VIEW OF OUR SANITARY WORKROOM IN OUR OWN BUILDING

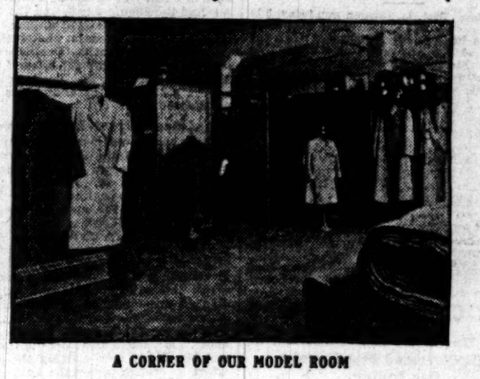

This is a *complete revolution for this city* in the production of men's clothes.

Realize its advantages:

Under our own supervision we design, make, trim and deliver in every size "*ready for service*" that which heretofore was only possible to attain at the best merchant tailors' in the land.

We go into the market of the best domestic and foreign weavers and buy confined styles, in many cases enough for one, two or three suits or overcoats, thereby assuring our patrons *absolute exclusiveness.*

We constantly evolve new touches of style and all the niceties that give our *custom tailored clothes* that indefinable something so different from others, and, instead of making them six months or a year in advance, as do the ready-made shops, we are making them each and every day.

A CORNER OF OUR MODEL ROOM

A certain well known New York merchant remarked, when seeing our workrooms: "This is, indeed, an innovation for Chicago. It deserves the support of the Chicago people."

As for price, *our usual care to give the very best values for the money still predominates.*

Young Men's Suits, $18, $20, $25, $30 and $35.
Men's Suits at $20, $25, $30, $35 and up to $50.
Overcoats at $20, $25, $28, $30, $35, up to $65.
Evening Dress Clothes, $35, $45, $55 and $65.

Our Fall Exhibit begins today.
Our workrooms are open for your inspection.

NOTE—To introduce our new "English Waistcoat Shop" (now established on our main floor) we offer a magnificent selection of waistcoats at $5, usually priced at $6, $7 and $8.
(In Waistcoats, as in all our garments, we have sizes up to 48 stout.)

Scholle's Good Furniture

Our Colonial Furniture

The modern reproductions of the works of those eighteenth century furniture craftsmen, who were responsible for what is now styled Colonial Furniture, have met with such universal favor that we have been obliged to give them more and more room season after season.

To-day we feature them and say *Colonial Furniture is our specialty.*

In many a factory we have taken the entire output; so we can truthfully say *most of what we offer is exclusively shown by us.* Come and see the new styles before the stocks become broken.

We have not neglected the other types, both in period furniture and that of modern designing. Five floors—and an overflow space besides—are filled with fine and medium furniture—*the cream of a hundred factories.*

The August sale was a great one, but not all the bargain pieces were taken. You will do well to see what are left.

BY SY.

St. Louis, Mo., Sept. 11.—[Special.]—The White Sox cut a huge slice out of the gap between themselves and the leaders today by winning both ends of a double header from the Browns, while Cleveland and Boston were trimming the vanguard in the race. "Doc" White, who won his third game in five days, blanked the Browns 2 to 0 in the first game despite some erratic support. With Frank Smith on the rubber the Sox had a hard fight for the second game, finally winning 5 to 4 after batting Howell off the slab in the fifth inning.

Walsh, who remained in Cincinnati for the postponed field day, was counted on by Manager Jones to pitch one game today and, consequently, it was necessary to work White again. The dentist was elected for the first battle in order to give the Sox more confidence for the second. He was batted a trifle harder than the Sox "got to Pelty," and his support was worse. Nevertheless, he delivered the game.

Sox Make Hard Fight.

With the score board showing a defeat for the Athletics, the Sox went into the second game primed to scrap to a finish. They profited by Howell's wildness in the first inning to pile up three runs, a pinch single by Rohe contributing two of them, but the Browns tagged Smith's curves freely, taking a lead.

By that time the score board indicated a defeat for the Tigers, too, and, roused to the top pitch by this prospect of closing up the pennant race, Comiskey's men went after Howell viciously in the fifth. They batted in two runs, giving them a lead of one, and had the bases full with one out when McAleer finally withdrew Howell and sent his rawest recruit, Mr. Bailey of Texas, into the breach. This kid sou'paw checked up the Sox, but he had to have help from Umpire Evans in the fifth to do it. Then, with victory once more in sight, Smith and the Sox settled to a desperate contest, Smith getting better with every inning and his support being perfect and determined at all times. Smith finished by striking out two men in the ninth, and three in the last two rounds.

Dougherty Hits Ball Hard.

Dougherty's stick work was the best of the day as he cracked out three of the five hits the Sox made off Pelty and one off Howell. Rohe was the batting hero of the second game, however, as his two hits were haymakers.

Armbruster, the catching recruit from Boston, made his first appearance in a Sox suit in the second game. He handled the eel ball with ease and certainty. Tannehill, Davis, and Rohe fielded brilliantly in the defense.

Despite the slips charged against them the Sox won the first battle almost before it started and without the aid of a hit. Hahn was passed in the first and sacrificed to second by the manager. Niles fumbled an easy one from Donohue, letting Hahn to third, and he scored the only run needed when Davis forced Donohue at second. Dougherty followed with a single, but was forced by Rohe.

Tannehill saved White in the Browns' half. Niles was on second with one out when Stone cracked a hot one straight at Lee's feet. He stabbed it and came up with the ball, retiring Niles at third. Pickering forced Stone.

Tight Hole in Second.

The second inning was the tightest hole White was in. Wallace opened it with a single, and reached second when Davis muffed White's throw on Yeager's bunt. Stevens sacrificed, putting Browns on third and second, with one dead. White deliberately passed Tom Jones, filling the bases, then struck out Pelty and disposed of Niles with a pop fly. Some brains! Twice more during the battle the Browns got a man as far as second base. The first time it was on a wild throw by Rohe, trying to complete a double play. But there were two out, and nothing resulted. The other man to reach second was Wallace, on a two base hit in the sixth, after one was out. Yeager followed with a fly to Hahn, on which Wallace tried to reach third. He left second too soon, and was doubled up for it.

The Sox did not get a hit off Pelty from the first to the seventh, but Dougherty led in the latter inning by beating out a bounder over Barney's head. Rohe sacrificed him to second. Tannehill skied to Hemphill, but Hart was on deck with a clean drive to right, scoring Pat. Score:

Story of Second Game.

Howell was frightfully wild in the first inning of the second game. With Hahn out he passed Fielder Jones, Donohue, and Davis, filling the bases. Dougherty forced Davis, scoring the manager, and stole second. Rohe was there with a single straight into center, driving home Davis and Dougherty. Tannehill grounded.

The Browns came back at Smith hard. Niles led with a double and reached third on Hemphill's grounder. Stone scored him with a single and stole second, but perished there.

In the third the Browns forged to the front. Niles was out when Hemphill banged a double over Dougherty's head. Stone walked and Pickering scratched a low hit to center, scoring Hemphill. Stone and Pickering moved up on the throw home. Wallace singled cleanly to center, putting two more Browns over the pan. Spencer forced Wallace after Yeager had flied out.

St. Louis clung tenaciously to its lead until the fifth, when the Sox put Howell to the bad. Donohue led off with a single to center. Davis cracked a double past first against the fence. Donohue was nailed at the plate trying to score on Dougherty's hit to Tom Jones, Davis moving to third. Dougherty sneaked to second while Howell held the ball and drew a hurried throw, which was wild, letting Davis score. Rohe stung one too hot for Yeager to handle, and Tannehill scored what proved the winning run with a single to left. Armbruster was passed, filling the bases, and Howell was pulled off the mound. Bailey, who succeeded him, arrived from the Austin club of the Texas league only yesterday, and showed his mettle by striking out Smith in a pinch. Hahn was next, and Evans miscalled the fourth "ball," striking Hahn out on a curve which was so wide Spencer had to jump to one side of the plate to reach it. Thus encouraged, Bailey held the Sox safe the rest of the way, allowing only two hits.

Hold Lead to the End.

Smith got busy then and held the narrow lead successfully. He passed the first man in the sixth and a sacrifice put him on second, but Smith staved off the run by striking out Niles and Hemphill. In the seventh Smith gave two bases on balls, putting Browns on second and first, with one out, but a foul to Armbruster and a fly to Jones prevented runs.

Smith started the last round by striking out Hemphill and Stone, star batters of the enemy. Pickering scratched a hit, but Wallace ended the struggle with a fly to Dougherty. Score:

NOTES OF THE WHITE SOX GAMES.

That will help some.

Dougherty made three singles in the first game and stole three bases in the second game.

The Sox have two more games to play here, tomorrow and Friday. Walsh will pitch tomorrow's game unless he shows up with some ailment as a result of his stunts in Cincinnati.

Manager Jones received a letter from Isbell today, and the veteran says his hand is coming around more slowly than he thought. He expects to be ready to report in another ten days, however.

Hahn fouled a ball which hit him on the tip of the jaw in the second game and made him bite a hole in his tongue. But after spitting out blood for a minute Eddie stuck to the job. To a man whom a broken nose cannot stop, a little thing like that was a mere nothing.

This was Tannehill's first game here since the one in which Niles injured him last April, putting him in the hospital for months. When Lee got a nasty crack from a pitched ball in the first game he wondered if this was still a hoodoo town, but it did not prove serious.

Rohe robbed Stone of a hit by a rattling stop of a grounder close to second base in the fifth inning of the first game. Three innings later Davis perpetrated his frequent feat of stabbing a hit with his bare hand and retiring his man. Pickering was the man whom he robbed.

In the seventh of the second game Umpire Evans became twisted and made an odd but correct decision. Dougherty was on first with one out. Tannehill hit to Wallace, forcing Pat, but Niles made a throw for a double play on which Tannehill reached second. Evans mistook Tannehill for Dougherty and waved him off the base, because he was out. Tannehill thought the motion meant for him to go to third on ground rules, so started for that base. The ball was thrown to Yeager, who touched Lee half way to the base. Then Evans sent him back to second. The Browns yelled for the out, which belonged to them technically, but as Tannehill never would have left second but for Evans' motions, the only just thing was to let him return safely.

FORFEITS FOR WANT OF BALLS.

South Bend in a Novel Situation After Winning One Game from Evansville.

South Bend, Ind., Sept. 11.—[Special.]—In the first game today Williams outpitched Pearson in twelve innings and South Bend won by 3 to 2. The second game was forfeited to Evansville because the home team did not have any official balls to play with. The clubhouse was broken into last night and all the balls, bats, clothing, and portions of the players' uniforms were stolen. Score:

CUBS IN A DRAW WITH CARDINALS.

Farewell Appearance of Visitors Results in Fourteen Inning Struggle.

SCORE OF GAME IS 4 TO 4.

Famous Cop Pitcher Intimidates Champs, While Fraser Twirls Fine Ball.

BY CHARLES DRYDEN.

Two splashes of rain for one price of admission instead of the double header, and a fourteen inning draw, made the farewell appearance of the Cardinals an event long to be remembered in our midst. The score was 4 to 4 and growing tighter as the hours passed.

The foe lumped four hits off Reulbach in the sixth and tied the count. From that time on the struggle was fierce and daring beyond the wildest expectations. Mr. Fraser rescued Mr. Reulbach and there was nothing transpiring. Stoney McGlynn, the celebrated cop pitcher, flashed his star on the Cubs and they were good to him after the fourth round.

Twice the weary athletes rested their hands and feet while it rained some. During these spasms the populace huddled in damp bunches and watched the hired men haul sloppy tarpaulins over the home plate and slab. In the fourteenth round Mr. Emslie and Mr. Klem were seen with their heads together, and everybody said they were about to take decisive steps to end the combat. So it proved, for when the last Cub had expired in the final ultimo Mr. Emslie pronounced the benediction, presumably on account of darkness.

Umps Mocked by Old Sol.

It was dark at the time and growing darker. Then to mock the unfortunate umps the sun butted in and shone with all his effulgent glory before the athletes could disperse from the yard, and they were going at a high rate of speed.

The way the afternoon panned out was a severe blow to Secretary Seekamp of the Cardinals. There was nothing to reimburse him for the wrecked straw hat. He was to receive the receipts of the second game, but there was no second game, not even a first one. Mr. Seekamp will have to wait until next season for his $6, or arrange to hold it out when the Cubs go to St. Louis next month. However, the bugs saw considerable baseball and much excellent pitching by Fraser and McGlynn.

Until Reulbach blew in the sixth the Cubs were in a fair way to win by a large majority. We had the enemy 4 to 1, and the large German was moving along at an ideal clip. But with one tally across in the sixth and two Redlegs on the paths, Doc Marshall prescribed a two bagger for himself that made Mr. Reulbach quite ill. The long knock tied up the score, and the champions could not get started again.

Near Upset by Mr. Evers.

Evers came near breaking it up in the eleventh. With the P. L. at third and two out, the well known shoe merchant poled a liner past first. Mr. Konetchy, the Greek, stuck out his hook, knocked the ball down, picked it out of the mud, and beat John to the sack. Then it rained again for a change.

They lost twenty-five minutes waiting for the two showers to subside. The first splash came on in the ninth. There were two out, Evers on second, and Pat Moran, the accurate long distance hitter, at bat. Pat had combed one triple and a single, and his pals looked for him to end the combat right there. But the accurate swatter popped a fly to short. Mr. Klem was dodging the raindrops and Mr. Holly was dodging Mr. Klem in an effort to crouch under the ball. The shortstop and the ump just missed each other, and all hands rested ten minutes. On the second dash to cover in the eleventh Mr. Emslie was seen to limp. The ump was a victim of Cap Chance's terrific hitting. The peerless leader got four, but two of them do not appear in the score. While ripping off a single in the fourth the captain's bat slipped and cracked Doc Marshall on the neck. Time was called while the P. L. returned from first base to look at the lump.

P. L. Again Obliges.

Again in the eleventh the leader obliged with a safe drive, and again the bat flopped around, denting Mr. Emslie's kneecap. Once more the flag of truce was hoisted while Doc Marshall massaged the bump on Bob's leg. Owing to this injury Mr. Emslie got wetter than Mr. Klem when they hiked for shelter at the end of the round.

A pass to Evers started the run business in the third. He counted on Moran's triple. Reulbach struck out. Slagle's fly to left scored Moran. Bennett's fumble saved Sheckard and Schulte skied. Two Cardinals were down in the fourth when Tinker gargled Holly's grounder. Murray's single sent Holly to third, and a scratch hit by Bennett scored him. Marshall forced Bennett.

Chance combed a safety in the fourth and was advanced by Steinfeldt. Tinker walked and stole. The fly out of Evers put Chance on third. Moran's single counted Chance and Tinker. Burnett beat a bunt in the sixth, and Holly hit safely. Murray sacrificed. Bennett's hot smash to short scored Burnett, and Marshall soaked a double, sending in Holly and Bennett. Chance retired McGlynn unaided. Byrne grounded to Steinfeldt.

Game Is Nip and Tuck.

Fraser pitched grand ball in the eighth rounds of nip and tuck going. He allowed but one hit, a bunt Burnett raced out in the seventh, and he fanned five. Charles Cooper winged a couple of batsmen just to remind them he was pitching. Holly got on from one of these thumps in the tenth, but the rest were easy. Evers led the seventh with a clean triple to right and then the Cubs couldn't bring him in. Moran went out on a short fly to center, Fraser whiffed, and Slagle grounded to Bennett.

One dead in the eleventh Chance and Steinfeldt made hits. Tinker skied to center and Konetchy's stop of Evers' drive saved McGlynn. Barry made a two base muff on Schulte in the thirteenth, but there was one gone and the next two flied out. Evers got his third hit after one out in the fourteenth. Marshall nipped him stealing and Moran hoisted a fly to Burnett. Score:

NOTES OF THE CUBS.

Cincinnati begins a farewell series with the Cubs today.

Fraser has been doing excellent work with his lately acquired spitball.

National league players would back Bob Emslie in an endurance gum chewing contest.

Mordecai Brown is having his pitching arm cupped by Dr. Harley Parker. Beyond a slight weakness in the shoulder the arm is in good condition.

McCloskey has signed a dozen new men this week, but he could not remember their names.

Holly's out to Slagle in the twelfth inning was the first fly ball the Cardinals sent to the outfield.

The Reds play a series of four games here and open a return session with the Cubs at Cincinnati next Tuesday.

Mr. Bennett, who doubles in the mandolin and second base, filled in the gap for Hostetter, long distance thrower.

McGlynn gave but two passes, one to Moran in the third and the other to Tinker in the fourth, and both made the circuit.

Reulbach was rescued by Fraser in the last game at Pittsburg, but this time, like the pardon in the song, Charles Cooper came too late.

A plunger in the press gallery cleaned up 20 cents when Barry dropped Schulte's fly in the thirteenth. Schulte's failure to score netted the plunger another 20 cents.

COMES CLOSE TO RECORD.

Mitchell of the Reds Takes Fungo Event and Thoney the Run to First.

Cincinnati, O., Sept. 11.—[Special.]—Several thousand baseball enthusiasts watched the first baseball field day ever held under the auspices of the national baseball commission today, and from the great success it attained it looked as if it would be an annual event.

Five events were down for decision, and in these the National and Eastern leagues furnished two winners, while the Central league furnished the other. Not one of the American league players managed to land a victory, but its representation necessarily was limited, several prospective contestants being unable to get away from their teams.

Chicago Boy Wins.

Mike Mitchell, the Cincinnati outfielder, won the fungo hitting contest, while Sheldon Lejeune, the Chicago boy now with the Springfield team of the Central league, took the long distance throwing event. Thoney of Toronto won the race to first on a bunt, Clements of Jersey City the race around the bases, and Gibson of Pittsburg the accurate throwing to second contest.

The field for the fungo hitting was laid out gridiron fashion, with the lines marked in two directions so as to permit of batting across the wind rather than with or against it.

Interest in the long distance throw was probably the greatest from the fact the contestants had the mark of 400 feet 7½ inches, made by John Hatfield in 1872, to shoot at. Lejeune had beaten this in practice and it was hoped he would set a new official record. His throw of 399 feet 10¾ inches fell nine inches short, but the contestants had to contend with a stiff breeze which deflected the ball considerably.

Gibson Hits Target.

In the catchers' contest the catcher was required to throw at target about the size of second base and about fifteen inches from the ground. Gibson of Pittsburg on his second trial hit the target about four inches from the center, and was the only man who succeeded in hitting it, though McLean of Cincinnati just grazed the edge.

The last contest went to an outsider in the betting, Walter O. Clements of Jersey City, an outfielder, getting the medal for circling the bases in the fastest time. Clements went around in :14⅕. Leach did it in the same time, but was disqualified for not touching two of the bags. Lobert and Thoney each made it in :14⅗. Clements, who established the first authentic record for the round, is 26 years old and is playing his fifth professional season. Each winning contestant's expenses were paid to Cincinnati, and each winner was given a hundred dollars in gold and a gold medal.

Summary.

Long distance fungo hitting—M. F. Mitchell, outfielder, Cincinnati, 413 feet 8½ inches; H. M. McIntyre, pitcher, Brooklyn, 411 feet 1 inch; Edward Walsh, pitcher, Chicago Americans, 396 feet 10½ inches; Orval Overall, pitcher Chicago Nationals, 380 feet 3¾ inches; Bernie McCay, infielder Mobile, Cotton States, 366 feet 7 inches; A. P. Leifield, pitcher Pittsburg, 322 feet 11½ inches.

Long distance throwing—Sheldon A. Lejeune, outfielder, Springfield, O., 399 feet 10¾ inches; Arthur Hostetter, St. Louis, 385 feet 8 inches; J. B. Stanley, outfielder, Louisville American association, 372 feet 11 3-8 inches; M. F. Mitchell, Cincinnati, 372 feet 11¼ inches; Bernie McCay, Mobile, 343 feet 11½ inches; Hans Wagner, Pittsburg, 341 feet 4½ inches.

Circling the bases—Won by Wallace O. Clement, outfielder, Jersey City, 14 1-5 seconds; J. B. Lobert, infielder, Cincinnati, and John Thoney, Toronto, 14 2-5 seconds; W. A. Roller Polo Notes.

The Sans Souci roller polo team defeated the inspectors' team at the Sans Souci park last evening by 3 goals to 1.

The Coliseum roller rink has matched Neil McKenzie and Stewart Garner. McKenzie won the one mile amateur state championship last winter after a spectacular race in which Garner fell twice. Garner claimed a foul, but the referee refused the plea, giving the race to McKenzie. The two, however, will meet again next week and the followers of the sport are expecting a hard tussle.

WATER GAMES IN A NEW TANK

Seven Events on Card of I. A. C. at First "Ladies' Night."

YOUNGSTER PLEASES CROWD.

H. J. Hebner Swims Like a Veteran and Wins the 40 Yard Dash.

The Illinois Athletic club water polo team made its initial appearance last night at the first "ladies' night" held in the new club's pool, and strangled the Central Y. M. C. A. team of "drowners" by a score of 9 to 1. More than 500 club members and guests filled the large tankroom.

Seven events were on the card, including a diving and swimming exhibition by Miss Annette Kellerman. The match relay race, in which H. J. Handy of the Illinois Athletic club covered 440 yards against W. L. Klewer and C. L. Healy of the Central Y. M. C. A., who each swam 220, was the feature of the evening. Handy won the race with ease in 6:31⅗.

H. J. Hebner made a hit with the crowd in the forty yard dash. He used a perfect crawl stroke, and, although only 16, swam like a veteran. J. J. Mehlem put up a game fight, getting second place from Merriam by a yard.

Jaeger was the star in the polo game, scoring four goals in the first half, and one in the second. The I. A. C. men did the better team work, and had the La Salle street boys at their mercy throughout the game. Solomon of the Christian team slipped through Jensen for a goal in the first half, the only one scored by the blue and white team. Summaries:

40 yard swim—Won by H. J. Hebner; J. J. Mehlem Jr., second; W. S. Merriam, third. Time, :22 2-5.

440 yards match relay—Won by H. J. Handy; W. L. Klewer and C. L. Healy, Central Y. M. C. A., second. Time, 6:31 3-5.

40 yards blindfold race—Won by Cap. Coen; C. Weber, second; R. E. Frizelle, third. Time, :35.

Fancy diving—Won by E. P. Swatek, 35 points; A. Jaeger, 28 points, second; S. Jensen, 27 points, third.

Relay race, 160 yards—Won by Capt. Merriam's team (Merriam, Coen, Jaeger, Edwards). Time, 1:38 2-5.

MANHASSET WINS YACHT RACE.

Captures First Contest in International Regatta at Norfolk, Va.—Sail for Roosevelt and King Edward Cups.

Norfolk, Va., Sept. 11.—With ideal weather conditions, a smooth sea, and a ten mile breeze blowing, the first two races of the International Yachting regatta were pulled off today, one in the series for the Roosevelt cup, class P, and one in class Q for the King Edward cup, over a thirty mile course. Six small boats were entered in the King's cup race and Manhasset of the Manhasset Yacht club, New York, Clarence Robbins, owner, finished first in 2:10:15, leading Dorothy by four minutes.

There were only two entries in the race for the Roosevelt cup, Sue, owned by E. F. Luckenbach, and the Regina, owned by F. G. Stewart. Sue won the race handily, walking away from her competitor on the return course in 2:34. Dorothy was in the lead in the class Q race, when one of the spreaders of Dorothy's mast gave way, causing the shroud to slacken. Manhasset then took the lead and never was overhauled.

TWO RING BOUTS SET FOR TONIGHT.

Attel and Walsh at Indianapolis, Johnson and Burke at Bridgeport.

FISTIC GOSSIP BY SILER.

Possibility of a Meeting Between Packey McFarland and Abe Attel.

BY GEORGE SILER.

Abe Attel, the featherweight champion, will, it is presumed, pick up a little easy money at Indianapolis tonight, where he is slated to box ten rounds with Jimmy Walsh of Boston.

Jimmy is the best boy of his weight east of New York, and when, about a year or so ago, he lost a fifteen round point decision to Abe, his admirers harped on the fact that Jimmy could trim the little Jew in a longer contest, so early this year they shipped Jimmy to Los Angeles to take Abe's measure in a battle over the longer route, but Attel made him look like a novice. The bout tonight will be pretty to look at, as it will be chock full of clever boxing and clean hitting.

Attel was Benny Yanger's chief second in the latter's recent fight with Packey McFarland at Fort Wayne, and after the mill Attel stated he did not consider Packey a world beater, and signified his willingness to take a whirl out of him at the lightweight limit. After Joe Gans' defeat of Jimmy Britt at San Francisco last Monday afternoon Abe talked some of taking on the colored champion. Gans, however, has other fish to fry, but Packey, just to keep his hand in, says he will fight Abe at 133 pounds, weigh in at 3 o'clock, and the quicker the match is made the better it will suit him. Attel has a tilt on with Tommy Sullivan, after which he can, if he chooses, clinch a match with Packey.

The much feared colored heavyweight, Jack Johnson, and "Sailor" Burke, a light heavyweight, will clash at Bridgeport, Conn., tonight. This looks like a jug handle affair, with the handle pointing towards Johnson. The latter has been trying to secure a match with Tommy Burns and other well known heavyweights, but he claims they do not care for his game. In this he errs, as both Burns and Mike Schreck had agreed to meet him, but none of the far western clubs could be induced to hang up a purse for the fight. Johnson's last fight on the coast was with Marvin Hart over two years ago, but it was not a financial success. Hart was awarded the decision, since which Jack has been considered a dead one in Frisco.

There is no dodging the fact Johnson is a good fighter. He is as clever as they make them, and recently has cultivated a punch that should bring home the money when he lands it. Burke was knocked out by Hugo Kelly in five rounds a year ago, and unless he has improved or the bout is not arranged to give the spectators a run for their money, Johnson should trim him in a hurry.

Shrubb to Train Longboat.

Toronto, Sept. 11.—[Special.]—Alfred Shrubb, the British long distance champion, has been appointed trainer to the Irish-Canadian Athletic club here and will pay particular attention to developing Longboat, the Indian distance runner.

CLOTHING, FURNISHINGS, AND HATS

OUR FALL STYLES FOR MEN

FOR forty years BROWNING, KING & COMPANY have been making Clothing for Men and Boys—each year improving on every other year's product.

Nothing so wholly satisfactory as this season's garments has ever been offered before to the public—a public whose judgment in good clothes has developed with the great advances in the art of tailoring.

As to the autumn styles, there are these points to be noted: our Sack Coats are not cut so low in front. The extremes of the Summer styles were as open as the evening dress waistcoat.

And the skirt of the Sack Coat is distinctly shorter and with no vent.

This is new and a proof of newness.

When you buy a new suit, see that it looks it.

Our Fall and Winter Suits and Overcoats for Men, Boys and Children are now ready for inspection.

Blue Book Delights Long Shot Players. Two Ring Contests Tonight.

BIG SURPRISE IN FEATURE EVENT

Blue Book Wins the September Stakes at Sheepshead Bay Race Course.

FIVE FAVORITES TUMBLE.

Players of First Picks Have Bad Day, Each Being Supported Heavily.

New York, Sept. 11.—[Special.]—Five heavily backed favorites were defeated in the mud and rain at Sheepshead Bay this afternoon. The biggest surprise occurred in the running of the September stakes, when Blue Book ran a wonderful race, and, under a superb ride from Lowe, beat James B. Brady's Fountainblue by a half length. Blue Book picked up 122 pounds, receiving four from Montgomery and conceding sixteen pounds to each of the others. Woodford Clay's Kentucky Beau was a hot favorite.

At the start Miller went to the front with Kentucky Beau, which was under a choking pull as he entered the backstretch, with Fountainblue second, Blue Book third, and the others trailing. Then Lowe sent Blue Book on the rail, overhauling Fountainblue and then going after Kentucky Beau, which was headed near the far turn. Miller then began to ride the favorite, but Blue Book practically ran him off his feet in a fierce duel to the head of the stretch. There it was that Notter got busy with Fountainblue, which rushed up to Blue Book like a whirlwind. Lowe went to the whip at that point and Blue Book, full of pluck and speed, stood off the challenge and stuck it out to the end, where his victory was hailed with joy by the long shot players. Montgomery was five lengths back.

Bad Start Settles Falcada.

A bad start spoiled the chances of R. T. Wilson Jr.'s Falcada in the Waldorf stakes. The Oneck stable's Ben Fleet was off flying while Falcada practically was left. It was not until the far turn was reached that Dugan got busy with Falcada, which ran clear around his field only to be vanquished by Ben Fleet to the extent of two lengths. Falcada had a length over He Knows. Nimbus and Spooner were anchored in the going.

The Newcastle's Explosion won the Belles stakes in a breezing gallop. She had five lengths advantage at the wire, with August Belmont's Fond Heart taking the place from H. B. Duryea's Whip Top by half a length. Desirous was beaten badly, while Gowan could not untrack herself.

J. E. Widener's Caller made a show of his company in the steeplechase, which he won in a gallop by ten lengths. J. W. Colt's Gus Straus ran into the place, with Guardian third. F. Ambrose Clark's Maximilian received a bad ride.

Rye took the handicap for all ages on the grass. Miller put him under a hard drive in the stretch, and he nailed Acrobat in the last few strides, beating the latter half a length. Phil Finch was a poor third. Lord Lovat could not raise a gallop.

Lady Anne in the last race, all ages, was beaten off. Voorhees rolled home two lengths in front of Chief Hayes. Bounding Elk, which ran third, set the pace for nearly half a mile.

Sheepshead Bay Entries.

First race, steeplechase, selling, about 2 miles—Caller, 148 pounds [Donohue], 15 to 20, won; Gus Straus, 156 [Mosfee], 10 to 1, second; Guardian, 143 [Kelleher], 7 to 1, third. Time—4:07. Maximilian, Knighe of Elway, Gold Fleur, and Oliver Cromwell ran.

BY HEK.

THE OPINION OF THE COPYRIGHTED EXPERT.

If you wish to enjoy what is really humorous in pugilism wait until after the battle before reading the first person singular dissertations of our noted experts.

"Personally," says one, "I admire the noted colored gladiator, Joe Gans, but I do not think he has the stamina to withstand the vicious onslaughts of James Edward Britt. I have been pestered to death with letters and telegrams asking me what I thought about it. To all of these I reply that if the fight lasts fifteen rounds it will last more than fourteen. There is a chance for Britt to win within the limit, provided he can get in that wallop. Then again he holds it over Gans in foot work. I have watched both men in their training and my idea is that if Gans wins he will get the decision. But then you can't always tell. Britt may have something up his sleeve. If he mixes it with Gans then it is all off for either one or the other.

"On the other hand, if he stays away and tries to fight clever there is no knowing what Gans may do. I don't take any stock in the story that Britt has gone stale; still I must pay attention to the story that he is not quite fit. To my notion Gans is going back; still, he looks strong and rugged, notwithstanding that his lower jaw has an ashen hue and the pain over his heart has shifted to his left eyebrow. This is not calculated to hurt him, but still I have my doubts—mind you—I have my doubts. While conversing with Britt yesterday he expressed the greatest confidence. He looked the champion all over. He is as hard as nails and as fit as a fiddle.

"In a few hours we shall know."

[Note to copy reader: See that my picture goes single column on the left hand side and that my name appears in eight point black type.]

The films of the Gans-Britt fight will be here shortly and then with the assistance of a powerful pair of glasses we shall see whether Britt was fractured in the heart or in the ulna.

The ulna, by the way, eventually may become as famous as the solar plexus.

A running horse called The Bear went twice around the Topeka half mile Jericho in 1:41½, setting all Kansas agog. The previous record for Kansas was 1:41 4-5, but that was because the timing judge's watch split on fifths instead of quarters. We wired to Topeka offering to match Salvator against The Bear at one mile and repeat, Danny Maher to ride Salvator, and the Agricultural association is considering it.

MURPHY BESTS DICK HYLAND.

New Yorker Credited with Having the Advantage in a Six Round Bout at Philadelphia.

Philadelphia, Pa., Sept. 11.—Tommy Murphy of New York had the advantage over "Dick" Hyland of California in a six round bout before the National Athletic club tonight. In only one round, the second, did Hyland have an advantage over the New York boy. The fight was fast from beginning to end, but Murphy's blows were cleaner. Hyland resorted to infighting, but he found his match in the sturdy New Yorker and repeatedly was forced to break ground.

Johner of New York Scores a Victory in Carlsbad Tourney Over Vidmar.

[BY CABLE TO THE CHICAGO TRIBUNE.]

CARLSBAD, Sept. 11.—The most important of the results recorded in today's session of the international chess masters' tournament, when adjourned games were disposed of, was the victory of Johner of New York over Vidmar. The latter still is in third place, but the setback has materially lessened his chances for first place. It was, moreover, the first win Johner had been able to place to his credit.

Marshall, the other American, lost his game to Tschigorin, and he now has only an even score. Other results today were: Berger, 0; Cholmiwski, 1; Leonhardt, 1; Niemzowitsch, 0; Janowski, 1; Teichmann, 0.

Eustace Loder's Baltinglass was second, the duke of Devonshire's Acclaim third. The betting was 11 to 10 on Woolwinder, 100 to 8 against Baltinglass, 8 to 1 against Acclaim. Twelve horses ran. It was the one hundred and thirty-second anniversary of the classic.

BRITON GIVES YALE $400,000.

Bequest Made by Archibald Henry Blount, Who Died in London on June 17.

New Haven, Conn., Sept. 11.—Yale authorities received word today that the late Archibald Henry Blount, lord of the manor of Orleton, Herefordshire, England, bequeathed $400,000 to Yale. Mr. Blount died in London June 17. As far back as 1898 Mr. Blount corresponded with the Yale authorities regarding a legacy to the university. In 1899 a copy of his will was submitted to the treasurer of the university, and received his approval. Last year Mr. Blount wrote that he was considering making the gift to Yale during his life time, instead of by bequest. The will is dated June 4, 1907.

BY J. G. DAVIS.

Three maids and one matron survived the first round of match play in the first flight of the women's open tournament at the Skokie Country club yesterday.

The surprise of the round was the victory of Mrs. L. N. Brochon of La Grange over Mrs. W. A. Alexander of Exmoor in a contest that reached the twentieth hole. Miss Elizabeth Young of Calumet won a close match from Mrs. Edmund T. Perkins, the California champion, on the home green.

The two young stars of the tournament, Miss Marion Warren and Miss Myra Helmer, both had easy victories, and their match this morning is expected to be the best attraction of the tournament. Miss Warren, who is in better practice than when she played in the western championship, defeated Mrs. Whitcomb, who scored 95 in the qualifying round by high class golf, going out in 44 to her opponent's 47 and being 3 up at the turn.

Course in Good Condition.

The course was in good condition after the rain of the previous day, although a trifle soft in spots. Summary:

FIRST FLIGHT.

Miss Marion Warren, Edgewater, defeated Mrs. E. R. Whitcomb, Fond du Lac, 6 and 5.
Miss Myra Helmer, Midlothian, defeated Mrs. H. L. Pound, Skokie, 5 and 3.
Miss Elizabeth Young, Calumet, defeated Mrs. E. T. Perkins, Los Angeles, 1 up.
Mrs. L. N. Brochon, La Grange, defeated Mrs. W. A. Alexander, Exmoor, 1 up, 20 holes.

SECOND FLIGHT.

Miss E. W. Towner, Exmoor, defeated Mrs. C. F. Braffette, La Grange, 5 and 4.
Miss Florence Wikoff, Calumet, defeated Miss Kathleen Brown, Atlanta, Ga., 5 and 3.
Mrs. Percival Manchester, Skokie, defeated Miss Margaret Knapp, Skokie, 4 and 3.
Mrs. H. H. Sweetland, Exmoor, defeated Mrs. E. C. Belknap, Evanston, 3 and 2.

THIRD FLIGHT.

Mrs. J. A. Moore, Evanston, defeated Miss V. Congdon, Glen View, 1 up.
Miss Scott, Skokie, defeated Mrs. J. L. Pfaff, Calumet, 1 up.
Mrs. L. Holloway, Skokie, defeated Miss Bonney, Skokie, 2 and 1.
Mrs. C. W. Buckley, Exmoor, defeated Miss Wells, Evanston, 1 up.

Miss Margaret Knapp of Skokie won the approaching and putting contest with a score of 9. Miss E. Young, Mrs. E. R. Whitcomb, and Miss Kathleen Brown tied for second place at 10. A driving contest is called for this afternoon.

Miss Ioor Makes Record.

Miss Rosalie Ioor accomplished another clever performance at Ridge yesterday, lowering the women's record for the course to 44, these figures being three above the men's bogey figures. She was playing with Miss A. Hooker. The card with bogey figures is as follows:

Miss Ioor	4	4	5	7	6	4	5	4	6—44
Bogey	4	5	5	5	5	3	5	5	4—41

The first round for the club championship was also played. The summary:

Miss Hazel Coes defeated Miss A. Hooker, 1 up.
Miss Ruth Crossman defeated Miss Florence Ladd, 3 and 2.
Mrs. W. Davidson defeated Miss Florence White, 2 and 1.
Miss Rosalie Ioor defeated Miss Avis Ioor, 4 and 3.

In the putting contest the first flight was captured by Miss Rosalie Ioor and the second flight by Miss Maud German.

Play at Riverside.

Mrs. C. B. Devol led in the qualifying round for the Mrs. Pierce trophy at Riverside yesterday. Miss Grace Smith won the playoff of the tie for best net score in August, defeating Mrs. Willard and Miss Myrtle Smith. Miss E. Seckel took the low gross prize. Summary of qualifying round:

Mrs. C. B. Devol, 115—4—111; Miss Josephine Sherman, 125—4—121; Miss Grace Smith, 129—6—123; Mrs. Willard, 148—20—128; Miss Bessie Sherman, 148—18—130; Mrs. Seymour Guthrie, 153—19—134; Miss Myrtle Smith, 144—6—138; Mrs. Hilton, 162—22—140.

Notes of the Golfers.

A choice score event for women is scheduled this afternoon at Edgewater.

The invitation tourney of the Golf and Country club of Des Moines starts today.

Secretary Bland Ballard reports a big entry list for the invitation golf tournament and powwow which starts tomorrow at Onwentsia.

Speedway Races Today.

The South Side Speedway club will give its regular matinee today at the Washington park speedway. The races will commence at 3 o'clock.

ENDS LIFE ON EVE OF WEDDING.

Indiana Salesman a Suicide While Bride-Elect Is Making Preparations for Marriage.

Bloomfield, Ind., Sept. 11.—[Special.]—Preparations for the wedding of Homer C. Casey of Ragelsville, Ind., a traveling salesman for M. Born & Co. of Chicago, to Miss Anna Stone of Bloomfield were stopped this morning by the news of his suicide on a country road a short time after he had bid good-by to his fiancée and left for his own home to spend the night.

Casey and Miss Stone were to have been married tonight, and Casey returned yesterday from Indianapolis with a wedding ring, which he gave into the safekeeping of his fiancée, and a wedding suit, which he left at the Stone home. After spending the evening with Miss Stone he left about midnight for a fifteen mile drive to his home in Ragelsville.

The body was found sitting upright in the buggy in front of Casey's house, where the horse had stopped. There was a bullet hole through the man's left temple, and a trail of blood led back a mile in the road.

FIRE ON BATTLESHIP INDIANA

Blaze in Coal Bunkers Due to Spontaneous Combustion.

BIG CRAFT NOT IN DANGER.

As Precaution Some of Ammunition Is Removed.

Philadelphia, Pa., Sept. 11.—The report to the navy department today that the battleship Indiana, undergoing repairs at the League Island navy yard, had narrowly escaped destruction by fire last Thursday caused surprise. The captain of the Indiana, through a representative, said he "knew nothing about it," but it was learned from other sources that the fire did not amount to much.

The fire was started, it is understood, by spontaneous combustion. The Indiana is lying "in ordinary" at one of the docks with plenty of fire protection about. The fire was never beyond control and as a precaution some of the ammunition was removed to a place of safety.

According to one report, the two magazines and the shellrooms became dangerously heated and were flooded to a depth of twenty inches. Lieut. Commander J. L. Sticht directed the fire party, consisting of Gunner L. C. Hull and nine men, who entered the magazines and removed the ammunition.

LEADER FORSAKES DEMOCRACY.

Joseph B. Gill, Lieutenant Governor Under Altgeld, Makes Newspaper Republican Organ.

Murphysboro, Ill., Sept. 11.—[Special.]—Former Lieut. Gov. Joseph B. Gill has announced that he has forsaken the democratic party and that hereafter his newspaper, the Murphysboro Daily Independent, will advocate republican principles, after thirty-five years as a democratic organ.

CHICAGOANS AID IN G. A. R. CONTEST

Will Seek Recognition for "Patriotic Ancient and Honorables."

SEE HOPE OF VICTORY.

Want Principles of Veterans Perpetuated When All Members Shall Have Died.

Saratoga, N. Y., Sept. 11.—[Special.]—Chicago veterans who are attending the forty-first annual encampment of the Grand Army of the Republic, in session here this week will make an effort tomorrow to obtain official recognition for the "Patriotic Ancient and Honorables" of Columbia post No. 706 of Chicago. If they obtain recognition this auxiliary to the grand army will become established in the United States in all posts. The auxiliary is composed of nonmembers of the G. A. R. who promise to keep alive the principles and work of the Grand Army when that organization shall have become no more.

Members of Columbia post said tonight that the resolution seems to have a better chance of being adopted at this encampment than at those in previous years, when it has been defeated.

The department of Illinois, including nearly all of the Chicago veterans who are here, marched in the parade today in the rain, being among the foremost of the boys in blue, who refused to turn back when the downpour came. Chicago members also attended the second annual reunion of the "Iron Brigade of the West," made up of the Ninety-sixth and One Hundred and Fifteenth Illinois, the Eighty-fourth Indiana, and the Fortieth Ohio infantry regiments. A. H. C. Royce of Terre Haute, Ind., was elected president.

Bishop Fallows of Chicago probably will be the next chaplain general of the Grand Army, to succeed Archbishop Ireland of St. Paul.

FIRE AGAIN VISITS WATTERSON.

Blaze from Unknown Origin Damages Courier-Journal Building at Louisville Second Time.

Louisville, Ky., Sept. 11.—Fire, late this afternoon, for a second time endangered the plants of the Courier-Journal and Times and threatened to destroy that portion of the Courier-Journal office building left intact after the disastrous fire of ten days ago. The loss was $25,000. The origin of the fire is unknown.

Tailor Made Suits of the Highest Grade

At $40, $45 and $50 Many of the features that are prominent factors in the tailor made fall suits are identified with the picture above from a late model of our own—imported woolens, novelty worsteds and exclusive patterns in mixed suitings will command the greatest amount of attention from careful dressers. The usual high grade and excellent quality of hand tailored work characterizes the lines at $40, $45 and $50.

At $45, Like the Illustration The fabric is an imported black worsted with a hair line stripe. This pattern is an advance one and appears only in clothes made by the highest class of custom tailors—it will be a popular model beyond question. Coat has three buttons and is made with a soft roll to the second button, although it can be worn with good effect in either way $45.00

Dr. Liebig, the famous German Chemist, says that beer is *"liquid bread."* By this he means that beer is a food—full of life-giving, health-sustaining qualities.

The value of beer as a food is becoming well known, and it is now used by many who have hitherto looked upon it as a beverage only.

Pabst Blue Ribbon

The Beer of Quality

is the most nourishing of all beers—because it contains every particle of the healthful, wholesome nutriment of the malt and all the tonic properties of the hops from which it is made.

The Pabst Eight-Day Malting Process *follows nature* by slowly transforming the substance of the barley into pure, nutritious food. The quality of the materials used and the Pabst method of brewing make Pabst Blue Ribbon not only a pure beer, but a healthful, tissue-building, muscle-building, life-giving, *"liquid bread."* Drink Pabst Blue Ribbon, and you put health and strength into your system.

When ordering beer, ask for Pabst Blue Ribbon.

LARGEST 2 CENT CIRCULATION IN THE WORLD.

THURSDAY, SEPTEMBER 12, 1907.

THE LADY SHOULD BE EXPLICIT.

Mrs. Besant, heavily reinforced by the soul of Mme. Blavatsky, is at hand and well equipped for the epoch making deliberations which are to begin in Chicago next Sunday. She paused in New York for a time sufficient to express a few important and interesting truths to the reporters assembled, and took occasion to say some complimentary things about Miss Corelli, Mr. Roosevelt, and others. She warmly upholds the presidential crusade against race suicide not merely because increasing population brings material prosperity to the country but because it gives a home to many souls "craving materialization." This is an aspect of the case that has not been presented hitherto, and should prove a convincing argument to those who have failed to take wandering and unmaterialized souls into account.

But it would appear that the New York reporters failed signally to take advantage of Mrs. Besant's declaration that she had a former human existence, but "would rather not tell who I was in the past." They should have insisted on complete plans and specifications. It is absurd to say that Mrs. Besant, with all the light of modern progress, should lag behind Pythagoras of twenty-five centuries ago. For Pythagoras said not only what Mrs. Besant has put forth but much more. He recalled vividly the leading events of the Trojan war, which antedated him 500 years, and remembered distinctly that on that glorious occasion he was no less a hero than the renowned Trojan, Euphorbus, who enjoyed the further distinction of perishing at the hands of King Menelaus. In proof of this contention, did not Pythagoras go into the temple where the shield of Euphorbus was hanging and identify it as his own? All doubts immediately vanished and all incredulity was at once swept away.

So Mrs. Besant owes it to us, through the medium of the reporters of Chicago, to be as frank and honest as Pythagoras, to tell us who she was in the shadowy past and to give us some notable tokens by which we may check up the narrative. If she was Queen Elizabeth she can identify Elizabeth's signature. At least that will be Pythagorean and up to ancient standards of convincing evidence. But it is hardly fair to herself, her interesting physical predecessor, or the public to indulge in vague and unsatisfactory hints of her former existence and to veil mighty truths with profound mystery. Surely we are not responsible for our previous conditions and our eccentric soul action; if we were, the soul of a Trojan never would have hopped into the body of a Greek. Therefore, it is clearly Mrs. Besant's duty to reveal her past identity as far as her memory serves and to give the world the benefit of her recollections. The Chicago reporters should insist on this conformably to their reputations for exactness and accuracy of detail.

A DISTRIBUTER OF WEALTH.

Down in Connecticut the state statistician has been doing some figuring and has come to the conclusion that the automobile is a goose which is laying golden eggs and should be encouraged rather than killed. The shrewd statistician calculates that automobile tourists have during the summer brought more than $2,000,000 into the state and left it there. Some of this was paid into the public treasury in the form of fines for fast going, but the most of it went into the pockets of the keepers of village inns, country grocers, wayside smiths, and other rural people. The average business done amounted to about $15,000 a day, and it went where $15,000 a day is a good deal of money.

Illinois is not situated as Connecticut is, in the midst of large and small cities abounding in millionaires. It has, on the other hand, a large and increasing number of automobile owners of moderate means who spend money more freely than the thrifty Yankees and are deterred from long trips not so much by the expense as by the fear that they cannot get decent treatment in return for their money. These automobilists would appreciate and pay for any such effort on the part of the people of Illinois as is made by the country people of Connecticut to welcome and to accommodate tourists. To reach the beautiful scenery of Illinois one must often be content to spend the night in wretched rooms, to eat poor food, badly cooked, and to carry all one's supplies from the city. A shower of gold is waiting to discharge itself upon the villages where automobilists are assured of welcome and comfort.

Vexatious local speed regulations have been abolished by the state law controlling automobiles. It is possible, however, under the same law for one town to acquire a reputation for welcoming automobiles and another town the opposite kind. A substantial difference will be made in the volume of the town's business by the reputation it holds among automobilists. It is a mistake to suppose that only the hotel keepers, blacksmiths, and others with whom the automobilists come in direct contact profit. The money, to a large extent, stays in town and goes into general circulation there, while every line of business in town profits by having a first class hotel and a well kept general store. It means a better market for the farmer as well as a wider range of choice when he spends his money. The automobile has come to stay, and the rural community that has wise men in it will welcome it instead of fighting the inevitable with double loss.

THE TELEPHONE AND THE COUNCIL.

It is hard to believe that the council will be so blind to its duty as to pass the telephone ordinance at the special meeting this afternoon. There are a number of minor concessions which some of the members of the committee on gas, oil, and electric light will properly demand of the telephone company. But the important matters for the consideration of the council are the compensation to the city for its franchise and the earnings which may be properly allowed the company.

THE TRIBUNE would prefer a fair, fixed percentage of the gross receipts for the city to the plan proposed. It would be easy to juggle the net earnings of the local company in the interests of its parent and to the disadvantage of the city. The percentage of gross earnings to the city should be based on an estimate of the probable earnings of the company on its investment.

Under the guarantees which the ordinance provides 7 per cent is enough for the telephone stockholders. The balance should go to the city of Chicago. Under the proposed ordinance the telephone company offers the city 3 per cent of its gross business. It is estimated that under the Chicago City railway ordinance the city will get considerably over 7 per cent of the gross receipts. In the face of these figures, and considering that the American Bell company is to get 4½ per cent of the gross receipts, the city council cannot decently pass the ordinance as it stands. It must materially increase the percentage of the gross allowed the city or materially decrease the dividends allowed the telephone stockholders.

The aldermen who vote for the ordinance in its present shape will have served the company and not their constituents. Doubtless their constituents will deal with them accordingly.

THE NEW CHARTER.

NO. 11.

A local paper advises its readers to vote against the charter because if it were adopted the voters might elect at one and the same time a corrupt city administration and a corrupt board of review. If the voters were to be as thoughtless as that, the city administration, eager to fill the treasury so that it might be looted by corrupt politicians, would call on the board of review to raise assessments. It, being corrupt, would gladly comply. Taxes would be doubled, trebled, or quadrupled, and the owners of real estate be taxed out of houses and homes.

These gloomy predictions of corruption and confiscation will have no terrors for those who know that they would be in greater danger if the charter were not adopted. If it were defeated, it would be in the power of the board of review, as it is now, to raise assessments and thus raise taxes. If there were to be a corrupt board and a corrupt city administration it would be as easy for them to conspire without the charter as with it and to squeeze more money out of the taxpayers in one case than in the other.

He who tells property owners that by defeating the charter they will insure themselves against excessive taxation deceives them. The only effective guarantee is honest officials, and if the people are reasonably honest and intelligent they will have such officials.

It is alleged that if the charter were adopted assessments would be magnified so as to enable corrupt officials to swell the public debt for the benefit of grafting contractors. Why not complete the story by giving the information that if the charter were defeated the board of review could by putting up the assessments add to the bond issuing power of the city, the parks, and the county?

The city has reached its debt limit. If it had today a corrupt administration and there were a corrupt board of review, the latter could easily put it in the power of the former to issue new bonds for millions. The people would not have a word to say about their issue. The whole matter would be in the hands of the council.

The charter provides that no bonds shall be issued without a popular vote. A corrupt city administration and a corrupt board of review could not increase the bonded debt without the help of a corrupt electorate. The property owner who wishes protection against excessive municipal indebtedness ought to be for the new charter.

If the new charter should be rejected because corrupt officials might work mischief under it, the present charter ought to be got rid of forthwith, for corrupt officials can work greater mischief under it. No argument can be brought against the new charter under this head which does not apply with far greater force to the present one.

REGULATING TROLLEY LINES.

One of the projects to be discussed by the second annual convention of the Association of Mayors of Illinois at Bloomington is the regulation of trolley lines. A proposition is to be made that the legislature enact a law providing for the election by the people of a commission to be known as the electric railway commission, which shall have charge of the electric railroads of the state, fixing passenger, freight, and express charges.

The need of regulation is clearly apparent. The electric lines are developing at a rapid rate. They are spreading a network of wires and tracks all over the country. They are giving street car service to many of the smaller cities, and, passing out into the country, are joining them with larger places. They are making great changes in social and economic conditions. The advantages of the large city are brought within reach of the resident of the village or the owner of the farm. They are modifying methods of business and usual lines of travel.

The cars run at a rapid rate in many cases, crossing streams upon specially constructed bridges, using private rights of way where necessary, and having well ballasted roadbeds which make quick time possible and safe. In some instances through cars are run at express speed with no stops at all for forty miles or more, a special rate being demanded for this "limited" service. The pleasure of a ride of this kind through the country without the ordinary dirt and cinders of the railroad train is such that in many places local travel has largely adopted the trolley road as the most desirable.

The syndicating of roads has already reached surprising proportions, hundreds of miles of track being controlled by one set of capitalists or another, always reaching out for the addition to their interests of other valuable properties. There are plenty of problems connected with the trolley lines which need careful thought. The electric roads are no longer experimental. They have become a fixed part of modern life.

But there is no need for a separate commission to keep them under control in Illinois. The state railroad and warehouse commission is clothed with ample authority to undertake the important work of regulation. As a matter of fact, this body has already entered into correspondence with the officials of electric lines with a view to doing just what the mayors have in mind. If any further legislation is needed to make it perfectly plain that the commission has jurisdiction of electric lines as it has of steam roads, that might be favored. But there is no good reason for establishing another commission to do what may easily be handled by one now in existence.

TAKE NO BACKWARD STEP.

[From the Evening Journal.]

The Chicago Telephone company's ordinance is a backward step in Chicago affairs, and the council tonight should refuse to assume a position that would mark a recession of many years in franchise dealings.

The council of today cannot afford to group itself with past councils, in which franchises were sold by boodlers to bribers. We have long passed the times of Ogden Gas ordinances. The last council, under a democratic mayor, established the principle that compensation from public service corporations shall be 55 per cent of their net receipts. The street railway companies, in addition, were required to expend $40,000,000 at once in rehabilitating their systems.

Why should the council now, only a few months later, allow the telephone monopoly to obtain an enormously valuable franchise for only 3 per cent of its gross receipts, which, under the most favorable calculation, would produce only about $200,000 a year? The telephone company, too, be it observed, is not required to spend a cent on rehabilitation.

Even supposing the telephone business were to remain in its present state, that Chicago were not to grow at all, that the telephone company should never have a more prosperous twelvemonth than the last, 55 per cent of its net receipts during the next twenty years would amount to $30,800,000. If the proposed ordinance is adopted the company will pay to the city in the same time, under the same circumstances, only $4,000,000.

That compensation recalls the days when Yerkes used to do business with the council. The idea that the city of Chicago should license a corporation which will make, even on the basis of present earnings, $56,000,000 in the coming twenty years in return for a share of only $4,000,000 in its earnings is preposterous.

The council should realize that we are not in 1887, nor yet in 1897. Public service corporations must deal fairly with Chicago.

THE TELEPHONE ORDINANCE.

[From the Evening News.]

If the city council at its special meeting tomorrow passes the franchise ordinance of the Chicago Telephone company without providing an opportunity for a vote on it by the people the aldermen will act most unwisely and unjustly.

Next Tuesday the voters are to accept or reject the proposed new charter. If they accept it, all long term franchise ordinances, such as the pending telephone measure, must go to a referendum provided 10 per cent of the voters ask for one. To pass the ordinance just ahead of the vote on the charter would be to proclaim that a majority of the present members of the council do not want the voters to have a chance to express themselves on the terms of the franchise. If they take this attitude in one instance they might be expected to take it in all other instances, so far as they are able.

The telephone ordinance ought to go over for further consideration, anyway. It would be indecent to put the measure through just before the vote on the charter, for nobody could fail to understand that the sole purpose of the action was to keep the Chicago public from reviewing the terms of the measure. Yet it is the Chicago public whose interests are primarily at stake.

The aldermen cannot afford to pass the ordinance before the charter election.

SHERIFF STRASSHEIM would like to know, you know, what you are going to do about it.

IT will be exhilarating, by the way, to observe the eagerness with which the Hon. Joey B. Foraker—tough, but de-e-evilish sly—will not rush to the assistance of Congressman Burton.

PERHAPS Mr. Strassheim is merely trying to convert the jail into a gaol.

ACCORDING to wireless reports the Lusitania is much like a first class hotel making a quick trip across a mill pond.

THE price of anthracite at the mines is $3 a ton—from which instructive fact several things may be inferred.

IF Col. Watterson is still undecided as to that "dark horse" will he kindly turn his gaze in the direction of Prof. Joe Gans?

AT a late auction sale of household effects, we are told, "linen napkins with which gay diners recently protected their shirt bosoms" were sold for 10 cents each. Authentic information enables us to say that among the first families of Chicago it is not the custom this year, when dining, to tuck the napkin under the chin.

For you!
Git up an' dust!"

he said bitterly that he'd go—but he would return some day.

THE TRACTION MUDDLE.

Chicago, Sept. 11.—[Editor of The Tribune.]—I see that Mr. Walter Fisher, the city's expert, makes use of reference to the case of Shylock as parallel to the victory in traction. As in all their defenses, these experts fail even to cite a parallel without missing the lesson to be drawn.

In Shylock's case there was danger in taking his own from fear of spilling the blood. In traction there is no blood to spill; the citation is not thus applicable. With us the danger of spilling the blood would be from the acceptance of watered bonds offered us by the friends for whom Mr. Fisher so kindly drafted the ordinance.

His suggestion that an ax is necessary to waken us indicates mostly that such is the form of his ordinance. It was framed to "cut" us out, yet take us in, only in appearance.

ROBERT M. ORR.

MARQUISE DE FONTENOY.

Copyright: 1907: By the Marquise de Fontenoy.

To no one has the success of King Edward in strengthening the ties of friendship with foreign governments brought more dismay than to Leopold of Belgium. For, although little has been said or printed about the matter, yet it is known in diplomatic and political circles that England has arrived at a definite understanding with the powers which signed the Berlin treaty of 1885 calling the Congo Free State into existence as to the course to be adopted with regard to King Leopold in the probable event of the failure of Belgium to annex the Free State as a colony before the end of the year. Thanks largely to the influence of King Edward, who is known to feel strongly on the subject of the Congo maladministration, an agreement has been reached by the signatory powers, according to which they will assemble in conference in London if the Belgian legislature declines to vote the annexation bill, with a view of devising steps for depriving King Leopold of the sovereignty of the Free State.

The Belgian parliament insists that if the annexation takes place at all it shall be complete, and that if the Belgian government becomes saddled in the eyes of the world with the responsibility for the humane, enlightened, and progressive administration of the Congo state, it shall enjoy entire and complete control over every portion of the colony. This Leopold will not tolerate, and although he has been driven by the pressure of public opinion at home and abroad to consent in principle to the scheme of annexation, yet he has privately maneuvered in such a fashion as to secure its defeat rather than submit to the terms demanded by the people. The foreign powers are aware of this, and if the annexation bill is defeated, as it assuredly will be, a congress will immediately be summoned by England to meet in London to modify the Congo treaty of 1885, and to divest Leopold of the sovereignty of the Congo Free State then confided to him, and to adopt other means for the government of that sorely stricken corner of the dark continent.

Leopold's only hope is to win the ear of one or more of the signatory powers who are to take part in the congress, and it is with this object in view that he has been endeavoring to arrange for a private meeting with King Alfonso during his yachting cruise in Spanish waters, and that he has leased the American born Mme. Henri Say's Château de Larmoy, near Paris, for the purpose of quietly and unobtrusively bringing French statesmen and politicians within the sphere of his influence. In Paris he is too well known a figure to be able to visit any one or to have any one visit him without attracting the attention of the press; but at the Château de Larmoy, which is within easy motoring distance of the capital, people will be able to call upon him without exciting any notice.

Henry Chaplin, M. P., one of the most picturesque and popular figures in English politics and society, has just furnished a striking illustration of the extent to which agricultural depression has affected the fortunes of the great English land owners, the number of whose acres is but rarely nowadays indicative of the extent of their income. Henry Chaplin, who has held cabinet office in conservative administrations, and who has always declined the offer of a peerage, following in this particular the example of his father before him, inherited, when he came of age, an estate valued at half a million of pounds sterling in Lincolnshire, and yielding in those days—that is to say, about fifty years ago—an income of about $150,000 a year. In most English works of reference he is rated as owning that amount of property and as enjoying that income. This was laid at his door the other day by a socialist lecturer.

Thereupon Chaplin issued a statement, setting forth what his friends and acquaintances knew already—namely, that his rentals have fallen, owing to agricultural depression, between 70 and 80 per cent, leaving him, after the defraying of charges and cost of maintenance, with absolutely nothing whatever. He adds:

"No man was ever more fortunate than I was in the tenantry on that estate. A better, more straightforward lot never existed, and I was confident that none of them would ever ask me for assistance or appeal to me for a reduction of rent unless absolutely driven thereto by necessity."

After this condition of affairs had endured for nearly twenty years, Chaplin sold the major part of his property, and his ancestral home, Blankney Hall, has now passed into the possession of Lord and Lady Londesborough.

Chaplin was exceedingly fond of Blankney, and was prouder of his title of "squire of Blankney" than of any other distinction, save, perhaps, that of having won the Derby in 1867 with his horse Hermit. That victory not only brought a fortune to Henry Chaplin, but likewise to his trainer, Capt. Machell, whose son, now holding high office at Cairo in the Anglo-Egyptian administration there, is married to Countess Valda Gleichen, grandniece of the late Queen Victoria, and cousin, therefore, of King Edward, who has directed that she should be styled "Lady" Valda Machell. Incidentally, the victory of Hermit ruined the last marquis of Hastings, who had run off with Lady Florence Paget and married her on the eve of the date appointed for her wedding to Henry Chaplin. Naturally Chaplin did not feel kindly towards Lord Hastings, whom he regarded at the time as having wrecked his happiness. But his resentment was mild compared to the bitter animosity entertained by the marquis against the man whom he had so cruelly wronged, and it was this hatred that induced the peer to bet so recklessly against Hermit that when the horse won his ruin was complete. Lord Hastings died shortly afterwards, and his widow afterwards became the wife of Sir George Chetwynd, and died last year. Henry Chaplin afterwards married another Lady Florence—namely, a sister of the present duke of Sutherland, and the closest ties of friendship and affection have always existed between the two brothers-in-law. Indeed, after Lady Florence Chaplin died her daughters were brought up by their aunt, the duchess of Sutherland, and made their home with her, while their father, Henry Chaplin, has always had his apartments at Stafford house, the stately palace of the duke in London. His son, Eric Chaplin, is married to Miss Gladys Wilson, sister of Lady Chesterfield, and daughter of Lord and Lady Nonburnholme, while the elder of his daughters is the wife of young Lord Castlereagh, who will on the death of his father become marquis of Londonderry, and one of the wealthiest peers of the realm.

A reader writes to me for the "remarkable pike story" to which I referred the other day in connection with the Swan Lake in Dunham park, where Lord Stamford was so nearly drowned a fortnight ago. It seems that in 1830 Dr. Warwick, a well known local physician, while passing through Dunham park, frightened a six pound pike which was basking in the sun on the surface of the lake near its edge. Darting suddenly away, it struck its head with great force against the tenter hook fastened to a post to prevent poaching. The fish, evidently badly injured, swam backwards and forwards rapidly, buried its head in the mud, and, after several times throwing itself out of the water, fell on the bank.

Dr. Warwick, with the aid of a keeper who meanwhile had approached, took the fish, and, examining it, found that the hook had damaged the skull, raising one bone and depressing the other, and cutting the head. The doctor replaced the bones in position, the fish remaining perfectly still. He then returned it to the water and made a little cradle by the bank in which it could rest in the water. When the next morning the doctor passed the lake and looked out for his finny patient, the pike came to the edge of the pond, rested his under jaw on the toe of his boot, and allowed him to examine the wound. After this, whenever he visited the pond he always found the pike on the lookout for him, and if it was not on the spot when he arrived, a sharp whistle attracted his attention. His children, and afterwards many other people, visited the fish and frequently fed it, but it only showed attachment to the doctor. The fish was eventually shot by accident by a relative of the seventh Lord Stamford, who knew nothing of its history. The latter was well known throughout the entire countryside, and is to be found recorded in the annals of the Liverpool Literary and Philosophical society, to which it was communicated by Dr. Warwick in Chambers' Journal and in the London Field, so that, marvelous as the story may appear, it does not seem to be a case of nature faking.

PARK COIN IN CHARTER FIGHT

Public Employes Also Enlisted by the South Side Board.

$5,000 TO SEND OUT LETTER.

'Answers' Sent to 'Inquirers,' Whether They Make Inquiries or Not.

By force of actual demonstration the south park commissioners are "proving" not only that they never drag the parks into politics, but that they are the only custodians of the people's park money who could be trusted.

They are spending $5,000 of the aforesaid people's money and are using the park employés to make the demonstration, but in these times when the continuance of this board in control of the south parks depends on the vote of the people next Tuesday, the "proof" must be offered, no matter how much it costs.

Letters containing copies of the commissioners' arguments on "Why We Should Be Kept in Power" are being sent to the voters of the south park district in an effort to defeat the charter. They made their appearance in the Seventh ward yesterday.

The park force is doing the work of getting them into the mails, and the park funds are being used for postage. The polling list of the south park district contains the names of 145,000 voters. It will cost the south park system $5,000 to send out these letters.

Admitted by President Foreman.

President Henry G. Foreman of the south park board admitted last night that park funds were being used for this political purpose, but he said the letters were being sent only in answer to inquiries made of the commission for information.

It was proved to him that his information on this phase of the subject was not accurate. The letters have been sent to voters regardless of their interest in the continuance of the present commission in power.

Mr. Foreman's explanations were not given with the lucidity which he has been able to discuss questions in the past.

"The letters are being sent out in answers to inquiries," he said. "We have had several thousand inquiries and are just answering them."

He was asked how the work was being done and said the office force of the park board was doing it and, after evading a question as to cost, said the park board was paying it. When he was told that men who had asked no questions of the park board were receiving these unsolicited "answers," he said that he had not understood that such use was being made of the letters.

"I'll look it up in the morning," he said.

Meetings Held in the Parks.

Not only are the park funds being used in the anti-charter campaign of the park board and not only are the park employés being used for the same purpose but anti-charter meetings are being held in the parks and the commissioners are using every means at their disposal to defeat the act.

The park commissioners, who have had the advantage of unusual tax advantages and of practically unlimited funds, are fighting to retain it to the injury of the other two sections of the city. The south park board is the only taxing body in the city which has increased its tax levy since 1902.

In that time it has raised its levy from 24 cents to 73 cents. With the latter levy it is able to raise funds for the most expensive system of parks in the city, while on the west side the people have a park tax of $1.11, and cannot raise half the money which the south parks find available.

The south park commissioners are using the funds of the south park taxpayers to make a campaign to retain this unfair advantage. To allow the other parks of the city to share in the huge First ward—downtown—assessments, now the exclusive property of the south park district for park taxes, would not injure the south park system nor increase the park taxes of the south side residents.

It would give the other parks of the city equal advantages, and the only injury would be felt by five south park officials. They would find themselves separated from the control of the system, and for this reason they are fighting the charter.

Letter and Report Together.

The communication which is being sent to the voters in the south park district at the expense of the park funds contains the report of the commissioners condemning the charter and is accompanied by the following letter:

Dear Sir: At the request of many citizens of the south park district we have had printed the report of the committee in the matter of the proposed charter as the same relates to the public parks, and we have the honor to send you a copy of such report, which was adopted unanimously and is attached hereto. We suggest that every citizen interested in the south parks examine that portion of the charter relating to the parks.

Respectfully, WILLIAM BEST,
LYMAN A. WALTON,
CHARLES L. HUTCHINSON,
EDWARD J. RAINEY,
HENRY G. FOREMAN.

"Blue Law" Bugaboo Used.

The "blue law" and Sunday closing false alarms are being used by the anti-charterites to influence the votes of men connected with the theatrical business, it being represented that the adoption of the charter means that theaters and places of amusement cannot be open on Sunday.

The fact that the charter does nothing to alter the present condition with regard to Sunday observances does not deter the opponents of the act who are determined to make the largest use possible of this misrepresentation. The following letter to a theatrical manager shows how it is being used:

My dear sir: I beg herewith to inclose an article which shows that the passing of the new charter would mean that the theaters of Chicago would be closed on Sunday. I do not know if this has come to your notice or not, but believing it to be to your interests to have the theaters open on Sunday, I thought best to acquaint you with the fact. If you are in favor of the theaters being open on Sunday it would be well for you to vote against the charter and acquaint all of your employés and friends with this fact. A vote for the charter means a vote for closing all places of amusement on Sunday. Yours very truly,
RICHARD A. PICK.

The theater manager, being able to use his own intelligence in the matter without borrowing any from anti-charter agitators, is using the letter in the interests of the charter in the hope that by exposing the misrepresentations of the opponents of the act the voters will learn how little of the opposition is founded on facts.

City Employes Not Alarmed.

Representative James M. Kittleman, chairman of the charter committee of the house of representatives, made public the following letter during the day, it being sufficient answer to another class of misrepresentations:

Owing to the fact that the attitude of municipal employés towards the new charter has been constantly misrepresented, it was deemed advisable by Local 143, International Union of Steam Engineers, whose members are all of the engineers employed by the board of education, to state our position clearly. Accordingly a resolution indorsing the new charter was introduced at our meeting Sept. 7 and passed by a unanimous vote. It is hoped that this action will demonstrate fairly that at least one class of municipal employés are not alarmed over the prospect of summary discharge predicted under the civil service section by the opponents of the charter.

The letter is signed by Walter S. Cadwell, president; Joseph Dunn, secretary; and George McKenzie, chairman of the executive board of the union.

Evans Answers Raymond Robins.

"Chicago's need for home rule was never more aptly shown than in an anti-charter pamphlet signed by Raymond Robins." This declaration was made by Dr. W. A. Evans, commissioner of health, to the voters of the northwest side, who had crowded Wicker Park hall to its capacity at night.

"In his pamphlet," said Dr. Evans, "Mr. Robins attempts to show that as originally framed the charter was a good document, and then naively adds that the best features were eliminated when it reached the legislature. Doesn't that illustrate the thing that the supporters of the charter have said over and over again, that Chicago must have home rule before it can be free to govern itself wisely and well? Now the charter does give us home rule, and the majority of those things which the legislature took from it may be put back in by the people themselves in subsequent amendments. Can we say as much of the old charter if we turn the new one down?

Gives Power to Fight Disease.

"Naturally I look at the new charter from the standpoint of the physician, and those provisions which deal with my department in the city's work I have examined carefully. There is not one among you who has not seen the ravages of consumption. Under the present charter it is impossible to cope with this great scourge of humanity, but I tell you that under the new charter, with its increased powers and the greater revenue provided, we can wage a successful war against this enemy, as against the other contagious diseases."

Judge W. M. McEwen and Harry F. Atwood also spoke. Judge McEwen pointed out the need of revenue to provide school seats for 10,000 children who could not now be accommodated for a full day.

Debate Before Credit Men.

Ald. Milton J. Foreman debated the question with Howard S. Taylor before the Chicago Credit Men's association at the Midday clubrooms at night. While the organization did not render an official decision, the indications are that a large majority of the 150 persons present will vote for the act.

"What heaven born right have the Circuit judges or the governor in the matter of appointing our park boards?" argued Mr. Foreman. "Under the new act the mayor will make the appointments, and there will be a more equitable distribution of the moneys realized for improvements."

Dr. Taylor said it was a case of "self-government with a collar around its neck and a chain in the hands of the coterie of gentlemen who control the Illinois legislature." Continuing, he said: "The city has made wonderful progress under the old charter, and the picture they present of Miss Chicago being a child that has outgrown its dress distorts the facts. The new one will give the mayor absolute power over everything, and the good points of it will probably be repealed by the legislature."

Indorsed by Furniture Men.

The charter received the enthusiastic indorsement of the furniture men of Chicago at a banquet of the Furniture Men's club in the evening at the club's headquarters in the New Southern hotel. The gathering was held for the sole purpose of taking a stand as an organization in the charter campaign. Five hundred members applauded the arguments offered by David Shanahan, Frank L. Shepard, C. W. Toles, Joseph Steiner, Lee Myers, and others, and adopted unanimously a resolution indorsing the charter and urging its adoption at the polls.

It was voted to get out a procharter circular and give copies to each member for distribution among his friends and acquaintances. It also was suggested that each member devote part of his leisure time until election to "missionary" work.

The speakers at the meeting were introduced by Andrew McAnsh, who acted as presiding officer.

Charter Meetings at Noon Hour.

The Civic federation gave out an announcement for noontime charter meetings at the following industrial plants for today:

National Malleable Castings company, West Twenty-sixth and Rockwell streets.

Adams & Westlake company, Ontario and Wells streets.

Allis-Chalmers company, West Twelfth street and Washtenaw avenue.

Congressman H. S. Boutell, M. L. McKinley, Walter L. Fisher, and Harry Atwood will address a procharter meeting tonight at the North Side Turner hall.

Ald. Foreman and Walter L. Fisher will speak for the charter at the Chicago Commons, and former Mayor Dunne will speak against its adoption.

Edwin H. Cassels will support the charter at a meeting at 839 West Fifty-ninth street.

The Iroquois club will discuss the charter at a noon meeting today.

FEDERAL JUDGES ARE GUESTS AT CHINESE WEDDING FEAST.

Leading Mongolian Families in Middle West Joined in Marriage by Chicago Baptist Pastor.

Two of the leading Chinese families of the middle west were united by marriage ties yesterday when Tom Chong, secretary and treasurer of the King Joy Lo restaurant company of Chicago, and Miss Sing Lin Yung of Milwaukee, daughter of Charles Toy, a merchant and reputed to be the wealthiest Chinaman in Wisconsin, were married at the home of the Rev. Austen K. de Blois, pastor of the First Baptist church of Chicago, at 3319 Calumet avenue.

The young Chinese couple, accompanied by Mrs. D. W. Thoms of Chicago and Mr. Wellington Kong, a graduate of Columbia university, arrived at the Northwestern station at 6 o'clock last evening, got into a big touring car, and hurried to the home of Mr. de Blois. There they were met by Mr. Thoms, H. L. Henson, and Dr. M. F. Young of Kansas City, one of the proprietors of the King Joy Lo restaurant, and the ceremony was performed. Later a wedding supper of twenty courses of Chinese dishes was served in a private dining room at the restaurant.

Before the bride left her home in Milwaukee there was an elaborate mandarin wedding dinner, at which the leading federal officials of Wisconsin were present. The banquet was served at 10 o'clock at the Shanghai restaurant, owned by the bride's father. Among the guests were Judge and Mrs. James G. Jenkins, Judge and Mrs. J. V. Quarles, Judge W. H. Seaman, Judge W. D. Tarrant, United States Marshal Harry Weil, Assistant United States District Attorney E. J. Henning, and Inspector of the Interior E. B. Linnen of Washington, D. C. Judge Quarles and Judge Seaman responded to toasts and the bridegroom responded through his interpreter, Wellington Kong.

The bridegroom will give a big wedding dinner next Wednesday night.

NEW CLASS AT LAW COLLEGE.

First Lectures of Year at Chicago Kent School—Judges Point Out Value of Evening Advantages.

The Chicago Kent College of Law began its twentieth year as an evening law school last night when 350 students heard their first lecture on law by Dean Edmund W. Burke in the college rooms at 26 Van Buren street.

Speeches were delivered by Judge Carter, Judge Cutting, ex-Judge Neeley, and Judge Kavanagh.

Each of the jurists declared himself to be heartily in favor of evening courses in law.

"These evening law courses, which allow a young man to take a complete course in law and graduate with honors and afterwards become successful in the state bar examinations, are most potent factors in the advance of the legal profession," said Judge Carter. "We cannot help but think of the blessings such institutions would have been in the days when Lincoln read his books by the light of a candle or fireplace."

MAY EXTEND "L" TO MAYWOOD.

River Forest Village Board to Hold Special Meeting on Question of Passing Franchise.

The village board of River Forest will hold a special meeting next Monday night to consider the immediate passage of an ordinance to extend the Chicago and Oak Park Elevated railroad company's tracks through River Forest to Maywood. Work has already begun to elevate the Chicago and Northwestern railroad tracks in Austin and Oak Park, and Mr. Knight stated that a satisfactory agreement had been made with this company as to crossing its right of way.

BAR ADULTS FROM SCHOOLS?

School Board May Close Grades to Grown Up Foreigners.

PRINCIPAL FINALLY NAMED.

Charles C. Krauskopf Chosen as Mrs. Emma Haskell's Superior.

The presence of adults—chiefly foreigners—in the elementary schools of Chicago was objected to on the floor of the board of education last evening with a vigor that may result in the barring of this class of pupils permanently from the schools.

On being appealed to by Trustee Gunderson, Assistant School Attorney Shannon said he had doubts as to the legality of admitting even occasional pupils over 21 years old to the day schools, but declined to express a formal opinion. If further investigation by the legal department supports the attorney's view it will mean either a discontinuance of the custom, which has been in effect for years, or a revision of the school laws.

The protest was made on a formal communication from the superintendent of schools, recommending that three Japanese, one Persian, one Hollander, two Irishmen, and an Englishman be admitted as pupils. Dr. Guerin, who had been doing most of the objecting for the evening, heard the words "Japanese" and "Persian," and entered another objection.

"I don't believe," he said, "that these Chinamen are fit to be placed in our elementary schoolrooms, side by side with children, especially little girls. I don't care what you do with my objection, but I'll vote against this recommendation tonight, and I'll vote against it whenever it comes up."

Special Room for Adults.

Supt. Cooley, in explaining his recommendation, said that an ungraded room has been prepared at the Jones school and nearly all of the adult pupils will be cared for there.

"There are certain cases," he added, "where elementary instruction cannot be obtained in any other way. It seems to me that it would be a great hardship, and contrary to the spirit of our institutions, to deny such an opportunity."

Here Mr. Gunderson appealed to the attorney.

"I doubt if the school board has a right to use its funds in this way," Attorney Shannon replied. "I am not prepared to give an opinion, however."

Trustee P. Shelly O'Ryan said he had no such doubts.

"I am perfectly clear on this question," he said. "For lack of funds we are excluding thousands of children of school age now."

"There's plenty of room at the Jones school," said Mr. Cooley.

"Well," Mr. O'Ryan persisted, "we're not opening kindergartens as we should. We're not doing lots of things. And we shouldn't be devoting our funds to adults, many of whom are objectionable."

The matter was referred to the committee on school management for further consideration.

Elect Principal of Spalding School.

Charles C. Krauskopf was elected principal of the Spalding school for crippled children, with two of the trustees—Dr. Guerin and Mr. O'Ryan—dissenting, evidently as a matter of principle. The name of Mrs. Emma Haskell, former head teacher at the school, was mentioned twice—once when Dr. Guerin, in the midst of an impassioned plea for something or other connected with the appointment, asked a fellow trustee for Mrs. Haskell's name, and once when Dr. Guerin repeated it to fix it in his memory.

"I have no special objection to this appointment," said Dr. Guerin when the matter of the appointment came up, "but I'd like to understand the case. I understand from what I hear that this position requires special qualifications, and I understand that there is a woman out there who is capable and thoroughly competent. Er—what is her name? Mrs. Haskell? Yes. Thank you.

"Now, I understand that Mrs.—er—this woman has not been given this position because she has no principal's certificate. What I object to is this inconsistency. Why not give her a certificate as well as these teachers out at the normal school?"

Trustee O'Ryan, Mrs. Haskell's champion at the last board meeting, appeared torn between a desire to speak and to remain silent. Mrs. Haskell was not present, but the visitors' seats were crowded, and it was hard to tell who might be there.

"Is the objection seconded?" asked President Schneider.

"Why, er——" Trustee O'Ryan began, looking uncomfortable. For a moment there was a dead silence, then Secretary Larson began calling the roll.

Trustee O'Ryan's name came first.

"No!" he said, and settled back with a look of relief.

Mrs. Haskell, it is understood, will report for duty under Principal Krauskopf this morning, but what she will do later, she says, is decidedly uncertain.

Open Night Schools Next Month.

On Mr. Cooley's recommendation and that of the finance committee it was voted to open the city night schools on Oct. 21 for a term of eight weeks, closing them Dec. 13 and reopening them on Jan. 6 for a second term of the same length. Registration for the first term will be held on the evenings of Oct. 17 and 18.

Formal resolutions in regard to the life and work of the late Edward C. Delano, district superintendent of schools, were read and passed.

The experiment of segregation at the Englewood high school will continue. The superintendent's recommendation to this effect was passed.

Catch Hundreds of Truants.

Thirty truant officers from the office of the superintendent of compulsory education have rounded up 425 children in the streets during the last two weeks. All were sent to school or required to go to work. Supt. Bodine said yesterday that the campaign will be continued until all children under the age of 16 are off the streets, as is provided in the terms of the new compulsory education law. If the parents do not coöperate in enforcing the law they will be arrested and taken before Municipal judges.

SAYS AUTO HAS COME TO STAY.

Motor Cars Will Disappear Only When Country Goes to Smash, Says Charles Palms.

The automobile has become the barometer of the country's condition and when the country goes to smash the auto will follow suit, but only then, according to Charles L. Palms, a manufacturer of the machines, residing in Detroit, who was in Chicago yesterday.

Mr. Palms said the automobile trade situation was better today in the United States than it has ever been, and he said the pessimistic predictions to the effect that the auto would soon follow in the wake of the bicycle to comparative oblivion were totally without warrant.

"In the first place," said Mr. Palms, "there are more bicycles in use in the United States today than there ever were, and in the second place the bicycle and the motor car can never be placed in the same class. People who have motored have found it a necessary feature of their lives.

"I see absolutely nothing in the status of the industry that is not both natural and healthy. The auto has come to stay."

MAYOR OFFERS CUP FOR GAME.

Busse Will Do More than Merely Pitch First Ball at St. Vincent's Asylum Benefit.

In addition to offering to pitch the first ball, Mayor Busse has donated a massive silver cup to be given to the winning team in the game which will be played between Jimmy Callahan's Logan squares and Judge Melville's Normals on Sept. 17 at the American league ball park, for the benefit of St. Vincent's Orphan asylum, which is under a debt of about $26,000. Knights of Columbus are working for the benefit.

NEWS OF THE SOCIETY WORLD

Miss Jessie McCutcheon Married to Mr. Albert Raleigh.

FIRST BIG FALL WEDDING.

Nuptials of Miss Helen Roche and Mr. Arthur Tobin on Oct. 10.

The first of the large north side church weddings for the season was celebrated last night in that of Miss Jessie Mary McCutcheon, daughter of Mrs. John Barr McCutcheon, 300 Schiller street, to Mr. Albert Clarke Raleigh of Helena, Mont. The service was said at 8:30 o'clock at the Fourth Presbyterian church, the Rev. Dr. W. R. Notman, the pastor, officiating, assisted by the Rev. A. A. Pfanstiehl of Highland Park.

The bride had but one attendant, Miss Bessie Coffroth of Lafayette, Ind. Mr. John T. McCutcheon, the bride's brother, served as best man. Another brother, Mr. George Barr McCutcheon, gave the bride in marriage, and a third brother, Mr. Ben F. McCutcheon, with George Ade, Harry B. Foley, and John S. Koehl of Chicago and Charles Hamilton Ball and William Randolph Coffroth of Lafayette, was an usher.

The bridal gown was fashioned of white liberty satin, with point lace yoke. A bouquet of lilies of the valley was carried. The maid of honor wore a gown of hand embroidered white chiffon and carried pink roses. Mrs. McCutcheon wore a costume of pale gray crepe.

Mr. and Mrs. Raleigh will go to Helena to make their home.

The marriage of Miss Helen Marie Roche, daughter of Mrs. John A. Roche, 4605 Drexel boulevard, to Mr. Arthur Collson Tobin, son of Mr. and Mrs. Samuel C. Tobin, now of Oak Park but for many years residents of Kimbark avenue, is to be celebrated Thursday evening, Oct. 10, at 8 o'clock, at the home of the bride's mother, and will be one of the most interesting of the south side services of the season. The bride is to have her sister, Mrs. George C. Howland, for her matron of honor and her small niece, Miss Cora Virginia Howland, for her honored maid. The bridesmaids will be Miss Helen Shedd, Miss Pearl Harris, Miss Helen Parish, a cousin of the groom, and Miss Florence Beman. Mr. Tobin's best man will be Mr. James Sheldon Riley and the ushers are to be Mr. James Henry and Mr. Bradley McCausland of Chicago and Mr. Eugene N. Hunting of Youngstown, O.

Mrs. Elisabeth Emma Bowen, 5836 Cornell avenue announces the engagement of her daughter, Miss Eva Helen Bowen, to Mr. Reinhold H. Palenske, the marriage to take place on Oct. 16.

Mrs. J. Ogden Armour will entertain at bridge at her Lake Forest home tomorrow afternoon.

Mrs. Willard A. Cole will be hostess at the Saturday afternoon brige of this week to be given at the Edgewater Golf club.

Mr. and Mrs. Edward L. Brewster and Miss Brewster, 511 North State street, have returned to the city from the east, where they have been spending the summer.

Mr. and Mrs. B. A. Eckhart and Miss Dorothy Eckhart have returned from Rye Beach, N. H., where they spent the month of August.

Mrs. John D. Sherman, 73 East Forty-seventh street, is in Colorado. She is expected home within a fortnight.

Mr. and Mrs. Otto E. Osthoff, the latter formerly Miss Lillian Dow, have taken an apartment at 5304 Cornell avenue and will be at home after Oct. 1.

Mr. and Mrs. H. Boddiker of 1506 Oakdale avenue have had as their guests Mr. and Mrs. A. Klappert and daughters of New York City.

The monthly luncheon of the National Park Seminary association will be held at Marshall Field's southeast tea room next Saturday at 12 o'clock.

Mrs. Francis Reeplinger and children of Iowa City are the guests of Mrs. Reeplinger's mother, Mrs. C. D. Bradley of Rogers Park. Mrs. Reeplinger was Miss Violet Bradley before her marriage.

IN THE SHOPS

Perfumes from the Orient.

One of the shops sells far eastern perfumes, which are bewitchingly sweet and different in odor from anything we have had heretofore. The jasmine of India, the attar of Persia, sandalwood of Singapore, and the lotus and orchid of Japan are skillfully blended to bring out their richest scent in these preparations which appeal to women of discrimination. The perfumes are almost invariably $1 for a two ounce bottle, although the most exquisite odor costs $2. If any guarantee of the good quality of oriental face powders were needed, it would be found in the prodigal use by eastern women without bad effect. The powders are made from old eastern formulas, extremely fine and delicately perfumed with natural odors. Geisha face powder comes in three tints, scented with sandalwood, and costs 50 cents a box. Granulated orris root in eight ounce packages sells for 50 cents, and talcum powder perfumed with sandalwood or attar of roses costs 25 cents a box. Toilet soaps complete the set of toilet requisites, and cost 10 cents a cake, and come in all the odors. They are made of pure vegetable oils, slightly perfumed, and are of a hard texture, and give a rich smooth lather.

* * *

For the Bath.

Bran bags for the bath, perfumed with violet, cost 20 cents and if with almond or lavender are sold for 15 cents. These bags are among the most satisfactory cleansing preparations for the bath, as they give a refreshing fragrance and leave the skin in a wonderfully softened condition, besides being efficient in their cleansing qualities.

* *

Dressing Bags.

Dressing bags for women contain writing materials as well as a complete outfit of brushes, powders, and scents. They are in miniature sizes, but none the less useful.

* *

Lisle Stockings.

Black silk lisle hose with cotton soles and half heels can be bought for 35 cents a pair, or $1 for three pairs. The cotton soles have been found more durable for hard wear than lisle. Other lisle thread stockings at 45 cents a pair, and $1.25 for three pairs, are heavier in weight and woven in a small rib.

* *

"Diffany" Bag.

A novel as well as a useful article is the "Diffany" bag. When closed it has the appearance of a lady's ordinary handbag with a broad flap in front, which when opened discloses a full set of manicure articles of the highest quality, as well as a comb, mirror, and powder puff. The bag, which is of the regular flat shape, has a telescope bottom and is fitted with a purse and card case to match the leather of the bag. These bags come in all the smart leathers, including morocco, seal, levant, imported calf, pigskin, walrus, sea lion, and lizard.

* *

Shift of Underskirt Fashion.

Time was when gingham underskirts were not good form for street wear, and the petticoats were serviceable but not at all pretty. This year there are fine percales that wash and look like new until they are worn out. They are seen in small black and white shepherd checks, stripes of white and some pretty color, and dashing broken plaids. In French gingham are seen Scotch plaids, and it is almost impossible to tell these ginghams from silk. The petticoats are easy to make and require but little time. They are made with a ruffle, which reaches to the knee, while under this ruffle, on the foundation of the skirt, is a little three or four inch dust ruffle.

IN THE BOUDOIR

Dieting for Facial Woes.

Many women hope to aid the care and time they spend on their complexions by dieting. It does help the complexion and health wonderfully, too, if carefully carried out. Almost any diet which has simplicity for its foundation will be a success in improving the complexion. The trouble is that women diet in the morning and eat everything under the sun in the evening. A girl will tell her friends in all seriousness how she has given up candy for a month and then she will go into the first drug store she sees and drink a chocolate soda water. It is the same way with the reduction diet.

* *

Perfume Used as a Lotion.

English women perfume the lips before going out in the evening. They use a home made perfume and claim that it is good for the lips as well as perfuming them. It is made as follows: Put a grain of musk into a pint bottle, add to this half an ounce of the oil of rose geranium, fill up the bottle with spirits of cologne, and add a drop or two of attar of roses. This perfume should stand a month before it is used. Apply sparingly to the lips.

* *

Plague of Curly Hair.

Most girls cannot wave their hair enough, but there are a few who are troubled with kinky hair. If the hair is dry, this preparation will smooth it into a comfortable condition: Scentless castor oil, two ounces; cocoanut oil, two ounces; oil of rosemary, one ounce; oil of jasmine, one-half dram. Mix oils with gentle heat. Bottle and shake for five minutes.

* *

Liquid Face Powder.

To one-half ounce of tincture of benzoin add one ounce of glycerin, one ounce of alcohol, and two ounces of prepared chalk. This liquid powder is perfectly harmless.

* *

Plan to Soften Skin.

To soften the skin, which has become hard and dry, a preparation should be used which is made of rosewater, three ounces; glycerin, one ounce; carbolic acid, ten drops. Apply to the face and arms after washing and before drying.

DAILY FASHION HINT.

Three pretty sleeves showing the prevailing Japanese style, sometimes cut in one with the body of the garment, and often set in with the big loose armhole.

With the Girl Workers

Time Wasted in Visits.

One of the serious problems that confront the business man is that of utilising every working minute of the time of his employés, and one of the obstacles that he finds it difficult to contend with is the proneness of some of his woman workers to "visit." While it is not a general practice, it cannot be denied that a vast number of girls think nothing of entertaining their friends at the expense of their employer's time. This offense usually passes without a reprimand, but none the less it is a source of annoyance to the man of business and is the cause of many a dismissal and of the nonsuccess of many a worker.

I myself know of two estimable young women who lost their positions on this account. In most establishments there is such a freedom of access for the visitor that it is difficult to prevent these social calls, and I often wonder why employers do not take some stringent steps towards its suppression. And yet the solution of this problem is in the hands of the workers themselves. I am sure if my fellow-workers would consider that "time is money" in the working world they no more would be guilty of wasting it in this visiting or "chinning," as my employer terms it, than they would of filching its equivalent. LOUISE L. KEATS.

* *

Puts Love in Work.

Learn to love the work chosen, is the thought I have in mind, as one of Chicago's girl workers. Every girl or woman entering business life has a duty, and that is to exercise her ability. Truly, it belongs to girlhood and womanhood as well as to manhood to manifest a strong desire to develop personal ability. In order to accomplish this the woman worker must use all of her ability to the fullest extent.

Do not shrink from the task of performing a little more work than you are paid for doing today; it will make you feel miserly and grow lax. Cultivate a loving determination and you easily will overcome many obstacles when working in a scientific manner.

After office hours enjoy recreation as much as you can in justice to your calling. Then peaceably cover your manifold cares with the robe of slumber. A. E. C.

* *

Stenography as Stepping Stone.

By means of stenography as a stepping stone I have studied and secured a position as public reader in one of the lyceum bureaus. Having lately finished my second season's work, I am again employed as stenographer in one of the business houses in the city, thus utilizing the valuable time at my disposal until the winter season opens.

The contrast in the surroundings of the two positions is marked. The public work, besides being far more remunerative, is more pleasant, more enjoyable, and more elevating. As a stenographer perhaps the most noticeable feature to me is the distinction between the employer and employé. But the feeling aroused only inspires me more and more to keep on developing and improving my talent, so that I may rise in my public work and no longer be compelled to seek employment in an office.

Every one should put forth every effort to reach a certain goal, and the one word I wish to impress upon the working girl is "perseverance." Too many of us lack this quality and are too easily discouraged. Discouragements should be incentives to push onward with renewed energy and determination.

Too many of us are content with a position whereby we can live comfortably and do not try to cultivate the talent given us. If our minds always were alert and kept in a receptive mood no opportunities would slip by and we would better ourselves. OLGA M.

TESTED RECIPES

Stuffed Figs.

Cut openings in the sides of figs and remove the inside with a spoon. Mix this with chopped nuts and orange juice. Fill the fig shells and press the openings together. Then roll the figs in fine sugar. ELIZABETH CARR.

* *

Combination Salad.

Chop coarsely one cucumber, bunch of radishes, one stalk of celery, bunch of onions, if liked, parsley. Over this pour French dressing and let stand. Peel the number of tomatoes needed. Cut in eight sections and open so as to form a flower. Fill in center with chopped vegetables. Cover with mayonnaise dressing and serve on lettuce. MRS. MACDONALD.

* *

Meat Rissoles.

Any kind of cold meat chopped fine, the same quantity of cracker crumbs, one well beaten egg, a little milk, season with salt and pepper, mix into a thick paste, roll into balls, dip in cracker crumbs, and fry a light brown in plenty of butter. MRS. E. J. S.

* *

Sirup that Will Keep.

Place one quart of pure cold water in a large earthen bowl, and add to it three pounds of granulated sugar; stir this mixture for a few minutes, let stand for awhile, and stir again for several minutes. After a few such treatments every particle of sugar will dissolve, leaving a clear, heavy sirup ready for use after being strained. This formula will make a quart and three-fourths of crystal sirup of the right consistency, that will not sour or ferment. It can be used with fruit pulp or juices to form an endless variety of beverages; also excellent for table sirup. For a larger quantity of sirup (for punch, etc.) use twenty-five pounds of granulated sugar in eight and one-half quarts of cold water; paddle to a sirup in large stone jar. MRS. G. H. MICK.

IN THE KITCHEN

Bread Economy.

Bread loses none of its rich food values by having become unsightly in form for the table bread plate.

I never throw away a single bit of good, sweet bread. As to sour bread, there is no place for it in the diet of any human being. Nothing can make it fit for use.

Small bits, even crumbs from the cutting board, should be collected from meal to meal, then placed in a biscuit pan and set in the oven immediately after a baking of loaves has been removed and the gas turned out. There still remains enough heat to thoroughly dry without danger of burning the crumbs, and they then should be crushed fine under the rolling pin and kept in a close jar to use for croquettes, fried fish, etc.

Crusts and other tough pieces can be used in many ways by first soaking in cold water. MRS. E. S. WILLARD.

* *

To Freshen Ham.

If intended for breakfast soak over night in sweet milk, or if for luncheon put in milk right after breakfast. Before frying or broiling pat lightly with clean cloth. MRS. P. W. ROWELL.

* *

Dry Matches in Kitchen.

Fill the kitchen match safe by placing matches sulphur end down. The proper end then is in position to take hold of when hands are moist from preparing vegetables. Thus one saves time handling matches and wiping hands, with the satisfaction of having a dry match that will ignite at once. MRS. H. B. HOUGHTON.

BARBARY SHEEP
By ROBERT HICHENS
Author of "The Call of the Blood," "The Garden of Allah," etc.

IN this new romance Mr. Hichens again makes real the mystery, the fascination, the bewitching atmosphere of the Algerian desert. Blended with this wonderful setting are the lives of a young English lord and his wife, and a handsome Arab army officer who, with curious art, appeals to the heroine while her husband is absent hunting.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of
The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

NEW SOUTHERN TO REBUILD

Modern Hotel Costing Upwards of $200,000 Is Planned.

EIGHT OR TEN STORIES HIGH.

Meeting of Stockholders Called to Vote on Increase of Capital.

Plans have been decided on practically for replacing the New Southern hotel building at the northwest corner of Michigan avenue and Thirteenth street with a modern fireproof structure to cost upwards of $200,000. It will cover the entire lot, with a frontage of 125 feet and a depth of 140 feet, and will be either eight or ten stories high.

In furtherance of the project a meeting of the stockholders of the hotel company has been called for Thursday, Oct. 10, to vote on the proposition to increase the capital stock from $75,000 to $125,000.

The advisability of erecting a new building was taken up about two years ago, but was abandoned for the time because, it is said, of the belief that the Young hotel project would be carried through. The practical abandonment of the latter, however, is said to have revived the Southern building plans.

More Deals Near Archer Avenue.

Some significance is thought to attach to the fact that Mary Reuter, who two years ago took title to considerable property in the belt north of Archer avenue, has just acquired four parcels of property in the triangular block bounded by Twenty-first street, Archer avenue, and Purple street, formerly known as Princeton avenue.

From Henry J. Schill she has acquired 32.7x100 feet in Archer avenue, 114 feet east of Purple street, and 24x90 feet in Purple street, 72 feet south of Twenty-first street, west front, for $19,000; from Bessie B. Adcock she has purchased 80x70 feet at the southwest corner of Archer avenue and Twenty-first street for $14,250; and from Sigmund Lederer 26x90 feet at the northeast corner of Archer avenue and Purple street, for a nominal consideration.

Sale by Bishop of Chicago.

The Catholic bishop of Chicago has sold to James Miles 48¼@124½ feet in Charlton street, 227 feet north of Thirty-seventh street, with brick improvements, for $20,000.

The Citizens' Savings Bank and Trust Company of Vermont has conveyed to the Chicago Title and Trust company, trustee, 300x@171 feet at the southeast corner of Estes avenue and Central street and 100x171 feet in Greenleaf avenue, 300 feet east of Central street, for a stated consideration of $8,000.

Buy Land for Varnish Plant.

The Standard varnish works of London, New York, Chicago, Toronto, Canada, Berlin, and Brussels, said to be the largest in the world, have closed a contract for the purchase of twelve acres at Chicago Heights and taken an option on five acres additional. Contracts will be let in a few days for the construction of buildings. The plant will supply the entire western trade.

MUST WAIT FOR 2 CENT FARE

Promulgation of Interstate Rates East Is Postponed.

DEMAND FOR STRONGER RAIL

Chairman Gary Returns from Studying Conditions in Europe.

Promulgation of interstate passenger rates based on 2 cents a mile in territory east of Chicago was postponed yesterday by the Central Passenger association lines until the October meeting. The officials in attendance reported the work was not sufficiently advanced to enable them to say when the new rates would be ready.

The lower basis of interstate rates is in effect to Cincinnati and Indianapolis and intermediate points, but the rate to Cleveland will remain at $7.75 from Chicago. The rates to other important points in Ohio, Indiana, and Michigan will remain at the old figure.

Some of the officials admitted that the decision in the Pennsylvania case would have caused delay, anyway. The plan is to do nothing, pending a decision of the Pennsylvania Supreme court, which is expected before Oct. 1.

Must Have Stronger Rails.

The steel rail discussions indulged in by the railroads and the United States Steel corporation will be renewed, now that Chairman Gary has returned from an exhaustive study of the manufacture of steel rails in Europe. It is conceded a stronger and less brittle rail is desired because of the increase in weight and speed of locomotives and cars.

Before going to Europe, Chairman Gary intimated the price of an improved rail would be slightly in advance of the present price of $28 a ton. How much of an advance will be asked could not be learned yesterday, but it is generally believed it will be $5.

No Change in Ticket Paper.

The executive committee of the American Association of General Passenger Agents discussed ticket paper yesterday and decided to keep the paper now in use, as it was considered superior to that recommended at the latest meeting of the association.

John Jones Owns His Own Business

Think what that means. He is no longer an employe. He is not a servant. He is his own boss. He is a step higher in the world.

Thousands of men and women improve their conditions every day by reading the little want ads published in The Chicago Tribune.

Every day there is a bargain in business advertisements. Domestic difficulties—inability to conduct a business on account of ill health, make the owners of these little businesses sell out; frequently at far below what the business is really worth.

The lucky readers of The Tribune, daily and Sunday, are the people who get these great business bargains.

The Tribune is the Chicago Paper Which Prints the Want Advertisements

REAL ESTATE—FARM LANDS.

FOR SALE—
WISCONSIN FARMS.
Choice, rich land, in small or large tracts, near Ellis Junction, Wis., on the Chicago, Milwaukee and St. Paul Ry., price $10 to $15 per acre, on easy terms.
Remember this is not stump land or stony land, but open, rolling prairie land, ready for the plow, or good, live timber land, all underlaid with rich clay subsoil; the very best county and town roads through each section, with many settled, improved farms adjacent, and with good schools on all sides.
Go with us and see what choice, well located property we are selling; you will not be disappointed; now is the time to look over the land, when crops are growing, and you will be convinced that no state can show better crops than are produced on our farms in Marinette county, Wisconsin, where our land is located.
We have cheap excursion rates on every Tuesday and Saturday evening over the Chicago, Milwaukee and St. Paul Ry. All who are interested and want good farms for homes or investment should not fail to see our Wisconsin land. Send for book and map or call at office.

British Columbia Amalgamated Coal
at 7½c per share.
This company controls over 17,000 acres of valuable coal land, situated in the well known Nicola Valley, about 180 miles from the city of Vancouver, British Columbia, and, according to experts' report, this area is underlaid with inexhaustible quantities of high class bituminous coal, the best for steam, blacksmithing, cooking, and, in fact, for all purposes where coal is required. It is estimated to contain approximately 1,400,000,000 tons of coal.
We have only 10,000 shares that we will sell in blocks of 100 or over at 7½c per share.
If you are interested we advise you to write or wire at once, stating the number of shares you wish reserved, then remit us by bank draft or express order. We will have the stock transferred into your own name or whatever name you desire. Write for our booklet giving full particulars about the Nicola Coal district.

IN FOREIGN MONEY MARKETS.

LONDON, Sept. 11.—The supplies of money were plentiful in the market today. Discounts were steady.

Prices on the stock exchange continued quietly firm, but first class securities hardened under the lead of consols.

Americans opened weak, but at noon prices recovered and ruled steady. Canadian Pacific and Grand Trunk were supported. The market closed firm. Copper shares were depressed.

PARIS, Sept. 11.—Prices on the bourse today generally firmer and trading was quiet.

BERLIN, Sept. 11.—Prices on the boerse today were unsteady. Americans had a downward tendency.

STOCK MARKET IS ERRATIC

Price Changes Small at the Close, After Many Fluctuations.

COPPERS FORCE FOR DROOP.

Success of Bond Offering Combats Influence for Decline.

[BY A SPECIAL CORRESPONDENT.]

NEW YORK, Sept. 11.—[Special.]—Movements in the stock exchange today were erratic, following up and down the conflicting rumors which were put out from time to time. The net changes at the close of the day, however, were but small and were about evenly divided as to gains and losses. The greater part of the dealings again were in the hands of the professionals and little or no interest was taken by the outsiders.

The severe break in the coppers had but little effect on the remainder of the list. This was due in part to the fact that the success met by the New York bond issue was fully realized and served as a sustaining influence on the day's trading.

The foreign markets were patterned closely after the New York market, sentiment showing some improvement over the general investment situation.

The cheerful tone expressed by a number of capitalists newly returned from long summer trips had its share in an improved feeling which was discernible in the under current of the day's events.

Foreign exchange continued to decline, marking the growth of the New York control in that market with the rising tide of the commodities exports. Redemptions in progress of Japanese 6 per cent bonds, which are held in this country to an estimated total of $8,000,000, are helping the money market. So are the deposits of government funds with the banks.

Bonds were irregular. Total sales, par value, $960,000. United States 2s registered advanced ¼ per cent on call.

Money on call firm, 3@5½ per cent; ruling rate, 5; closing bid; 3; offered at 3½. Time loans easier; 60 days, 5½ per cent; 90 days, 6 per cent; six months, 6 per cent. Prime mercantile paper, 6½@7 per cent. Sterling exchange weak, with actual business in bankers' bills at 4.8555@4.8560 for demand and at 4.8190@4.8195 for 60 day bills. Commercial bills, 4.81⅛@4.82⅛. Bar silver, 67⅝. Mexican dollars, 52⅝. Government bonds firm. Railroad bonds irregular.

LONG WHEAT SWAMPS BULLS

Unloading by Heavy Holders Causes Sharp Price Decline.

TONICKY NEWS IS IGNORED.

No Attention Is Paid to the Cold Weather and Big Exports.

Enormous liquidation by discouraged longs, including some of the leading holders who have been coloring the atmosphere with bullish talk for a long time, and brisk selling by shorts gave wheat values a severe setback yesterday. There was considerable bullish news on tap, but it, with the endeavor born of it, was about as effective as a canoe would be in battle with a flying squadron. Final prices, within whispering distance of the day's bottom, showed net losses of 2c for the current month, 2⅛c for December, and 2c for May.

The opening bell was the signal for a deluge of long grain into the pit, notwithstanding that Liverpool showed modest gains as compared to the easy close here the day before. The Bartlett-Frazier crowd, including James A. Patten, holder of a big line, shoveled in from many angles, its selling prompting holders all over the pit to similar action. Prices sank like a closed parachute, 2c being knocked off before the session had doffed its swaddling clothes. Weather in the northwest, according to official observations, showed higher temperatures. There were occasional lulls in pit activity, but the big holders kept on the selling side the greater part of the day. It was estimated that the Bartlett-Frazier interests unloaded about 5,000,000 bu.

Reaction from the Decline.

There was a good reaction from the early low points on a sharp upturn at Winnipeg, based on colder temperature, and predicted frosts and a pickup in the foreign demand for wheat. Reports of expanding inquiry for wheat for export from Kansas City and New York also had a stimulating effect for a time. It was estimated that 800,000 bu had been worked in all positions. Kansas City and Minneapolis also reported big sales of flour.

Pressure Is Renewed.

As the session swung into the stretch, the selling pressure was renewed, being more general than that which worked for the big break at the start. Prices sank to 97¼c for December and $1.03½ for May, the close being only ⅛c firmer. The increasing stocks of wheat here and the formidable total—more than 19,000,000 bu—are the essence of much of the bearish sentiment, as is the continued restriction of outside business because of the crippled wire service. The trade yesterday was almost entirely of a local professional character.

Some points in the Canadian northwest reported snow, but the effect of the advices on the market was slight, inasmuch as the wheat has been cut where the "beautiful" was reported. Receipts at Duluth and Minneapolis aggregated only 217 cars, compared to 477 cars the same day last year, and the arrivals at Winnipeg were light. There were further complaints of poor grading of spring wheat receipts. The total primary movement was 723,000 bu, 145,000 bu under that of the corresponding day in 1906. Seaboard clearances, wheat and flour, were equal to 470,000 bu. Chicago receipts were 156 cars, the estimate for today being 196 cars.

Liquidation a Tonic?

While sentiment in the wheat market has taken on much bearish color within the last few days, there are many traders who believe that heavy unloading by the longs will eventually serve as a tonic to the general situation. They also believe that the world situation favors the bulls for a long run. Liverpool closed ⅝@¾d lower, Berlin dropped 2⅝c, and other continental markets showed easiness. Russian news was mixed, but one cable indicated that weather conditions were more favorable. The trade is anxiously awaiting the showing on this week's exports from the czar's ports.

Corn Is Relatively Firm.

Considering the pronounced weakness of wheat and the absence of outside speculative activity, the corn market gave a reasonably good account of itself. The market moved within a range of a cent, ruling weaker early, largely in sympathy with the gloom in wheat and on quite heavy selling by longs. The poor shipping demand also had a depressing effect. The softer spots, however, witnessed snappy buying by scattered traders, including commission concerns and some shorts. The close showed declines of ⅜c for September, ¼c for December, and ⅛@¼c for May. Sentiment appeared to be bullish, but traders employed unusual caution in the pit. The southwest sold a little early, and some of the local receivers provided pressure because of prospective larger country consignments. Local receipts were 326 cars, of which 119 graded contract, the estimate for today being 449 cars. Total primary arrivals were 850,000 bu, against 1,143,000 bu a year ago. Seaboard clearances totaled 95,000 bu. There was some business for export reported.

Weather west was considered too cool for rapid advancement of the backward crop, and there was some buying on the fear that the developing cold in the Canadian northwest might extend into the belt. While the government report was about as had been expected by the rank and file, some of the usually successful operators in coarse grains figured that with a reduction of 500,000,000 bu indicated and the possibility of further damage before harvesting time and with the unprecedentedly large old crop going out around 60c the situation warrants a firmer level of prices. Liverpool closed ⅛d higher.

Oats Lead in Strength.

Oats displayed firmness from start to finish, showing but little sympathy with the sharp decline in wheat. Trade was confined to narrow limits, the pit sometimes being at a standstill in activity. The trade is fighting shy of the market, believing that under existing conditions the grain lacks attractiveness. There was some early selling by longs, shorts being the best supporters. Final prices showed advances of ⅛c for September, which was under considerable pressure early; ⅛c for December, and ⅝@¾c for May. Some buying was based on the theory that strength in corn built up on possible damage from frosts would be reflected in oats. Local receipts were 217 cars, of which only three cars graded standard, the estimate for today being 266 cars. Primary arrivals were 907,000 bu, against 717,000 bu a year ago, and clearances amounted to 1,000 bu.

Provisions in Narrow Limits.

Hog products again ruled dull, prices moving within narrow bounds, and general trade being almost entirely of a professional sort. Some of the packing interests were accounted moderate buyers of nearby futures in ribs and lard, scattered speculators taking January products on the easier spots. The cash demand for manufactured products is reported improved. Western receipts of hogs were 67,900, compared to 70,500 the similar day a year ago. Estimated local arrivals of swine for today were 21,000. Final pit prices were 2½c up to 12½c lower for pork, unchanged for lard, and 2½c off to a shade firmer for ribs.

Rye in Good Demand.

Rye was in light supply, with the demand active for both cash and futures. Prices for the former were 1c higher, but for the latter no material change was noted. September sold at 87½c, closing at that price bid. December closed at 88c bid, and May at 90c bid. No. 2 sold at 87@89c, No. 3 at 84c, No. 4 at 80c, and no grade at 72@74c f. o. b. Receipts were 8 cars.

Barley was unchanged. Malting ranged from 84@94c, feed, 70@80c, and screenings, 50@70c. Receipts were 18 cars.

Flaxseed prices broke 2½c on receipts of 2 cars and an indifferent demand. No. 1 northwestern sold at $1.25, No. 1 southwestern closed at $1.15, and rejected northwestern at $1.11@1.15. Minneapolis receipts were 13 cars, Duluth had 15 cars, and Chicago 2 cars.

The attempt on the part of a few shorts to cover September timothy seed caused an advance of 40c in the price. The deferred futures advanced correspondingly. Country lots ranged from $3.90@4.30.

Cloverseed was steady. October closed at $15.50; cash lots, $12.00@$14.00.

INTERESTING TRADE GOSSIP ON 'CHANGE.

Brokers who are usually well informed as to what is going on in the pit were positive yesterday that James A. Patten had abandoned his bull campaign in wheat. Sales by the Bartlett-Frazier concern, in which Patten is an active partner, along with sales by brokers who gave up Bartlett-Frazier's name on their trades, were fully 5,000,000 bu. Wightman & Neafus and Barclay were among those who executed heavy orders for the Patten house. Local traders who had long wheat in their possession were all anxious to sell out when they saw that the bull leader was unloading. H. C. Champlin was a free seller. Chapin & Co. did some buying early and shorts were buyers on the decline to secure profits, but, generally speaking, the demand was tame. Logan & Bryan were heavy sellers late in the session, as were also A. O. Brown & Co. Commission houses sold corn freely early in the day and receivers sold against country offerings of cash, which were larger than of late. Logan & Bryan especially were active sellers. On the decline a good demand developed, Bartlett, Frazier & Carrington, Wrenn & Co., and Comstock being prominent buyers. The Lamson concern was a heavy seller of oats. Buckley, Updyke, Friedman, and Marfield, Tearse & Noyes were buyers. Boyd & Lunham were buyers of lard and ribs, while Roloson was a heavy seller of provisions.

A final settlement of the elevator controversy, declared to be satisfactory to all interests, was reached yesterday when the directors of the board of trade at a special meeting voted to make regular all the grain warehouses which were regular prior to July 1. All the outstanding warehouse receipts for grain and flaxseed that have been issued by the concerns affected by the agreement were also declared regular for delivery of grain and flaxseed on contracts. Members of the exchange expressed themselves as greatly pleased that the difficulties between the board and the elevator proprietors had been adjusted. Country shippers who have sold grain for delivery this month, especially corn and oats, it is said, will now be able to fill their contracts and thus avert serious losses which might have been suffered if sellers had been deprived of an opportunity to make deliveries.

Lenders & Co. of London say in their weekly letter: "The American winter wheat we know to be short, and the spring is by no means secured. The crop is late and liable to injury from frost. The condition of the Canadian crop appears to get worse each day, and, if latest advices can be relied upon, does not promise to yield more than half of last year. It is a matter of common knowledge that advices respecting the Canadian crop, emanating from one particular source, have been persistently bad throughout the summer, but not much attention was paid to them, and they were generally dismissed as more or less unreliable because coming from interested parties. Now, however, they are no longer ignored, and, on the contrary, are having a distinct effect on market movements. The crop is unquestionably late, there seems no doubt that damage by frost has already been done, and every day adds to the danger."

Arrangements for the eleventh annual meeting of the Grain Dealers' National association, to be held in Cincinnati on Oct. 2 and 3, have been completed. It is expected that a large number of Chicago grain dealers will attend the meeting. Gov. Harris of Ohio and Mayor Dempsey of Cincinnati will deliver addresses of welcome and W. A. Bennett of the Cincinnati chamber of commerce will extend the fraternal greetings. Secretary G. F. Stone of the Chicago board of trade will speak on behalf of the grain trade. There will be a review of the uniform grade congress, an address on uniform grading from the exporters' point of view, an address on the solution of the shortage problem, a discussion on bills of lading, and reports on crops and demurrage. The association's headquarters will be at the new Sinton hotel.

Demand for cash wheat was active, with further heavy sales reported for export. Germany continued to bid freely for red wheat. New York reported 800,000 bu sold to the other side. Sales in the local market included 100,000 bu of No. 2 red, 111,000 bu of No. 2 hard, and 40,000 bu No. 3 hard. The No. 2 hard sold mostly at 2c under December prices c. i. f. Buffalo. Winnipeg reported a large business doing there for direct export, while Kansas City and St. Louis were both enjoying considerable inquiry for wheat and flour by way of the gulf. Carlot offerings on the sample market were fair, and sales were at 1@2c decline. Demand for corn was active, and sales here were 320,000 bu. New York reported 96,000 bu taken for export. Sales of oats here were 165,000 bu.

Nothwestern Miller's report as received by Logan & Bryan: "With all the mills idle for Labor day, the Minneapolis output last week decreased 37,910 brls. The quantity turned out was 271,355 brls, against 262,080 in 1906. There was some improvement in the volume of domestic business done in flour by Minneapolis mills last week, and perhaps sales were equal to the output. However, there was not the snap about the market that usually is expected at this time of year."

Clement-Curtis had the following from Omaha: "Ran through ten Iowa counties today, from Sioux City to Fort Dodge to Omaha; all alike except for ten mile wide storm path through Pocahontas, Webster, and Calhoun, average about 65. Saturday's storm section about half that. Same people who report high corn average to government reported oats high until harvested. Corn will have like slump on windup."

Foreign exchange closed as follows: Liverpool, ⅝@¾d lower; Paris, delayed; Antwerp, unchanged; Budapest, ½c higher; and Berlin, 2⅝c lower.

Estimates for today: Wheat, 196 cars; corn, 449 cars; oats, 266 cars; barley, 21 cars; and hogs, 21,000.

Following from Barrell's crop expert, O. K. Lyle: "Average loss in condition spring wheat past five years, August to September, is 5.3 points. Loss this year, 2.3 points. Not making average loss. September condition suggests more wheat than indicated in August on five years' basis."

Following were the sales on the call: Corn—No. 3 October, 10,000 bu at 61½c transmississippi. Oats—No. 3 white, September, 10,000 bu at 49½c transmississippi; No. 3 white, October, 5,000 bu at 50c Illinois proportional.

St. Louis reported that bran sold there at $24.00 a ton. This was figured to be better than 75c a bu for corn.

Deliveries on September contracts yesterday were 50,000 bu wheat, 45,000 bu corn, and 25,000 bu oats.

A Chicago exporter says the foreign demand for wheat is the best he has seen since 1898.

IN THE WORLD OF FINANCE

Court Decree Fails to Affect Union Traction Securities.

LOCAL MARKET STAGNANT.

London Statist Comments Upon Liquidation, Skillfully Operated.

Holders of Union Traction and underlying securities have not been influenced in a market way by the change in the position of the companies as effected by court proceedings. Yesterday there was not a sale of any of the surface street railroad securities. North and West Chicago stocks were offered, but without bids. The market situation is one in which there is no disposition on the part of holders of the securities to relinquish what they have, and necessarily there is no buying enthusiasm. The result is a stagnant market, with those apparently in a way to lose everything they have willing to take that chance.

There was a fair amount of activity in the general list, but price features were few. Biscuit preferred sold at 111, a price lower than which the stock has not sold in several years. In the bond department Chicago Edison debenture 5s sold at 98, an advance of ½.

Worldwide Liquidation.

The worldwide liquidation in securities is commented upon by the London Statist as follows:

"The long and painful liquidation which has been going on ever since the beginning of this year not only in Europe but in America, and even in the far east, has at times given rise to serious alarm. Yet it goes to prove that business upon the stock exchanges, in spite of the rampant speculation which undoubtedly existed, was conducted with remarkable skill and judgment. The fall in prices has been almost phenomenal, and yet there has not yet so far been a single serious failure. All sorts of people have been talked about, even institutions which appeared beyond the reach of aspersion have been brought into question. But such suspensions as have occurred have not been for unusual amounts or in any way on a scale to excite surprise.

"All this goes to prove that the liquidation has to a considerable extent been an adaptation of prices to new conditions quite as much as a real liquidation in the sense usually understood by that word."

Weakness in Copper.

Further weakness in the copper market continues to develop. Quotations were made yesterday at 17c for lake. At the same time, the feeling in London is weak and the price of Amalgamated copper stock may be taken as an indication of what the leading copper interests in this country think of the immediate future of the market for copper metal. The Amalgamated Copper company, in addition, is likely to have labor troubles, for when prices for the metal were around 25c a pound, wages were increased at the mines with the understanding there would be a reduction in the same in the event of a serious decline in the price of copper. Naturally the labor unions now resent the suggestion of lower wages.

Western Union.

The Western Union telegraph directors, while declaring the regular quarterly dividend at their meeting yesterday, did not give out the usual quarterly statement of earnings. An official statement covering this point was:

"The usual estimated figures cannot be made public at this time since there is some delay in obtaining the correct figures from the various offices throughout the entire country."

It is believed the delay in obtaining the figures is due to the strike and possibly a relatively large reduction in income.

Dividends Declared.

The National Sugar Refinery of Jersey declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Oct. 2. Books close Sept. 18 and reopen Oct. 3.

The regular quarterly dividend of 1½ per cent on the preferred stock of the Columbus and Hocking Coal and Iron company will be paid Oct. 1. The books close Sept. 20 and reopen Oct. 2.

The American Iron and Steel company declared a quarterly dividend of 1¼ per cent on the common and preferred stocks, payable Oct. 1 to stock of record Sept. 23.

The Virginia-Carolina Chemical company declared its regular quarterly dividend of 2 per cent on its preferred stock, payable Oct. 15. The books close Sept. 28, and reopen Oct. 16.

General Financial News.

Since last Friday the New York subtreasury has gained $277,000 from the banks.

The Michigan State Telephone company reports a total of 130,205 subscribers of all classes as of June 30, 1907. This is reported to be an increase of 1,521 subscribers.

The annual meeting of the American Shipbuilding company will be held in Jersey City on October 9.

As Viewed by N. W. Harris.

N. W. Harris, head of the firm of N. W. Harris & Co., is of the opinion that the general fall in the market prices of bonds has not been caused by any loss of confidence in their security, but by the exceptionally large demand for money in Europe and America for all commercial purposes.

He estimates that a few years ago American railways put new construction and betterments $200,000,000 a year, while during the first six months of this year $600,000,000 of new securities were issued by American railroads and $250,000,000 by industrial corporations.

He reports sales of bonds made by the firm for the quarter ended Sept. 1 to be the largest for that quarter that has been experienced.

New York City Bond Quotations.

Quotations for New York City 4½s were reported yesterday by Babcock, Rushton & Louderback as follows: High, 103⅛; low, 102¼; last sale, 103; sales, $1,250,000.

CHICAGO LIVE STOCK MARKET.

All classes of hogs joined in a general advance in the market yesterday, the prices going from strong to 5c better. Quality was lacking, but the demand was sufficient to take up everything in sight. Cattle were steady to strong, although some advances of as much as 10c and 15c were noted during the day. Cowstuff was also full of the strong tendency. Sheep and lambs were generally steady, a slight advance in the latter being noted. Receipts for the day were: Cattle, 18,000; hogs, 23,000; sheep, 18,000.

REPORTS ON METAL TRADES.

Iron Age Declares Output of Pig Iron in Month Fell Five Thousand Tons Below Previous Yield.

NEW YORK, Sept. 11.—The Iron Age in its review of the iron and metal trades will say tomorrow: The statistics of the production of pig iron show that the output in August fell about 5,000 tons below that of July. The capacity of the furnaces active on Sept. 1 was only 508,568 tons a week, as compared with 513,471 tons on Aug. 1 and 528,170 tons, the record, on July 1.

There is a more cheerful feeling in the eastern pig iron trade. The movement has been most marked in basic pig, but has been observable also in forge and finished irons. In the west and south buyers and sellers are still apart.

A fair amount of structural material has been placed. Some of the railroads are figuring on bridge work and terminal work, among them the St. Paul, the Erie, and the New York Central. Chicago has buildings under negotiation involving about 10,000 tons.

The copper market is utterly demoralized. The effort to induce buying by naming 18 cents for electrolytic copper has been a flat failure. Electrolytic copper is now being offered at 16½ cents abroad without takers.

TO THE HOLDERS OF
Five Per Cent. Consolidated Mortgage Bonds
OF THE
West Chicago St. R. R. Co.

Recent proceedings in the United States Circuit Court in Chicago indicate that a plan of reorganization of the properties of the Chicago Union Traction Company will be forced through with the possible effect of destroying the security of your bonds.

In order to prevent disastrous consequences to your interests, it is necessary that a united effort should be made to protect your property rights. The undersigned, at the request of the holders of a large number of West Chicago Street Railroad Company Five Per Cent. Consolidated Mortgage Bonds, have consented to act as a Committee on behalf of bondholders.

On and after August 15, 1907, and up to and including September 16, 1907, bonds will be received by CENTRAL TRUST COMPANY OF NEW YORK, No. 54 Wall Street, Borough of Manhattan, New York, as depositary under an agreement, copies of which will then be ready for delivery at the office of said Trust Company. Suitable certificates will be issued by said depositary in exchange for bonds deposited. Bonds deposited must bear the coupon maturing November 1, 1907, and all subsequent coupons.

Dated August 14, 1907.

BONDHOLDERS' COMMITTEE.

At a meeting of the Committee held on September 9, 1907, the following preamble and resolutions were adopted:

WHEREAS, We believe that the situation in Chicago is critical and that action to save the Bondholders from serious loss must be taken this week.

RESOLVED, That we authorize William Burry and Abraham M. Beitler, who have been representing The Fidelity Trust Co., trustee, in the litigation, to take such action as they may deem best, to obtain for us the best possible terms of settlement.

RESOLVED, That holders of these bonds who have not already done so be urgently requested to deposit their bonds with the Committee—at The Fidelity Trust Co., 327 Chestnut Street, Philadelphia—as without concerted action by all the holders of securities of the various roads composing the Union Traction system of Chicago the value of their holdings will be seriously diminished if not altogether destroyed.

Electric Lamps, Dome Shades and Italian Marbles at Price-Incentives That Show Splendid Savings

While the Annual September Sale in Our Fifth Floor China, Glass and Artwares Section contributes many rare values which will not only maintain but add to its prestige, yet the selections we illustrate and describe herewith are distinctive features that merit more than the ordinary degree of attention at the very low prices we are enabled to quote.

As Illustrated Above The display of these dome shades embraces many original designs which harmonize perfectly with the soft color effects produced—they are highly artistic.

The dome shade illustrated measures 22 inches in diameter, has three lights and is made with high paneled crown. These domes are made of green, rose, amber or mottled glass and have 5-inch bead fringe to match. Priced especially for the September Sale at, each..... **$18.50**

As Illustrated Above The lamp we illustrate stands 25 inches high and is finished in weathered oak, with four-panel opalescent shade, and is trimmed with four-inch fringe to match. Priced especially for the September Sale at, each..... **$5.00**

Electric lamps, embracing brush brass, verd green and copper finishes, in artistic and novel designs, with leaded glass and metal shades—$7.50, $13.50, $25.00, $35.00 up to $150.00.

The price range on our entire line of electric domes fitted complete is $22.50, $25.00, $27.50, $30.00, $45.00, $65.00, $75.00 and up to $225.00, from which during this Sale we make a reduction of 15 per cent.

Fifth floor, north room.

We Illustrate and Describe a Few Specials in Italian Marbles Subject to 25% Discount

As indicating the greater attractiveness of this year's importation of Italian marbles we point to the addition of many new and strikingly artistic features in groups and figures. There are also many busts in lace hat effects as well as figures and busts of historical interest, embracing in all over 100 subjects for personal preferences.

"A la Fontaine." This figure stands 29 inches high and represents a maiden standing at the fountain—the sculptor's best efforts are realized in this work, which is of exceptional merit—$125.00.

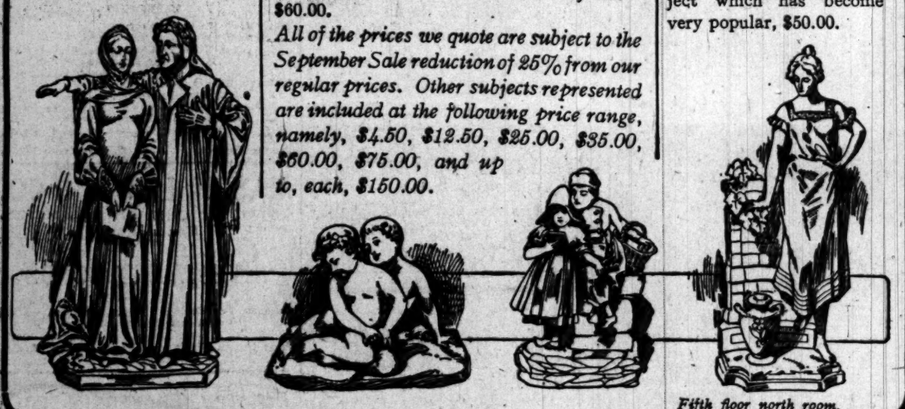

"The Japanese Maid," stands 18 inches high, and is a decidedly quaint subject typical of the Orient—finished in a soft ivory tint—$30.00.

"Napoleon," standing 23 inches high, is a most skillful reproduction of this famous general in his most characteristic attitude—finished in a soft and beautiful ivory tint—$60.00.

All of the prices we quote are subject to the September Sale reduction of 25% from our regular prices. Other subjects represented are included at the following price range, namely, $4.50, $12.50, $25.00, $35.00, $50.00, $75.00, and up to, each, $150.00.

"Joan of Arc," 24 inches high, a work of art, cleverly executed with helmet and armor in metal effect, $42.00.

"Thorn Boy," 20 inches high, an interesting subject which has become very popular, $50.00.

Fifth floor north room.

Dining Table, 48 inches in diameter, 8 foot extension, golden quarter-sawed oak, carved claw feet. An exceptional value, and the best we have ever offered at this price. These tables are all new stock, just from the finishing room (no job lot or closed out patterns), fitted with lock. We have a large quantity of these Tables, and will sell them at the exceptionally low price of $25.00.

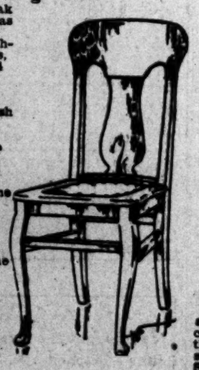

9.75 Value $15.00

The above Library Table is made in three sizes—42 inch, 9.75; 48 inch, 11.25; and 60 inches long, 12.75. Weathered oak finish. This is an exceptional value and an opportunity to secure a good Library Table at a very small outlay.

Dining Chair

This golden oak Dining Chair has full box seat, covered in leather. French legs, supported by 4 stretchers, and is built of fine quarter-sawed stock; the finish is polished by hand and compares with the best quality of furniture. Seat measures 18 inches across the front and is 17 inches deep. The leather is 12¼ inches square, put on by hand, and the workmanship will bear the closest inspection. The back of this Chair is 36 inches high. Regular price $5.00. Special sale price 3.00.

3.00 Value $5.00.

Mission Chair or Rocker.

9.50

Bibles at Half Price—Each, 38c

It is seldom we are enabled to offer Bibles at less than regular prices. These Bibles have come to us through the fault of the printers using a little too much pressure on the plates in running off this edition, which resulted in some pages being printed a little heavier than was intended. The practiced eye can see this fault, but probably with most it would pass unnoticed if not pointed out. However, the publishers decided to dispose of the entire edition at a figure that enables us to offer the greatest Bible bargain in years.

What This Bible Is

It is a minion type Sunday School Teachers' edition of the Bible, with marginal references, helps, concordance, subject index and illustrations. There are 1,000 pages of text, 332 pages of Helps, concordance and subject index, and 32 pages of illustrations. The binding is a suitable black cloth with gilt stamping and sprinkled edges. The size is an octavo, 5¾ by 8 inches, and 1½ inches thick.

What Is the Best Selling Book? The Bible

The question is frequently asked, What is the best selling book? It is not always realized that the Bible has been for centuries and is now the best selling book. Here, then, is a splendid opportunity to get the greatest of books, with the advantages of the best biblical scholarship contained in its Helps, at merely a nominal price. The regular price of this Bible is 75 cents—it could not be made to sell for less. We shall sell the 2,500 copies at 38 cents each. There is no restriction on the quantity that teachers and Sunday schools may purchase—you may buy one or one hundred copies, but the rate will be the same for all quantities—namely, 38 cents each. The Bibles are displayed today in one of our Wabash Avenue Book Room windows.

50-inch Coat Suit $30

30-inch Coat Suit $25

The new season ushers in one prominent feature in tailored suits, namely, that whether the coat is short, medium or long the style most becoming will be correct—there is no hard-and-fast rule as to length. In each of the medium-priced tailored coat suits we picture above there is a certain touch of individuality that makes them distinctive. And they are fairly priced—we commend them highly as special values.

We show in the illustration above a new model in a 50-inch strictly tailored broadcloth coat suit, which is satin lined throughout—the skirt is side plaited. It comes in the following colors: Black, navy and brown, and at the special price is a decidedly attractive value **$30.00**

As illustrated above, a strictly tailored 30 inch double breasted coat suit with inlaid velvet collar—skirt has double box plait in front, sides and back are plaited with fold around bottom. Good quality cheviot in these colors—black, navy and brown, **$25.00**
